Road To Power The Trans Siberian Railroad And The Colonization Of Asian Russia 1850 1917:

Road to Power Steven Gary Marks,1991 *Russian Germans on Four Continents* Anna Flack,Jan Musekamp,Jannis Panagiotidis,Hans-Christian Petersen,2023-12-11 The history of Russian Germans Russlanddeutsche is one of intensive mobility across space and time Today the descendants of eighteenth century German speaking settlers in the Russian Empire live on four continents Europe Asia and North and South America In this volume authors from the fields of history sociology cultural studies and sociolinguistics analyze key issues of the history and present of this globally connected diaspora group from an interdisciplinary angle Contributions address the institutional regimes and networks that shaped and continue to shape the mobility of Russian Germans on a global scale the impact of war and violence on the history of this group during the Age of Extremes and the language shifts that accompanied their multiple global moves Its interdisciplinary and geographic diversity makes this volume a unique contribution to research on migration global diaspora transnationalism and practices of belonging By analyzing the multiple pathways of migration entanglement and belonging of people designated as Russian Germans in past and present its chapters provide fresh insight into the making and unmaking of a global diaspora

The Russian General Staff and Asia, 1860-1917 Alex Marshall,2006-11-22 This new book examines the role of the Tsarist General Staff in studying and administering Russia s Asian borderlands It considers the nature of the Imperial Russian state the institutional characteristics of the General Staff and Russia s relationship with Asia During the nineteenth century Russia was an important player in the so called Great Game in central Asia Between 1800 and 1917 officers of the Russian General Staff travelled extensively through Turkey central Asia and the Far East gathering intelligence that assisted in the formation of future war plans It goes on to consider tactics of imperial expansion and the role of military intelligence and war planning with respect to important regions including the Caucasus central Asia and the Far East In the light of detailed archival research it investigates objectively questions such as the possibility of Russia seizing the Bosphorus Straits and the probability of an expedition to India Overall this book provides a comprehensive account of the Russian General Staff its role in Asia and of Russian military planning with respect to a region that remains highly strategically significant today **The Rise and Fall of Russia's Far Eastern Republic, 1905-1922** Ivan Sablin,2018-07-17 The Russian Far East was a remarkably fluid region in the period leading up to during and after the Russian Revolution The different contenders in play in the region imagining and working toward alternative futures comprised different national groups including Russians Buryat Mongols Koreans and Ukrainians different imperialist projects including Japanese and American attempts to integrate the region into their political and economic spheres of influence as well as the legacies of Russian expansionism and Bolshevik efforts to export the revolution to Mongolia Korea China and Japan and various local regionalists who aimed for independence or strong regional autonomy for distinct Siberian and Far Eastern communities and whose efforts culminated in the short lived Far Eastern Republic of 1920 1922 The Rise and Fall of Russia s Far Eastern Republic 1905 1922 charts

developments in the region examines the interplay of the various forces and explains how a Bolshevik version of state centered nationalism prevailed

White Siberia Norman G. O. Pereira, 1996 He highlights similarities and differences among the constitutional programs and ideologies paying particular attention to the Kolchak government as the chief anti Bolshevik force in the region

Siberia, Siberia Valentin Rasputin, 1997-10-29 This work offers an account of the Russians 400 years of experience in Siberia Rasputin looks at the the peculiar physical and character traits of the Siberian Russian type and at the gap between dreams and reality that have plagued Russians in Siberia

Railways and International Politics T.G. Otte, Keith Neilson, 2012-09-10 This new study brings together leading experts to show how the modern world began with the coming of the railway They clearly explain why it had a greater impact than any other technical or industrial innovation before and completely redefined the limits of the civilized world While the effect of railways on economic development is self evident little attention has been paid to their impact on international relations This is unfortunate for in the period from 1848 to 1945 railways were an important element in the struggle between the Great Powers This took many forms Often as in East Asia the competition for railway concessions reflected the clash of rival imperial interests The success or failure of this competition could determine which of the European Powers was to dominate and exploit the markets of China and Siam Just as often railways were linked with military matters Prussia s success in the wars of German unification depended on its strategic railways just as much as on the strength of its armies and the rail links remained a vital aspect of German military thinking before the First World War So too did they for the Russians whose vast Empire required rail links capable of moving the Tsarist army quickly and competently Just as importantly railways could be vital for Imperial defence as the British discovered on the North West frontier of India This book will be of much interest to students of international history military history and strategic studies

