Rosenborg. Notes on the Chronological Collection of the Danish Kings. By Carl Andersen ...

translated by Charles Shaw. With the original Danish edition, containing 52 large wood-cuts Rosenborg Slot (COPENHAGEN),1868 Anna of Denmark Jemma Field,2020-06-11

Approaching the Stuart courts through the lens of the queen consort Anna of Denmark this study is underpinned by three key themes translating cultures female agency and the role of kinship networks and genealogical identity for early modern royal women Illustrated with a fascinating array of objects and artworks the book follows a trajectory that begins with Anna s exterior spaces before moving to the interior furnishings of her palaces the material adornment of the royal body an examination of Anna s visual persona and a discussion of Anna s performance of extraordinary rituals that follow her life cycle Underpinned by a wealth of new archival research the book provides a richer understanding of the breadth of Anna s interests and the meanings generated by her actions associations and possessions **The Deformation** Susanna Berger,2025-07-29

A fascinating account of the use and meaning of visual and spatial distortions in seventeenth century art and architecture During the Catholic Reformation patrons artists architects and viewers especially in Rome were strongly drawn to visual and spatial distortions or deformations works of art and architecture that were designed to be visually incomprehensible at least initially From

Borromini's San Carlo alle Quattro Fontane in Rome to the attention grabbing prospettiva in the city's Palazzo Spada and the anamorphoses that define the corridors and walls of Minim and Jesuit buildings. The Deformation explores what this intriguing phenomenon reveals about contemporary religious belief, optics and the natural sciences as well as wider questions about attention and discernment. Failing to conform to an established ideal, deformations required a reformation to achieve that ideal. Anamorphic deformations, for example, could only be reformed into clarity when viewed from a particular angle or through a special mirror. Susanna Berger examines how deformations were experienced by beholders and how they were embraced or opposed by critics. The book shows how deformations and related works, whether altar, tabernacles, ephemeral religious architecture, churches, monumental sundials, colonnades with accelerated perspective, illusionistic frescoes, turned ivories or painted anamorphoses, focused observers' attention on theological mysteries and the social power and sophistication of patrons. The book's rich illustrations include two gatefolds and some anamorphic images that can be seen without distortion by using an included reflective insert as a mirror. Looking at writings as well as visual works in multiple artistic media, not typically considered in relation to each other, The Deformation offers a new interpretation of deformation that highlights the delay between perception and discernment.

French Rococo Ébénisterie in the J. Paul Getty Museum Gillian Wilson, Arlen Heginbotham, 2021-03-30. The first comprehensive catalogue of the Getty Museum's significant collection of French Rococo cabinet furniture. This catalogue focuses on French cabinet furniture in the Rococo style dating from 1735 to 1760. These splendid objects directly reflect the tastes of the Museum's founder, J. Paul Getty, who started collecting in this area in 1938 and continued until his death in 1976. The Museum's collection is particularly rich in examples created by the most talented cabinet masters then active in Paris, including Bernard van Risenburgh II (after 1696 ca. 1766), Jacques Dubois (1694-1763) and Jean-François Oeben (1721-1763). Working for members of the French royal family and aristocracy, these craftsmen excelled at producing veneered and marquetry pieces of furniture, tables, cabinets and chests of drawers, fashionable for their lavish surfaces, refined gilt-bronze mounts and elaborate design. These objects were renowned throughout Europe at a time when Paris was considered the capital of good taste. The entry on each work comprises both a curatorial section with description and commentary and a conservation report with construction diagrams. An introduction by Anne Lise Desmas traces the collection's acquisition history, and two technical essays by Arlen Heginbotham present methodologies and findings on the analysis of gilt-bronze mounts and lacquer. The free online edition of this open access publication is available at www.getty.edu/publications/rococo and includes zoomable high-resolution photography. Also available are free PDF, EPUB and Kindle MOBI downloads of the book and JPG downloads of the main catalogue images.

Early Professional Women in Northern Europe, c. 1650-1850 Johanna Ilmakunnas, Marjatta Rahikainen, Kirsi Vainio-Korhonen, 2017-07-06. This book focuses on early examples of women who may be said to have anticipated in one way or another modern professional and/or career-oriented women. The contributors to the book discuss women who may at least

in some respect be seen as professionally ambitious unlike the great majority of working women in the past In order to improve their positions or to find better business opportunities the women discussed in this book invested in developing their qualifications and professional skills took economic or other kinds of risks or moved to other countries Socially they range from elite women to women of middle class and lower middle class origin In terms of theory the book brings fresh insights into issues that have been long discussed in the field of women s history and are also debated today However despite its focus on women the book is conceptually not so much focused on gender as it is on profession business career qualifications skills and work By applying such concepts to analyzing women s endeavours the book aims at challenging the conventional ideas about them
