McManus, 2013-06-04 Acclaimed historian John C McManus author of The Dead and Those About to Die explores World War II s most ambitious invasion Operation Market Garden an immense daring offensive to defeat Nazi Germany before the end of 1944 A riveting and deeply moving story of uncommon courage Alex Kershaw New York Times bestselling author of The First Wave August 1944 saw the Allies achieve more significant victories than in any other month over the course of the war The Germans were in disarray overwhelmed on all fronts Rumors swirled that the war would soon be over On September 17 the largest airborne drop in military history commenced over Holland including two entire American divisions the 101st and the 82nd Their mission was to secure key bridges at such places as Son Eindhoven Grave and Nijmegen until British armored forces could relieve them The Germans however proved much stronger than the Allies anticipated In eight days of ferocious combat they mauled the airborne stymied the tanks and prevented the Allies from crossing the Rhine September Hope conveys the American perspective like never before through a vast array of new sources and countless personal interviews to create a truly revealing portrait of this searing human drama Defence Iournal ,2004 A Magnificent Disaster David Bennett, 2008-07-08 Reveals much of what history has tended to gloss over should be a must read for all who have an interest in this operation Airborne Quarterly After Normandy the most spectacular Allied offensive of World War II was Operation Market Garden which planned to join three divisions of paratroopers dropped behind German lines with massive armored columns breaking through the front The object was to seize a crossing over the Rhine to outflank the heartland of the Third Reich and force a quick end to the war The operation utterly failed of course as the 1st British Airborne was practically wiped

out the American 82nd and 101st Airborne Divisions became tied down in vicious combat for months and the vaunted armored columns were foiled at every turn by improvisational German defenses Some have called the battle Hitler's last victory In this work many years in the making David Bennett puts forward a balanced and comprehensive account of the British American Polish Canadian and German actions as well as the strategic background of the operation in a way not yet done He shows for example that rather than a bridgehead over the Rhine Montgomery's ultimate aim was to flank the Ruhr industrial area from the north The book also deals as never before with the key role of all three Corps of British Second Army not just Brian Horrocks central XXX Corps For the first time we learn the dramatic untold story of how a single company of Canadian engineers achieved the evacuation of 1st Airborne's survivors back across the Rhine when all other efforts had failed Also revealed is the scandal of how Polish Gen Sosabowski was treated by the British military authorities and how the operation would have failed at the outset but for the brilliant soldiery of the two American airborne divisions Respectfully nodding to A Bridge Too Far and other excellent works on Market Garden the author has interviewed survivors walked the ground and performed prodigious archival research to increase our understanding of the battle from the actions of the The Last German Victory Aaron Bates, 2021-12-22 lowliest soldier to the highest commander Allied and German Operation Market Garden the Allied airborne invasion of German occupied Holland in September 1944 is one of the most famous and controversial Allied failures of the Second World War Many books have been written on the subject seeking to explain the defeat Historians have generally focused on the mistakes made by senior commanders as they organized the operation The choice of landing zones has been criticized as has the structure of the airlift plan But little attention has been paid to the influence that combat doctrine and training had upon the relative performance of the forces involved And it is this aspect that Aaron Bates emphasizes in this perceptive closely argued and absorbing re evaluation of the battle As he describes each phase of the fighting he shows how German training which gave their units a high degree of independence of action better equipped them to cope with the confusion created by the surprise Allied attack In contrast the British forces were hampered by their rigid and centralized approach which made it more difficult for them to adapt to the chaotic situation Aaron Bates s thought provoking study sheds fresh light on the course of the fighting around Arnhem and should lead to a deeper understanding of one of the most remarkable episodes in the final stage of the Second World War in western Europe

Normandy the paratroopers were finally pulled out of the line on June 30 1944 after being in virtually constant combat since their night drop in the early morning of June 6 the Screaming Eagles of the 101st Airborne Division returned to battle on Sept 17 1944 as part of Field Marshal Montgomery s audacious plan to seize a Rhine River bridgehead and help bring the war against Germany to a swift conclusion The plan was simple A three airborne division air assault would secure key bridge sites along the sixty mile road to the Rhine River town of Arnhem allowing the attacking British XXX Corps spearhead across the river Once across the Rhine Monty s armies would be able to end run the German forces in France and capture Berlin before the Nazis would be able to respond The British field marshal named his bid to bring the war to a quick end Operation Market Garden Historian Cornelius Ryan immortalized it with a different name a bridge too far Operation Market Garden proved to be as impossible as it was audacious Yet the paratroopers of the 101st accomplished their mission capturing and holding all of their assigned objectives It was at a high cost however as the Screaming Eagles battled the Nazis along what quickly became known as Hell's Highway for seventy two days Finally in late November the 101st was pulled out of line In a harrowing first person narrative of battle The Road to Arnhem Donald R Burgett describes his experiences in the 101st Airborne Division during World War II is considered a classic of combat literature Donald R Burgett is the author of Currahee a critically acclaimed memoir of the Normandy invasion and Seven Roads to Hell his epic account of the Battle of Bastogne and Beyond the Rhine that continues through Austria and Germany to the capture of Hitler's home in Berchtesgaden
