 individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides  
 an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that  
 provides basic facts on the individual s life and achievements The extended biography places the life and works of the  
 individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place  
 in history All entries conclude with a fully annotated bibliography      Politics on a Human Scale Jeff Taylor, 2013-09-27  
 Featuring a foreword by Congressman Glen Browder Politics on a Human Scale examines political decentralization in the  
 United States from the founding of the republic to the present Part of the desirable equilibrium is a sense of proportionality  
 Some sizes some amounts some levels are more appropriate than others Decentralism is the best political tool to ensure  
 equilibrium to promote proportionality and to obtain appropriate scale Power distribution should be as wide as possible  
 Government functions should be as close to the people as practicable In this way individual human beings are not swallowed  
 by a monstrous Leviathan Persons are not at the mercy of an impersonal bureaucracy led by the far away few Decentralism  
 gives us politics on a human scale It gives us more democracy within the framework of a republic The longest chapters in the  
 book deal with crucial turning points in U S history specifically when decentralists lost the upper hand in the two major  
 political parties Decentralism in our nation runs deep both intellectually and historically It also has considerable popular

support Yet today it is a virtual political orphan In Washington neither major political party is serious about dispersing power to lower levels of government or to the people themselves Still there are dissident politicians and political movements that remain committed to the decentralist principle Power needs to be held in check partly through decentralization because power holds a great and dangerous attraction for humans Recognition of this human tendency is the first step in guarding against it and getting back on a better path
