Mackey, Dr Albert G Mackey appears as author of this Encyclopedia of Freemasonry and its Kindred Sciences which being a library in itself superseded most of the Masonic works which have been tolerated by the craft chiefly because none better could be obtained Here is a work which fulfils the hope which sustained the author through ten years literary labor that under one cover he would furnish every Mason who might consult its pages the means of acquiring a knowledge of all

matters connected with the science the philosophy and the history of his order Up to the present time the modern literature of Freemasonry has been diffuse lumbering unreliable and out of all reasonable proportions There is in Mackey's Encyclopaedia of Masonry well digested well arranged and confined within reasonable limits all that a Mason can desire to find in a book exclusively devoted to the history the arts science and literature of Masonry This is volume one out of four and covering the letters A to C      *Robert Burns and Freemasonry ... Wallace,Jane Rendall,2020-12-18 Association and Enlightenment focuses on the distinctive and complex history of clubs and societies in Scotland from 1700 to 1830 This edited volume offers a new approach to their history bringing together the polite culture of the eighteenth century Scottish Enlightenment with the broader context of associational patterns common to Britain Ireland and beyond      The Masonic Genius of Robert Burns Sir Benjamin Ward Richardson,1893
