Ana Pauker Robert Levy, 2001-03-22 In her own day Ana Pauker was named The Most Powerful Woman in the World by Time magazine Today when she is remembered at all she is thought of as the puppet of Soviet communism in Romania blindly enforcing the most brutal and repressive Stalinist regime Robert Levy's new biography changes the picture dramatically revealing a woman of remarkable strength dominated by conflict and contradiction far more than by dogmatism Telling the story of Pauker's youth in an increasingly anti-Semitic environment her commitment to a revolutionary career and her rise in the Romanian Communist movement Levy makes no attempt to whitewash Pauker's life and actions but rather explores every contour of the complicated persona he found expressed in masses of newly accessible archival documents

The A to Z of Moldova Andrei Brezianu,Vlad Spânu,2010-05-26 The Republic of Moldova claims a European lineage reaching back in time long before its 14th century accession to statehood In the 15th century it managed against all odds to avoid being conquered by Islam and albeit an intermittent vassal after 1485 it maintained its autonomy and was never turned into a province of the Ottoman Empire After this period however Moldova would not be so fortunate as it altered between Russian Romanian and Soviet control until it finally gained its independence in 1991 from the Soviet Union The A to Z of Moldova through its chronology introduction appendixes maps bibliography and hundreds of cross referenced dictionary entries on important persons places events and institutions and significant political economic social and cultural aspects traces the history of this small but densely populated country providing a compass for the direction it is heading **Europe Since 1945** Bernard A. the struggle towards economic and social modernisation in the region and the competing influences of East and West in a dangerous Cold War Bulent Gokay shows how individual circumstances and diverse national characteristics made a uniform application of the Soviet model impossible and charts the growing resistance to domination and the momentous events which finally toppled Soviet power in the region

Fischer, 1999 *The Second World War in Europe* has generated more literature than perhaps any other event in modern history. Much of the interest has focused on military history, occupation policy, puppet governments, and resistance movements in Europe's principal states. Often ignored in this flood of material, however, are the small nations of southeastern Europe. Yet in the small states, the human suffering was no less profound, the destruction no less devastating, the heroism no less laudable, the treachery no less despicable, and the impact no less profound. *Albania at War* reviews the most important developments in Albania from the Italian invasion of the country in 1939 to the accession to power of the Albanian Communist Party and the establishment of a people's democracy in 1946. Fischer analyzes in great detail Italian goals and objectives in Albania and explains the eventual failure of Rome's policy, the subsequent German invasion of the country against the Axis Powers. This unique path-breaking book provides a vigorous and thought-provoking analysis of competing external interests in Albania and explores the great obstacles that the Albanians faced in regaining their independence at the end of the war. *Albania at War 1939-1945* thoroughly covers the developments in Albania during that turbulent period. It is essential reading for all students of Albanian history.

The Balkans Mark Biondich, 2011-02-17. The Balkans has long been a place of encounter among different peoples, religions, and civilizations, resulting in a rich cultural tapestry and mosaic of nationalities. But it has also been burdened by a traumatic post-colonial experience. The transition from traditional multinational empires to modern nation-states has been accompanied by large-scale political violence that has resulted in the deaths of hundreds of thousands and the permanent displacement of millions more. Mark Biondich examines the origins of these conflicts while treating the region as an integral part of modern European history, shaped by much the same forces and intellectual impulses. It reminds us that political violence and ethnic cleansing have scarcely been unique to the Balkans. As Biondich shows, the political violence that has bedeviled the region since the late nineteenth century stemmed from modernity and the ideology of integral nationalism employed by states that were dominated by democratizing or authoritarian nationalizing elites committed to national homogeneity. Throughout this period, the Balkan proponents of democratic governance, civil society, and multiculturalism were progressively marginalized. The history of revolution, war, political violence, and ethnic cleansing in the modern Balkans is, above all, the story of this tragic marginalization.
