**Age of Reason** Christopher McIntosh,2012-01-02 This new edition of Christopher McIntosh s classic book on the Golden and  
Rosy Cross order is eagerly awaited The order stands out as one of the most fascinating and influential of the high degree  
masonic and illuminist groups that mushroomed in Europe from the 18th century onward Active mainly in the German  
speaking lands it recast the original Rosicrucian vision and gave it renewed vitality At one point it became politically  
influential when the Prussian King Frederick William II was a member of the order Historians have often perceived the  
Golden and Rosy Cross as having had a conservative anti Enlightenment agenda but this study drawing on rare German  
sources shows that the matter was more complex The members of the order practiced alchemy and operated a degree system  
that was later imitated by later orders such as the Golden Dawn Like the latter the Golden and Rosy Cross exerted a wide  
and enduring cultural influence Both the alchemy of the order and its powerful ritual system are insightfully described in  
Christopher McIntosh s clear and compelling style      **The Transcendental Universe** C. G. Harrison,1993-04-15 Our very I  
consciousness is possible because the mineral earth the first layer of the interior of the Earth and the other chthonic regions  
exist Our human nature is a reflection of the subearthly and supraearthly realms that comprise the macrocosm and the  
microcosm The true meaning of the microcosm macrocosm analogy is not that the human being is a little cosmos but that the  
cosmos is a big human being From this perspective it makes complete sense that the subterranean realms described by  
spiritual science live within the deepest realms of our human nature and subconscious life of darker feelings and will Deep  
within the human being they radiate into the shadows of thought This region is more familiarly known as Hell Hades or the  
Abyss The subterranean spheres then are the Earth s dark side from Paul V O Leary s introduction Throughout human history  
ancient wisdom and traditional myths have placed human beings between the heavens and the underworld describing the  
heavens as the light filled realm of the gods and the source of goodness and characterizing the underworld as a demon filled  
realm of darkness and the source of evil Modern science however denies the heavens and knows little of the Earth s interior  
even physically beyond the first few miles after which it simply resorts to conjecture based on the extrapolation of existing  
sensory data In other words natural science fails to take into account that the Earth is a living spiritual being and ignores the  
presence of its soul spiritual qualities and influences To remedy this during the early twentieth century Rudolf Steiner  
researched the psychic spiritual and cosmic nature of the Earth s interior He described how the different layers of the inner  
Earth affect and interact with human beings living on Earth More theologically and cosmically he spoke of the layers of Hell  
through which Jesus Christ traveled in the period between the Crucifixion and the Resurrection uniting and integrating  
himself with the Earth and with human destiny The seven authors in *The Inner Life of the Earth* approach this difficult and

little discussed topic from different directions They discuss how the forces emanating from the interior of the Earth affect the weather our atmosphere human beings and how human behavior in turn affects them showing that earthly and human evolution are a unity and should never be thought of as occurring separately They also discuss the deep significance of Christ's incarnation by which he united with the Earth to become the Spirit of the Earth Without Christ's deed the Mystery of Golgotha which reunites cosmic and human evolution with the divine human beings would be unable to work in freedom with Christ or with Sophia divine feminine Wisdom in her form as the Soul of the Earth to overcome evil and help lift all creation toward goodness and greater human cosmic and divine fellowship
