history **Mendelssohn Essays** R. Larry Todd, 2013-10-28 When R. Larry Todd's biography *Mendelssohn: A Life in Music* appeared in 2003 it won acclaim from several critics as a definitive biography. In researching Mendelssohn's life over the last two and a half decades Todd uncovered much new information about the composer and his music, his family and his peers and his complex reception history. Now as we approach the 2009 bicentenary of Mendelssohn's birth the author has chosen and compiled fifteen essays written between 1980 and 2005 including five previously unpublished that examine several aspects of the composer whom Goethe and Heine likened to a second Mozart. *Mendelssohn Essays* explores Mendelssohn's precocity, his musical impressions of British culture, the role of the visual in his music, his compositional response to Bach's *St Matthew Passion* and incomplete drafts from his musical estate of three instrumental works. In addition a group of three essays focuses on the music of Mendelssohn's sister Fanny Hensel, perhaps the most gifted woman composer of the century and a significant complex figure in the formation of the Mendelssohnian style.

The Mainstream Companion to Scottish Literature Trevor Royle, 2012-01-06 *The Mainstream Companion to Scottish Literature* is the most comprehensive reference guide to Scotland's literature covering a period from the earliest times to the early 1990s. It includes over 600 essays on the lives and works of the principal poets, novelists, dramatists, critics and men and women of letters who have written in English, Scots or Gaelic. Thus as well as such major writers as Robert Henryson, William Dunbar, Gavin Douglas, Allan Ramsay, Robert Fergusson, Robert Burns, Walter Scott, Robert Louis Stevenson and Hugh MacDiarmid the Companion also lists many minor writers whose work might otherwise have been overlooked in any survey of Scottish literature. Also included here are entries on the lives of other more peripheral writers such as historians, philosophers, diarists and divines whose work has made a contribution to Scottish letters. Other essays range over such general subjects as the principal work of major writers, literary movements, historical events, the world of printing and publishing, folklore, journalism, drama and Gaelic. A feature of the book is the inclusion of the bibliography of each writer and reference to the major critical works. This comprehensive guide is an essential tool for the serious student of Scottish literature as well as being an ideal guide and companion for the general reader.

Scotland and the Borders of Romanticism Leith Davis, Ian Duncan, Janet Sorensen, 2004-06-24 Originally published in 2004 *Scotland and the Borders of Romanticism* is a collection of critical essays devoted to Scottish writing between 1745 and 1830, a key period marking the contested divide between Scottish Enlightenment and Romanticism in British literary history. Essays in the volume by leading scholars from Scotland, England, Canada and the USA address a range of major figures and topics among them Hume and the Romantic imagination, Burns's poetry, the Scottish song and ballad revivals, gender and national tradition, the prose fiction of Walter Scott and James Hogg, the national theatre of Joanna Baillie, the Romantic varieties of historicism and antiquarianism, Romantic Orientalism and Scotland as a site of English cultural fantasies. The essays undertake a collective rethinking of the national and period categories that have structured British literary history by examining the relations between the concepts of Enlightenment and Romanticism as well as between

Prandi, 2008 The Poetry of the Self Taught demonstrates the characteristic strengths of self taught poetry and analyzes the factors that have caused most selftaught poets to disappear from anthologies and from literary history Raising the question of whether or not their work should be read today and taken seriously instead of being relegated to separate and unequal categories like women s or peasant poetry the book highlights interesting contrasts between the poetry of eighteenth century autodidacts such as Robert Burns Mary Leapor C D F Schubart and Anna Louise Karsch and the work of their contemporaries mainstream poets like Alexander Pope James Thomson C F Gellert and Barthold Heinrich Brockes Self taught poetry is often treated as an index to the lives and times of the poets but this book explores it with a different purpose to understand and illustrate the commonalities in autodidactic poetics imagery rhetorical strategies and themes Concurrent with a recent upturn of interest in laboring or self taught poets both in England and in Germany The Poetry of the Self Taught will be useful for courses focusing on such poets or those dealing with eighteenth century literature **I.
