Abel, 2010-06-15 Ours is a nation in the grip of a strange kind of mania Why after President Reagan was shot was there virtually no handgun legislation Why after the Columbine massacre in Littleton Colorado was nothing done to regulate the tools that children most frequently use to kill one another Why was there no legislative response after a six year old in Flint Michigan shot a classmate with a 32 caliber pocket rocket Tragedy follows tragedy with twelve children shot dead every day in America but guns remain less regulated than automobiles Why As authors Peter Harry Brown and Daniel G Abel in this powerful book demonstrate it is because of the terrible power of the gun coalition *Outgunned* begins with the story of Wendell Gauthier the master of disaster attorney who brought down the tobacco industry to the tune of billions and then turned his attention to guns He struck fear into the hearts of the gun manufacturers as he set out to make gunmakers bear some liability for the killings caused by the often poorly made inaccurate handguns they marketed to criminals Coauthor Daniel G Abel worked for Gauthier along with other attorneys as the gun control campaign gathered momentum This legal initiative seemed to be about to make history and change the face of violence in America but sadly Wendell Gauthier died of cancer before meaningful gun control could be established More than thirty class action suits against gun manufacturers now languish in courtroom paralysis while as many Saturday night specials as ever are being made What happened Brown and Abel demonstrate how the pro gun forces once again curbed the will of a nation This book shows the enormous power of the NRA how it killed pending legislation in Congress hijacked the Campaign Act to fund the George W Bush presidential election victory and eviscerated the American Shooting Sports Council That association and the gun manufacturers actually wanted to compromise and agree to new handgun laws implicitly accepting some liability but the NRA leadership with Charlton Heston as their president crushed them In *Outgunned* Brown and Abel uncover how NRA lobbyists were instrumental in stopping Smith Wesson in its tracks They show how the tendrils of the NRA reach into the Christian Alliance and Republican Party and how men like John McCain have fought back and been undermined *Outgunned* reveals how the NRA began dealing with President George W Bush when he was still governor of Texas prodding him into signing a shocking prohibition against the kind of suits Gauthier brought against the gun manufacturers *Outgunned* is the story of a legal crusade with up close accounts of the people who fought every step of the way For those who believe in the importance of stopping unnecessary bloodshed this book is essential powerful and urgent *Outrageous Invasions* Robin D. Barnes, 2010 In *Outrageous Invasions* Celebrities Private Lives Media and the Law Professor Robin D Barnes examines the role and nature of privacy in Western democracies Celebrities are routinely subjected to stalking harassment invasion of privacy and defamation These

occurrences are often violations of their constitutional rights Professor Barnes addresses growing concerns about the widespread immunity from liability enjoyed by United States tabloid publishers *Outrageous Invasions* chronicles these experiences and the legal battles waged by celebrities in both the United States and European Union against a press corps that continuously invades their private lives Professor Barnes analyzes doctrinal developments in cases from the United States Supreme Court and the High Courts of Europe These cases demonstrate that American celebrities are entitled to but not receiving the same protections as their European counterparts In *Outrageous Invasions* Professor Barnes explains the value of the rights of the individual to democratic nations She notes the importance of insuring appropriate protection for freedom of expression and associational freedom through meaningful regulation in the instances when speech rights collide with equally important values such as privacy and equality

The Method to the Madness Allen Salkin, Aaron Short, 2019-07-09 A Rosetta Stone for understanding Donald Trump's style, mindset and every action made up of over one hundred interviews with his closest associates and adversaries over the last 15 years To his critics Donald Trump is an impulsive undisciplined crackpot who accidentally lucked into the presidency But in *The Method to the Madness* reporters Allen Salkin and Aaron Short reveal that nothing could be further from the truth This objective nonpartisan oral history shows that Trump had carefully planned his bid for the presidency since he launched what many considered to be a joke candidacy in 1999 Between 2000 and 2015 when he announced his candidacy in the lobby of Trump Tower he was able to identify an unserved political constituency hone a persuasive message that appealed to their needs and deliver it effectively despite intense media opposition Through candid conversations with more than 100 subjects close to the President Salkin and Short make the case that Donald Trump's ostensibly erratic approach to politics is consistent with his carefully honed personal and professional style of information gathering opinion seed planting and conclusion sharing His business media and political dealings from this era serve as a guide for understanding the man, his mindset and his every action *The Method to the Madness* is an accessible and unbiased oral history that brings readers into the private rooms where decisions are made confidences are broken strong words fly and not all eye witnesses see the same scene in quite the same way Full of scoops both large and small this is the first book to bring Trump the politician into focus
