Garden Plants Taxonomy Bijan Dehgan, 2023-04-05 Horticulture has remained far behind in understanding of botanical principles Recent phylogenetic DNA based reorganization of higher plants has revolutionized taxonomic treatments of all biological entities even when morphology does not completely agree with their organization This book is an example of applying principles of botanical phylogenetic taxonomy to assemble genera species and cultivars of 200 vascular plant families of ferns gymnosperms and angiosperms that are cultivated for enhancement of human living space homes gardens and parks The emphases are on cultivated species but examples of some plants are often shown in the wild and in landscapes In providing descriptions it is assumed that students and other interested individuals have no background in general botany plant characteristics or nomenclature Fundamental features of all plant groups discussed are fully illustrated by original watercolor drawings or photographs Discussion of the families is grounded on recent botanical phylogenetic treatments which is based on common ancestry monophyly Of course phylogenetic taxonomy is not a new concept and was originally

based on morphological characteristics it is the DNA based phylogeny that has revolutionized modern biological classifications In practical terms this book represents the horticultural treatment that corresponds to phylogenetic based botanical taxonomy to which is added cultigens and cultivated genera and species Hence the harmony between horticultural and botanical taxonomy This book covers phylogenetic based taxonomy of Angiosperms Eudicots A companion volume covers Ferns Gymnosperms and Angiosperms Monocots *The Historical Karoo* Chris Schoeman, 2013-09-30 To many people especially those driving along the N1 national road at high speeds the Karoo represents nothing more than a monotonous hot and arid landscape to be passed through as quickly as possible But in this vast open region history is everywhere if visitors would only look for it And that is exactly the purpose of this book to point out all the many places buildings objects and associated personalities of historical interest in the Karoo The Karoo has been the world of travellers writers statesmen and scientists figures as diverse as Olive Schreiner Rudyard Kipling Winston Churchill and Dr Chris Barnard It has also been the scene of serious conflict of which the many old British blockhouses forts grave sites and memorials dating from the Anglo Boer War are vivid reminders and it still boasts old examples of vernacular and industrial architecture and engineering in the form of corbelled houses water mills and bridges The Historical Karoo is ordered according to three main routes that people drive through the area It provides short histories of the towns along the way and points out the sites buildings and other aspects of interest that can be found there Enlivened by historical and current photographs and informative side panels this book is a collector's item