Imperial Rivals S. C. M. Paine, 1996 Based on archival research this is a history of the Russo Chinese border which examines Russia s expansion into the Asian heartland during the decades of Chinese decline and the 20th century paradox of Russia s inability to sustain political and economic sway over its domains

Russian Corporate Capitalism from Peter the Great to Perestroika Thomas C. Owen, 1995 Professor Owen examines corporate capitalism under the Tsarist and late Soviet regimes Covering two hundred years from the Tsarist period through perestroika and into the present he demonstrates the historical obstacles that have confronted Russian corporate entrepreneurs and the continuity of Russian attitudes toward corporate capitalism

Count Sergei Witte and the Twilight of Imperial Russia Sidney Harcave, 2015-04-08 Sergei Witte served as finance minister and later prime minister of Russia during the reigns of Alexander III and Nicholas II and was in large part responsible for the development policies which saw Russia transformed from a peasant economy into an industrial nation This is the first biography of Witte in English

A Woman's Empire Katya Hokanson, 2022-10-03 A Woman s Empire explores a new dimension of Russian imperialism women actively engaged in the process of late imperial expansion The book investigates how women writers travellers and

scientists who journeyed to and beyond Central Asia participated in Russia's civilizing and colonizing mission utilizing newly found educational opportunities while navigating powerful discourses of femininity as well as male dominated science Katya Hokanson shows how these Russian women resisted domestic roles in a variety of ways The women writers include a governor general's wife a fiction writer who lived in Turkestan and a famous Theosophist among others They make clear the perspectives of the ruling class and outline the special role of women as describers and recorders of information about local women and as builders of civilized colonial Russian society with its attendant performances and social events Although the bulk of the women's writings drawings and photography is primarily noteworthy for its cultural and historical value *A Woman's Empire* demonstrates how the works also add dimension and detail to the story of Russian imperial expansion and illuminates how women encountered imagined and depicted Russia's imperial Other during this period **The First Cold War** Barbara Emerson, 2024 A comprehensive history of Russo British relations at the height of the imperial age from Peter the Great to the Triple Entente **Trans-European Networks** D. Johnson, C. Turner, 2015-12-22 Trans European networks TENs are a key theme in the process of integration for the EU as it enters the next millennium The attainment of these networks stretches across many different areas of European policy and economy The development of TENs is about establishing a series of infrastructure networks that complement the broad changes in the European economy facilitated by the development of the Single European Market The book examines the development of TENs in the three key sectors transport energy and telecommunications noting key themes and issues that need to be faced in their attainment Attention is also paid to common problems in their realisation most notably the financing problems The EU's strategy to develop these networks is essentially market led yet as the financing issues indicate a consensus between the states in allowing commercial investment in infrastructure is proving elusive Origins of the First World War Gordon Martel, 2016-10-04 *Origins of the First World War* summarizes the policies issues and crises that brought Europe to war in 1914 Examining the strategic and political problems that confronted each of the great powers and the way in which social and economic factors influenced the decision making process Martel discusses the position of each power and their place in the system of alliances which dominated international politics The fourth edition has been revised and updated throughout to incorporate the body of new scholarship that has appeared since the hundredth anniversary of the outbreak of war In a clear and accessible manner it explains how and why the alliance system was created how alliances led to a network of complicated strategic commitments how an escalating series of international crises from the turn of the century fuelled preparations for war why the peculiarities of the Balkan situation are essential in understanding the outbreak of war in 1914 This book also includes an updated Guide to Further Reading Who's Who of important figures and Glossary of key terms and the selection of documents has been expanded to include the key treaties as well as evidence of popular militarism and nationalism Concise accessible and analytical it is essential introductory reading for all students interested in the origins of the First World War **Bounding**

