Congress,International Association for the History of Religions,1998 This volume is based upon papers read during the innovative section Western Esotericism and the Science of Religion organized at the 17th International Congress of the International Association for the History of Religions IAHR in Mexico City August 5 12 1995 The section was created in order to fill a long standing hiatus in the academic study of religions whereas phenomena such as gnosticism and hermetism in antiquity and even the occult sciences of that period have long been recognized as subjects worthy of serious investigation the history of similar and related phenomena in more recent periods has hardly received the same measure of scholarly attention and recognition The present volume is devoted to the academic emancipation of these areas as constituting a legitimate domain of research which may be referred to by the generic label western esotericism Preceded by an introductory essay on the birth of this new discipline in the study of religion the volume provides a sample of current research in the field and devotes special attention to some central methodological questions **Medicine, Natural**

Philosophy and Religion in Post-Reformation Scandinavia Ole Grell,Andrew Cunningham,2016-11-03 The close relationship between religion medicine and natural philosophy in the post Reformation period has been documented and explored in a body of research since the 1990s however the direct and continued impact of Melanchthonian natural philosophy within the individual Lutheran principalities of northern Europe in general and Scandinavia in particular still has to be fully investigated and understood This volume provides insight into how and why medicine and natural philosophy in a

liberal and Melanchthonian form could continue to blossom in Scandinavia despite a growing Lutheran uniformity promoted by the State Inspired by research emanating from the Cambridge Unit for the History of Medicine here a number of young scholars such as Adam Mosley Morten Fink Jensen Signe Nipper Nielsen and Martin Kjellgren are joined with more established scholars such as Andrew Cunningham Jens Glebe M ller Terhi Kiiskinen and Ole Peter Grell to create a volume which deals with not only the major issues but also the leading personalities of the period

The Religion of Chiropractic Holly Folk, 2017-03-13 Chiropractic is by far the most common form of alternative medicine in the United States today but its fascinating origins stretch back to the battles between science and religion in the nineteenth century At the center of the story are chiropractic's colorful founders D D Palmer and his son B J Palmer of Davenport Iowa where in 1897 they established the Palmer College of Chiropractic Holly Folk shows how the Palmers system depicted chiropractic as a conduit for both material and spiritualized versions of a vital principle reflecting popular contemporary therapies and nineteenth century metaphysical beliefs including the idea that the spine was home to occult forces The creation of chiropractic and other Progressive era versions of alternative medicine happened at a time when the relationship between science and religion took on an urgent increasingly competitive tinge Many remarkable people including the Palmers undertook highly personal reinterpretations of their physical and spiritual worlds In this context Folk reframes alternative medicine and spirituality as a type of populist intellectual culture in which ideologies about the body comprise a highly appealing form of cultural resistance

Henry Miller and Religion Thomas Nesbit, 2012-12-06 This study argues that this previously banned author devoted his entire life to articulating a religion of self liberation in his autobiographical books examining his life and work within the context of fringe religious movements that were linked with the avant garde in New York City and Paris at the first of the 20th century This study shows how these transatlantic movements including Gurdjieff Rosicrucianism and Theosophy gave him the

hermeneutical devices not to mention the creative license to interpret texts and symbols from mainline religions in an iconoclastic manner ranging from obscure Taoist treatises to the mystical works of Jacob Boehme The influence of numerous philosophical sources widely circulated in his most critical years particularly Henri Bergson s *Two Sources of Morality and Religion* 1932 also helped him develop a religious view situated between transcendence and immanence in which self liberation through the channeled flow of *lan vital* is the chief objective Miller s knowledge of these intellectual currents along with his involvement with sidestream religious groups inspired him to meld his religious and literary aims into one perplexing project

The True and Invisible Rosicrucian Order Paul Foster Case, 2025-09-12 This is a thorough presentation of the Rosicrucian system of Initiation by Dr Paul Foster Case He explains that Rosicrucianism is based upon earthly organizations but on personal unflodment and clearly describes the distinctive marks of a Rosicrucian The treatise is divided into two main parts by Dr Case The first is a careful examination and interpretation of the principle Rosicrucian maneifestos the Fama Fraternitatis and the Confessio Fraternitatis The second part is an explanation of the Rosicrucian Grade system as applied to the diagram of the Tree of Life and Tarot attributions By participating in the outlined procedures aspirants are put on the right track of preparing themselves for union with the Higher Self which may or may not include group work with an outer order or fraternity The first editions of 1927 1928 and 1933 were of limited publication The fourth and most complete expansion of the text by Paul Case ws finished in 1937 revised by him in 1953 just before his death and published in by Weiser in 1985 It represents the full maturity of his thought on this subject

Rosicrucianism Renewed Rudolf Steiner, 2006-03 After Rudolf Steiner had left us in the body the gifts of the spirit that were offered by him in such overflowing measure could not continue It must now happen

that a community of human beings takes over the results of his spiritual research takes them in such a way that they remain alive in the community People must come together in anthroposophic work united in such a way that Anthroposophy comes into its own Carl Unger Oct 29 1928 This volume provides perhaps the most comprehensive and profound exegesis of Rudolf Steiner's Anthroposophy especially his book titled Anthroposophical Leading Thoughts That book provides Steiner's final and most complete explanation of his Spiritual Science through brief aphoristic thoughts or meditations on the profound esoteric meaning of the modern spiritual path he called Anthroposophy In The Language of the Consciousness Soul Carl Unger unfolds and expands Rudolf Steiner's leading thoughts in 78 brief meditative chapters to help the reader comprehend the deeper meaning behind the Leading Thoughts Unger helps us see how Steiner created a mandala like image of Anthroposophy revealing an ever expanding cosmology and epistemology that goes far beyond mere philosophy or a belief system to a practical path of spiritual investigation and knowledge for modern humankind Rudolf Steiner had this to say about Carl Unger Dr Carl Unger for many years past has always been the most industrious and devoted collaborator in the anthroposophic movement At an early date Dr Unger saw that Anthroposophy before all needs a strong foundation of the theory of knowledge With a deep understanding he took up what I myself many years ago was able to give in my books Goethe's Theory of Knowledge Truth and Knowledge and Intuitive Thinking as a Spiritual Path A Philosophy of Freedom he developed independently what I had intimated Supported by mental discernment his goal was to see through the nature of the human process of knowledge in a clear analysis and from that to form its true picture Dr Unger is not dialectical but an observer of empirical facts This is why through the years he has been able to give results of the highest value showing how the process of knowledge in ordinary consciousness produces always and everywhere out of itself the impulses to anthroposophic investigation Moreover Dr Unger's method of thinking trained through technical problems is free from subjective vagueness and thus his scientific collaboration in Anthroposophy is the most important that we can have The Language of the Consciousness Soul is an indispensable guidebook for group study and for individuals who wish to penetrate the depths of Anthroposophy and apply its principles both inwardly and to daily life This volume is an edited translation by Effie Grace Wilson of *Aus der Sprache der Bewusstseinsseele Unter Zugrundelegung der Leitsätze Rudolf Steiners*
