Beyond Texas Through Time Walter Louis Buenger, Arnolfo De León, 2011 In 1991 Walter L Buenger and the late Robert A Calvert compiled a pioneering work in Texas historiography *Texas Through Time* a seminal survey and

critique of the field of Texas history from its inception through the end of the 1980s Now Buenger and Arnolde De Leon have assembled an important new collection that assesses the current state of Texas historiography building on the many changes in understanding and interpretation that have developed in the nearly twenty years since the publication of the original volume This new work *Beyond Texas Through Time* departs from the earlier volume's emphasis on the dichotomy between traditionalism and revisionism as they applied to various eras Instead the studies in this book consider the topical and thematic understandings of Texas historiography embraced by a new generation of Texas historians as they reflect analytically on the work of the past two decades The resulting approaches thus offer the potential of informing the study of themes and topics other than those specifically introduced in this volume extending its usefulness well beyond a review of the literature In addition the volume editors introduction proposes the application of cultural constructionism as an important third perspective on the thematic and topical analyses provided by the other contributors *Beyond Texas Through Time* offers both a vantage point and a benchmark serving as an important reference for scholars and advanced students of history and historiography even beyond the borders of Texas

Meaning in Action Toshio Sugiman, Kenneth J. Gergen, Wolfgang Wagner, Yoko Yamada, 2008-04-10 are far from genetically xing what behavioral preferences they may possess Instead learning mechanisms offer a viable way of attaining locally important cultural knowledge within temporal windows of opportunity as has been convincingly shown by research in language and culture attainment Similar mechanisms are likely to exist for other social capacities such as mate preferences for example It is this role of our biological inheritance that social science must appreciate in order to furnish a more complete understanding of human behavior Within the natural range of variation of capacities and armed with biologically conditioned learning mechanisms we live out lives of meaning in which we hold some things to be real rational valuable or morally right and others not It is this world of meaning in which we find love and hate struggles for justice power and money and the dramas that lend to life both its depth and passion

Understanding Rock John Rudolph Covach, Graeme MacDonald Boone, 1997 Each of the essays in this serious study and analysis of rock music is written by one of musicology's best young scholars The essays cover bands like The Grateful Dead Yes K D Lang Jimi Hendrix and The Beach Boys

The Routledge Research Companion to Travel Writing Alasdair Pettinger, Tim Youngs, 2019-07-30 Showcasing established and new patterns of research The Routledge Research Companion to Travel Writing takes an interdisciplinary approach to scholarship and to travel texts themselves The volume adopts a thematic approach with each contributor considering a specific aspect of travel writing a recurrent motif an organising principle or a literary form All of the essays include a discussion of representative travel texts to ensure that the volume as a whole represents a broad historical and geographical range of travel writing Together the 25 essays and the editors introduction offer a comprehensive and authoritative reflection of the state of travel writing criticism and lay the ground for future developments

Pathways to Peacebuilding Uchenna D. Anyanwu, 2022-11-30 Given the consistent challenge of

Islamist acute violence particularly in Nigeria this monograph attempts to respond to the question How can Jesus s followers pattern response to violence after Jesus s model demonstrated in his triumph over death evil sin and violence through staurocentric pathways And how can Jesus s followers in Nigeria adopt the same staurocentric model in order to not only overcome acute violence within the country but also to extend hands heads hearts and homes of staurocentric forgiveness hospitality and other practices toward Muslims In this study I posit that peacebuilding contextual theology be grounded on the mystery of the cross stauros a theologico theoretical framework that the church in Nigeria should espouse in order to position herself to extend hands heads hearts and homes of staurocentric practices whose appropriation must be undertaken through constructive and critical integration of the God given African peacebuilding concepts autochthonous to Africa s mosaic cultural contexts The pivotal thesis is that the staurocentric model remains the triune God s instrument for triumphing over violence and thus should be espoused by Jesus s followers in every era and context for peacebuilding in contexts of violence through a triadic constructive and critical integration of indigenous peacebuilding concepts