Power Daniel H. Deudney, 2010-12-16 Realism the dominant theory of international relations particularly regarding security seems compelling in part because of its claim to embody so much of Western political thought from the ancient Greeks to the present Its main challenger liberalism looks to Kant and nineteenth century economists Despite their many insights neither realism nor liberalism gives us adequate tools to grapple with security globalization the liberal ascent and the American role in their development In reality both realism and liberalism and their main insights were largely invented by republicans writing about republics The main ideas of realism and liberalism are but fragments of republican security theory whose primary claim is that security entails the simultaneous avoidance of the extremes of anarchy and hierarchy and that the size of the space within which this is necessary has expanded due to technological change In Daniel Deudney's reading there is one main security tradition and its fragmentary descendants This theory began in classical antiquity and its pivotal early modern and Enlightenment culmination was the founding of the United States Moving into the industrial and nuclear eras this line of thinking becomes the basis for the claim that mutually restraining world government is now necessary for security and that political liberty cannot survive without new types of global unions Unique in scope depth and timeliness Bounding Power offers an international political theory for our fractious and perilous global village

A Thousand Blunders Frank Leonard, 2011-11-01 During the first two decades of this century the Grand Trunk Pacific Railway played an important part in the development of the north central corridor of British Columbia The GTP which ran from Winnipeg via the Yellowhead Pass and Edmonton to Prince Rupert on the northwest coast was built to supplant the Canadian Pacific line to Vancouver The B C line was the most expensive and least remunerative of its sections and contributed ultimately to the company's collapse in 1919 In A Thousand Blunders Frank Leonard looks at why the Road of a Thousand Wonders failed to live up to the expectations forecast by company president Charles M Hays and other senior managers Not only was the railway built through a sparsely settled region which generated little immediate traffic but its economic difficulties were also compounded by the numerous mistakes made by managers at all levels for example their failure to respond adequately to labour shortages caused serious delays and prevented the company from proving Prince Rupert as an effective alternative harbour before World War I broke out For this book Frank Leonard had access to a wealth of original documents among them the GTP legal department files providing him with insights into the decisions that formed the basis for policies in townsites and on Indian reserves A Thousand Blunders is a provocative account of one of the greatest failures in Canadian entrepreneurial history Richly detailed and thoroughly documented it makes an important contribution to the fields of railway and business history as well as to the study of the history of northern British Columbia

Scenarios of Power: From Alexander II to the abdication of Nicholas II Richard Wortman, 1995 V 1 From Peter the Great to the death of Nicholas I

Stalin Stephen Kotkin, 2015-10-13 In his biography of Stalin Kotkin rejects the inherited wisdom about Stalin's psychological makeup showing us instead how Stalin's near paranoia was fundamentally political and closely tracks the Bolshevik revolution's

structural paranoia the predicament of a Communist regime in an overwhelmingly capitalist world surrounded and penetrated by enemies At the same time Kotkin posits the impossibility of understanding Stalin's momentous decisions outside of the context of the history of imperial Russia A Companion to Russian History Abbott Gleason, 2014-01-28 This companion comprises 28 essays by international scholars offering an analytical overview of the development of Russian history from the earliest Slavs through to the present day Includes essays by both prominent and emerging scholars from Russia Great Britain the US and Canada Analyzes the entire sweep of Russian history from debates over how to identify the earliest Slavs through the Yeltsin Era and future prospects for post Soviet Russia Offers an extensive review of the medieval period religion culture and the experiences of ordinary people Offers a balanced review of both traditional and cutting edge topics demonstrating the range and dynamism of the field Imperial Visions Mark Bassin, 1999-06-24 In the middle of the nineteenth century the Russian empire made a dramatic advance on the Pacific by annexing the vast regions of the Amur and Ussuri rivers Although this remote realm was a virtual terra incognita for the Russian educated public the acquisition of an Asian Mississippi attracted great attention nonetheless even stirring the dreams of Russia's most outstanding visionaries Within a decade of its acquisition however the dreams were gone and the Amur region largely abandoned and forgotten In an innovative examination of Russia's perceptions of the new territories in the Far East Mark Bassin sets the Amur enigma squarely in the context of the Zeitgeist in Russia at the time Imperial Visions demonstrates the fundamental importance of geographical imagination in the mentality of imperial Russia This 1999 work offers a truly novel perspective on the complex and ambivalent ideological relationship between Russian nationalism geographical identity and imperial expansion
