## PHONEMIC AWARENESS

Phonemic awareness is the ability to identify and manipulate the smallest units of sound in a word (phonemes), which help to differentiate units of meaning (morphemes).

- Can they isolate the individual sounds in words? E.g., "tell me the first sound you hear in the word \_\_\_\_." (A.1)
- Can they recognize common sounds in different words? E.g., "tell me the sound that is the same in boy, bike, bat"
- Can they turn one word into another by changing one phoneme? E.g., cat into hat

## ALPHABETIC PRINCIPLE

Knowledge of letter names and their sounds forms the basis of literacy development, what we refer to as "grapheme/phoneme correspondence".

- Does the student understand that words are composed of letters?
- Can they associate a letter with its corresponding sound? (A.2)
- Can they apply this letter/sound knowledge to sounding out words with regular consonant/vowel combinations? E.g., "cat"?

- Explicit instruction of the alphabet symbols and the sounds they represent (A.2)
- Right to left spellings represent their phonemes from first to last
- Understanding that multi-letter units can represent a single sound e.g. "ch, sh, th"

- Teach syllable awareness through counting, clapping, or tapping to count out the phonemes in words
- Use alliteration tongue twisters and rhythms to teach students how different words share common phonemes e.g., "sally sells sea shells..." (A.1)

## WORD READING

Ability to read sight words (non-decodable words) and common words (decodable words)

- Can they read sight words? (non-decodable words like "the", "was", "of") (A.3)
- Can they read common words (decodable words like "er", "ee", "oo")
- Do they understand the meaning of the word?

## READING FLUENCY

Reading fluency is a measure of both accuracy and speed. The ability to read fluently frees the reader's working memory capacity to attend to the meaning of the text. Readers who rely on effortful decoding of each word are less able to comprehend what they read.

- Reading fluency is an emergent ability that requires the reader's mastery of the preceding literacy skills
- Systematic instruction of foundational literacy skills will support reading fluency (A.3)

- Sight words are affixed through practice. Repeated reading should be used until students can accurately read 95% of words in text (A.3)
- Common words are initially read via phonetic decoding prior to being affixed for automatic retrieval (A.3)

## How to Use This Infographic

This infographic provides a road map of literacy development for primary grade students. The ultimate goal for learning readers is to read with an accuracy and fluency that allows for **reading comprehension**. Before we can achieve this, foundational literacy skills need to be developed. Following the winding road below, educators should assess in order the **bolded** literacy skills in learning readers.

**Text bubbles with this symbol provide tips for instructing readers in these foundational literacy skills**

**Text bubbles marked with this symbol provide tips for assessing foundational literacy skills**

**Detailed information regarding specific assessment tools and instructional strategies and methods are found in the expanded appendices**

## READING COMPREHENSION

Reading comprehension is the ability to infer the meaning of read text. More complex texts require experienced readers to deduce meaning that goes beyond literal interpretations to figurative understandings. Reading comprehension requires that the reader continually monitor their understanding while reading.

- Students need 3-7 exposures to a new word in order to learn it (A.4)
- A good rate of vocabulary acquisition is 10 new words a week (A.4)
- Target high frequency words that apply across subject areas (tier 2 words) (A.4)

## VOCABULARY

Readers must be able to understand 90-95% of the words in the passage in order to understand the meaning of the passage (A.4)

- Does the student understand common words and academic words needed to function in the classroom? (A.4)

- Can the student read a passage and then tell you what the passage is about? (A.5)
- Can the student answer literal questions about the content of the material?
- Can the student infer abstract meaning from the text? (A.5)
