Roberts Story:

Robert's Story Stephen G. Michaud, 2022-09-13 Tired, disoriented and confused Robert East was no match for the wolves when they arrived. Robert East loved his older brother Tom but always resented Tom's favored role in the family cattle business based at their San Antonio Viejo ranch near Hebbronville, Texas, just north of the Rio Grande. Tom was a figure to be reckoned with, a cattleman with ambitions to supplant their Uncle Bob Kleberg, head of the enormous King Ranch, as the leading cattle raiser in Texas. Robert, by contrast, was a cowboy who cared little for what occurred beyond the San Antonio Viejo's main gate. Handsome and ornery with no head for business, he nevertheless chafed in his brother's shadow until 1984 when Tom died young of a heart attack, just as their father Tom East Sr. had 40 years earlier. Suddenly, Robert was the new and untested patrón of 250,000 acres of East Family ranchland and the majority owner of the ocean of natural gas pooled beneath East rangeland. It was his turn to issue the orders. Robert's contentious nature drove the Easts into bitter intra-family legal hostilities that persisted for a decade. He lost his beloved sister Lica to cancer, and as old age advanced, he found himself alone and isolated on a remote ranch with only an unreliable foreman and a scattering of vaqueros and other workers for company. The physical wear and tear from decades of working cattle on horseback began to show; Robert's knees gave out, and he developed serious cardiovascular problems. His doctors prescribed pain pills, sedatives, and medications for his chronic depression. In 2000, drillers hit the most productive gas well in the U.S., if not the world, on East property, making the rich old man suddenly and spectacularly wealthy beyond his comprehension. Soon enough, the wolves began to circle, and Robert's grotesque final days were at hand.

The Stalker Affair and the Press David Murphy, 2022-09-01 First published in 1991, *The Stalker Affair and the Press* documents the media treatment of police constable John Stalker's removal from his job and argues that this case presents a major difficulty for the standard academic analysis of the press in Britain, namely that it supports the status quo because it is part of the dominant class system. The author argues that the exclusion of non-official and dissident versions of the events can be explained by more direct causes: the ownership of the press and the routine nature of normal news production, which relies on official and established sources. Where such sources do not produce an account of events as in the case of the Stalker affair, the overwhelming majority of press output questioned the legitimacy of state actions, even to the extent of entertaining the notion that its agents had conspired to commit murder and to pervert the course of justice. David Murphy's fascinating analysis picks apart the notion of a system controlling production to demonstrate the complex interaction between methods of individual journalists, their sources, and the ways news is produced. This book will be of great interest to students and teachers of media studies, cultural studies, journalism, and communication studies.
