Heinlein, 2004-01-06 From Grandmaster Robert A Heinlein comes a long lost first novel written in 1939 and never before published introducing ideas and themes that would shape his career and define the genre that is synonymous with his name July 12 1939 Perry Nelson is driving along the palisades when suddenly another vehicle swerves into his lane a tire blows out and his car careens off the road and over a bluff The last thing he sees before his head connects with the boulders below is a girl in a green bathing suit prancing along the shore When he wakes the girl in green is a woman dressed in furs and the sun

drenched shore has transformed into snowcapped mountains The woman Diana rescues Perry from the bitter cold and takes him inside her home to rest and recuperate Later they debate the cause of the accident for Diana is unfamiliar with the concept of a tire blowout and Perry cannot comprehend snowfall in mid July Then Diana shares with him a vital piece of information The date is now January 7 The year 2086 When his shock subsides Perry begins an exhaustive study of global evolution over the past 150 years He learns among other things that a United Europe was formed and led by Edward Duke of Windsor former New York City mayor LaGuardia served two terms as president of the United States the military draft was completely reconceived banks became publicly owned and operated and in the year 2003 two helicopters destroyed the island of Manhattan in a galvanizing act of war This education in the ways of the modern world emboldens Perry to assimilate to life in the twenty first century But education brings with it inescapable truths the economic and legal systems the government and even the dynamic between men and women remain alien to Perry the customs of the new day continually testing his mental and emotional resolve Yet it is precisely his knowledge of a bygone era that will serve Perry best as the man from 1939 seems destined to lead his newfound peers even further into the future than they could have imagined A classic example of the future history that Robert Heinlein popularized during his career For Us The Living marks both the beginning and the end of an extraordinary arc of political social and literary crusading that comprises his legacy Heinlein could not have known in 1939 how the world would change over the course of one and a half centuries but we have our own true world history to compare with his brilliant imaginings rendering For Us The Living not merely a novel but a time capsule view into our past our present and perhaps our future The novel is presented here with an introduction by acclaimed science fiction writer Spider Robinson and an afterword by Professor Robert James of the Heinlein Society *The Best of Robert Heinlein* Robert Anson Heinlein, Angus Wells, 1973-01-01 **Between Planets** Robert Anson Heinlein, 1978 The message had seemed simple yet it was more complex than Don could have imagined He was being called from Earth to an alien world for reasons unknown save only that his life depended on it But setting out for Mars and getting there in good shape turned out to be a lot more complicated than Don ever would have guessed possible It was trouble enough being inexplicably hounded by Earth's secret police But when he was hijacked by Venusian rebels Don suddenly realized that he was trapped in the center of a war between worlds that could change the fate of the Solar System forever Space Cadet Robert A. Heinlein, 1978-08 This is the seminal novel of a young man's education as a member of an elite paternalistic non military organization of leaders dedicated to preserving human civilization the Solar Patrol a provocative parallel to Heinlein's famous later novel Starship Troopers which is about the military Only the best and brightest the strongest and the most courageous ever manage to become Space Cadets at the Space Academy They are in training to become part of the elite guard of the solar system accepting missions others fear taking risks no others dare and upholding the peace of the solar system for the benefit of all But before Matt Dodson can earn his rightful place in the ranks his mettle is to be tested in the most severe and

extraordinary ways that change him forever from the midwestern American boy into a man of the Solar Patrol **The Best of Robert Heinlein** Robert Anson Heinlein, Angus Wells, 1977 **Time for the Stars** Robert Anson Heinlein, 1990 For a telepathic twin on an exploratory space voyage only a few years pass yet when he returns to Earth his brother is ready to celebrate his ninetieth birthday **The Menace from Earth** Robert Anson Heinlein, 1962 Earth seems a sinister planet hanging in the sky But to the Pluto colony Earth Satellite Base holds the only possible reprieve from a terrifying death sentence And on Earth itself alien intelligence prowls the skies kidnapping people for its own inhuman amusement book cover *Requiem* Robert A.
