Copyright Office,1977 **The Making and Unmaking of Empires** P. J. Marshall,2007-09-27 In The Making and Unmaking of Empires P J Marshall distinguished author of numerous books on the British Empire and former Rhodes Professor of Imperial History provides a unified interpretation of British imperial history in the later eighteenth century He brings together into a common focus Britain s loss of empire in North America and the winning of territorial dominion in parts of India and argues that these developments were part of a single phase of Britain s imperial history rather than marking the closing of a first Atlantic empire and the rise of a second eastern one In both India and North America Britain pursued similar objectives in this period Fearful of the apparent enmity of France Britain sought to secure the interests overseas which were thought to contribute so much to her wealth and power This involved imposing a greater degree of control over colonies in America and over the East India Company and its new possessions in India Aspirations to greater control also reflected an increasing confidence in Britain s capacity to regulate the affairs of subject peoples especially through parliament If British objectives throughout the world were generally similar whether they could be achieved depended on the support or at least acquiescence of those they tried to rule Much of this book is concerned with bringing

together the findings of the rich historical writing on both post Mughal India and late colonial America to assess the strengths and weaknesses of empire in different parts of the world In North America potential allies who were closely linked to Britain in beliefs culture and economic interest were ultimately alienated by Britain s political pretensions Empire was extremely fragile in two out of the three main Indian settlements In Bengal however the British achieved a modus vivendi with important groups which enabled them to build a secure base for the future subjugation of the subcontinent With the authority of one who has made the study of empire his life s work Marshall provides a valuable resource for scholar and student alike Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1977 *The Cutting-Off Way* Wayne E. Lee,2023-08-10 Incorporating archeology anthropology cartography and Indigenous studies into military history Wayne E Lee has argued throughout his distinguished career that wars and warfare cannot be understood by a focus that rests solely on logistics strategy and operations Fighting forces bring their own cultural traditions and values onto the battlefield In this volume Lee employs his cutting off way of war COWW paradigm to recast Indigenous warfare in a framework of the lived realities of Native people rather than with regard to European and settler military strategies and practices Indigenous people lacked deep reserves of population or systems of coercive military recruitment and as such were wary of heavy casualties Instead Indigenous warriors sought to surprise their targets and the size of the target varied with the size of the attacking force A small war party might cut off individuals found getting water wood or out hunting while a larger party might attempt to attack a whole town Once revealed by its attack the invading war party would flee before the defenders reinforcements from nearby towns could organize Sieges or battles were rare and fought mainly to save face or reputation After discussing the COWW paradigm including a deep look at Native logistics and their associated strategic flexibility Lee demonstrates how the system worked and evolved in five subsequent chapters that detail intra tribal and Indigenous colonial warfare from pre contact through the American Revolution Catalogue of Title-entries of Books and Other Articles Entered in the Office of the Librarian of Congress, at Washington, Under the Copyright Law ... History,1918 *Subject Guide to Books in Print* ,2001 Women's Work and Identity in Eighteenth-Century Brittany Nancy Locklin,2016-02-17 Based on a solid foundation of archival research that ranges from tax rolls to notarial records this study adds an important chapter to our understanding of women in pre industrial Europe Through a rigorous examination of primary documents peculiar to eighteenth century Brittany the author demonstrates the difficulties engendered in broad generalities about European women and makes a strong case for the necessity for historians to account for regional differences in women s experiences In particular Nancy Locklin makes a compelling argument for the need to incorporate a broader basis upon which women attained their identity Indeed Locklin rightly contends that most women in pre industrial European societies were recognized and perhaps saw themselves through a variety of identities over the course of their lives

depending on their age familial connections marital status and the type of work they performed and that often these identities overlapped Locklin also shows the extent to which legal and ideological prescriptions painted a relatively negative picture of women's status but that a close examination of women's participation in family community and commercial affairs reveals a much more complex and divergent reality

Scandal of Colonial Rule James Epstein, 2012-03-22 In 1806 General Thomas Picton Britain's first governor of Trinidad was brought to trial for the torture of a free mulatto named Louisa Calderon and for overseeing a regime of terror over the island's slave population James Epstein offers a fascinating account of the unfolding of this colonial drama He shows the ways in which the trial and its investigation brought empire home and exposed the disjuncture between a national self image of humane governance and the brutal realities of colonial rule He uses the trial to open up a range of issues including colonial violence and norms of justice the status of the British subject imperial careering visions of development after slavery slave conspiracy and the colonial archive He reveals how Britain's imperial regime became more authoritarian hierarchical and militarised but also how unease about abuses of power and of the rights of colonial subjects began to grow

Memory, Identity and the Colonial Encounter in India Ezra Rashkow, Sanjukta Ghosh, Upal Chakrabarti, 2017-08-18 This book sheds new light on the dynamics of the colonial encounter between Britain and India It highlights how various analytical approaches to this encounter can be creatively mobilised to rethink entanglements of memory and identity emerging from British rule in the subcontinent This volume reevaluates central long standing debates about the historical impact of the British Raj by deviating from hegemonic and top down civilizational perspectives It focuses on interactions relations and underlying meanings of the colonial experience The narratives of memory identity and the legacy of the colonial encounter are woven together in a diverse range of essays on subjects such as colonial and nationalist memorials British Eurasian Dalit and Adivasi identities regional political configurations and state initiatives and patterns of control By drawing on empirically rich regional and chronological historical studies this book will be essential reading for students and researchers of history political science colonial studies cultural studies and South Asian studies

Atlantic Environments and the American South Thomas Blake Earle, D.
