## Road To Inamura:

The Road to Inamura Lewis William Bush,1961      **The Road to Inamura, Etc. [Autobiographical Reminiscences. With Plates, Including Portraits.]**. Lewis William Bush,1961      Japan Experiences - Fifty Years, One Hundred Views Hugh Cortazzi,2013-12-19 This unique volume comprising writings and memoirs covering the half century since the end of the Pacific War offers the reader a fascinating and remarkable collection of personal experiences of Japan across a wide spectrum      Keeling's Guide to Japan W. E. L. Keeling,1889      **We Shall Suffer There** Tony Banham,2009-03-01 Tony Banham documents the experiences of Hong Kong s prisoners of war and civilian internees from their capture by the Japanese in December 1941 to liberation rescue and repatriation      **Foreign Communities in Hong Kong, 1840s-1950s** C. Chu,2005-10-06 This collection of essays describes adaptations of minority ethnic groups to cross cultural situations in Hong Kong from the 1840s through the 1950s It aims to portray Hong Kong history through the perspectives of foreign communities the British Germans Americans Indians and Japanese and to understand how they perceived the economic situation political administration and culture of the colony      *Escape from Hong Kong* Tim Luard,2011-12-01 On 25 December 1941 the day of Hong Kong s surrender to the Japanese Admiral Chan Chak the Chinese government s chief agent in Hong Kong and more than 60 Chinese and British intelligence naval and marine personnel made a dramatic escape from the invading army They travelled on five small motor torpedo boats all that remained of the Royal Navy in Hong Kong across Mirs Bay landing at a beach near Nanao Then guided by guerrillas and villagers they walked for four days through enemy lines to Huizhou before flying to Chongqing or travelling by land to Burma The breakout laid the foundations of an escape trail jointly used by the British Army Aid Group and the East River Column for the rest of the war Chan Chak the celebrated one legged admiral became Mayor of Canton after the war and was knighted by the British for his services to the Allied cause His comrade in the escape David MacDougall became head of the civil administration of Hong Kong in 1945 This gripping narrative account of the escape draws on a wealth of primary sources in both English and Chinese and sheds new light on the role played by the Chinese in the defence of Hong Kong on the diplomacy behind the escape and on the guerillas who carried the Admiral in a sedan chair as they led his party over the rivers and mountains of enemy occupied China *Escape from Hong Kong* will appeal not just to military historians and those with a special interest in Hong Kong and China but also to anyone who appreciates a good old fashioned adventure story      Not the Slightest Chance Tony Banham,2003 More than 10% of Hong Kong s defenders were killed in battle a further 20% died in captivity Those who survived seldom spoke of their experiences Many died young The little primary material surviving written in POW camps or years after the events is contradictory and muddled Yet with just 14 000 defending the colony it was possible to write from the individual s point of view rather than that of the Big Battalions so favoured by God according to Napoleon and most historians The book assembles a phase by phase day by day hour by hour and death by death account of the battle It considers the individual

actions that made up the fighting as well as the strategies and plans and the many controversies that arose      **Streets** Jason Wordie,2002-03-01 In this book Jason Wordie takes the reader on fifty tours through the urban and historic places of Hong Kong Island ranging from Central through Wan Chai to Shau Kei Wan then to Shek O along the south coast from Stanley to Aberdeen completing a circuit of the Island through Pok Fu Lam Kennedy Town to Sheung Wan Each place is introduced with an essay that describes the area and the way it has changed then the reader is taken on a walk around the area s streets with the important interesting curious and historically illuminating sites described and illustrated      **Coconut Palm Frond Weaving** William Goodloe,2012-08-28 Learn the art of palm weaving with this fun Hawaiian craft book Based on years of meticulous study and practice the book explains in clear easy to understand instructions how to obtain and prepare coconut palm fronds suitable for weaving into hats baskets epergnes mats birds and various decorations More than 100 easy to follow diagrams and sketches give the reader exact detailed instructions on weaving procedures and provide countless ideas to inspire the imagination of the creator After mastering the basic principles of frond weaving the reader will be able to duplicate almost any woven object or execute his own designs whether in coconut palm fronds or with fronds from other types of palm trees and palmettos The weaving itself takes no unusual physical prowess In fact frond weaving is well suited to the needs of both recreational craft and physical therapy programs as well as the general hobbyist With a little patience and effort a novice weaver can acquire the skills of an ancient art which is as uncomplicated as it is beautiful This economical and delightfully presented volume will be a valued addition to the literature of traditional handicrafts a book that recreation libraries and all craft enthusiasts will welcome      **Transportation Engineering and Planning - Volume I** Tschangho John Kim,2009-04-15 Transportation Engineering and Planning is a component of Encyclopedia of Physical Sciences Engineering and Technology Resources in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias The Theme on Transportation Engineering and Planning presents the readers with diverse sources of information and knowledge about transportation engineering and planning to help ensure that informed actions are compatible with sustainable world development It begins with a historical analysis of transportation development since an understanding of how transportation technologies developed is a prerequisite for understanding issues involved in transportation systems and for developing sound policy analysis Next the various chapters analyze transportation problems discusses the state of public policy addressing those problems considers the causes and effects of changes in demand for mobility as the socio economic environment changes and then deals with the fundamental questions related to transportation These two volumes are aimed at the following a wide spectrum of audiences from the merely curious to those seeking in depth knowledge University and College students Educators Professional practitioners Research personnel and Policy analysts managers and decision makers and NGOs      Eco-efficient Construction and Building Materials Fernando Pacheco-Torgal,Luisa F. **Daily Life in Japan** Louis Frederic, 2010-11-01 From the tenth century onwards the emperors of Japan gradually lost power The local lords or clan chiefs waged ceaseless war against each other while the court wholly steeped in Chinese culture seemed to take no further interest in the affairs of the nation In 1191 the Minamoto clan mastered the disturbances and finally imposed its rule Hard work respect for the hierarchy the cult of nationalism a sense of self sacrifice and duty such was the new trend The Buddhist doctrine of Zen made its appearance It gave mystical support to the samurai and the Japanese spirit was henceforth directed towards a political and religious asceticism which had an enormous influence on all aspects of art thought and daily life An acknowledged authority on the classical period of Japanese history the author reveals what the life of the Japanese people was like during these five centuries and shows how a transformation of heart and mind produced a civilization as original as it was profound

This is a series of entry level lectures on the Japanese sword and its history for those who are interested in studying Japanese art swords The Japanese sword was basically designed as a weapon but Japanese swordsmiths imbued qualities of grace and beauty into the blades as well as functional superiority The intricate patterns of surface and texture formed by their highly developed forging and tempering techniques were made only in Japan In the past the Japanese looked at the swords as a spiritual symbol of Samurai temples and shrines Nowadays the Japanese regard swords as a cultural art object made of steel Varieties of the appearance of swords are closely related to historical events Textures contours and tempering designs are characteristics of a particular school Den of swordsmiths This is a series of lectures that discuss each period s history then talk about the swordsmiths schools that were active in a particular province at the time Because of that each section starts with the history of the time It is necessary to discuss history to see the flow of the events that affected the swords shape and style
