Journals: Captain Scott's Last Expedition Robert Falcon Scott, 2005-10-13. Captain Scott's own account of his tragic race with Roald Amundsen for the South Pole thrilled the world in 1913. This new edition of his Journals publishes for the first time a complete list of the changes made to Scott's original text before publication. For God's sake, look after our people. Captain Scott's harrowing account of his expedition to the South Pole in 1910-12 was first published in 1913. In his journals, Scott records his party's optimistic departure from New Zealand, the hazardous voyage of the Terra Nova to Antarctica, and the trek with ponies and dogs across the ice to the Pole. On the way, the explorers conduct scientific experiments, collect specimens, and get to know each other's characters. Their discovery that Amundsen has beaten them to their goal and the endurance with which they face an 850-mile march to safety have become the stuff of legend. This new edition publishes for the first time a complete list of the changes made to Scott's original text before publication. In his Introduction, Max Jones illuminates the Journals' writing and publication, Scott's changing reputation, and the continued attraction of heroes in our cynical age. Definitive. Max Jones and the publishers are to be congratulated on this new version of a classic story and for offering it at such a reasonable price. It should be the last word for a very long time. *Polar Record* 42. **The ADB's Story**

Melanie Nolan, Christine Fernon, 2013-10-01. THE ADB'S STORY is a detailed history of the eminent publication THE AUSTRALIAN DICTIONARY OF BIOGRAPHY. Published as part of the ANU Lives series, the National Centre of Biography has produced this comprehensive profile of the ADB's origins, processes, and people. Edited by Melanie Nolan and Christine Fernon, this is a fantastic book for scholars of Australian history and biography. The Cambridge Companion to Vaughan Williams Alain Frogley, Aidan J. Thomson, 2013-11-14. An icon of British national identity and one of the most widely performed twentieth-century composers, Ralph Vaughan Williams has been as much misunderstood as revered. His international impact and enduring influence on areas as diverse as church music, film scores, and popular music has been insufficiently appreciated. This volume brings together a team of leading scholars examining all areas of the composer's output from new perspectives and re-evaluating the cultural politics of his lifelong advocacy for the music-making of ordinary people. Surveys of major genres are complemented by chapters exploring such topics as the composer's relationship with the BBC and his studies with Ravel. Uniquely, the book also includes specially commissioned interviews with major living composers Peter Maxwell Davies.

Piers Hellawell Nicola Lefanu and Anthony Payne The Companion is a vital resource for all those interested in this pivotal figure of modern music
