### **Rotation The Twelve Months Of Intern Life:**

Rotations Robert Marion, 1998 Timely and brilliantly written this sequel to the acclaimed *The Intern Blues* is an exciting look at the real life challenges confronting young doctors as they struggle for survival and sanity within today's health care system Marion weaves a dramatic story that follows one year in the lives of three pediatric interns under his tutelage at New York's Albert Einstein College of Medicine

**Educating For Professionalism** Delese Wear, Janet Bickel, 2009-05 The thirteen essays in *Educating for Professionalism* examine the often conflicting ethical, social, emotional, and intellectual messages that medical institutions send to students about what it means to be a doctor. Because this disconnection between what medical educators profess and what students experience is partly to blame for the current crisis in medical professionalism, the authors offer timely reflective analyses of the work and opportunities facing medical education if doctors are to win public trust. In their drive to improve medical professionalism within the world of academic medicine, editors Delese Wear and Janet Bickel have assembled thought-provoking essays that elucidate the many facets of teaching, valuing, and maintaining medical professionalism in the middle of the myriad challenges facing medicine at the dawn of the twenty-first century. The collection traces how the values of altruism and service can influence not only mission statements and admission policies but also the content of medical school ethics courses, student-led task forces, and mentoring programs, along with larger environmental issues in medical schools and the communities they serve. New York Magazine, 1997-07-28 *New York Magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea

**Family and Medicine: Memories and Reflections** John Arthur Broman, M.D., 2009-07-20 *Family and Medicine: Memories and Reflections* is a journey that starts in the small town of Crystal Falls, Michigan, where the author learned the values of humble living and a hard work ethic. Stories of growing up in the Upper Peninsula of Michigan include those of his family, the people, and the community influences that serve as a significant foundation to this day. At the University of Michigan, Jack met his wife Nonnie, and the two of them became beloved Wolverine fans through good times and bad. This time was special as their

relationship grew and the realities of World War II played a role in the decisions made The book next takes the reader on a journey to Philadelphia where the author studied medicine at the Hahnemann Medical College and Hospital This memoir provides an interesting look at the way things were in medical school in the mid 1940 s Augustana Hospital in Chicago was the site for his residency in family medicine and surgery The stories abound of medicine faith and family as he settled in Maquoketa Iowa with his wife and eight children Reflections of his life as an officer in the army medical examiner and small town doc reveal a passion for medicine the human story and a deep faith

**Measuring Medical Professionalism** David Thomas Stern, 2006 Patients who are confident of physicians intellectual and technical abilities are sometimes not convinced of their professional behavior Systemic and anecdotal cases of physician misconduct conflict of interest and self interest abound Many have even come to mistrust physicians as patient advocates How can patients trust the intellectual and technical aspects of medical care but not the professional In order to enhance and promote professionalism in medicine one should expect it encourage it and evaluate it By measuring their own professional behavior physicians can provide the kind of transparency with which they can regain the trust of patients and society Not only patients but also institutions which accredit organizations have demanded accountability of physicians in their professional behavior While there has been much lament and a few strong proposals for improving professionalism no single reliable and valid measure of the success of these proposals exists This book is a theory to practice text focused on ways to evaluate professional behavior written by leaders in the field of medical education and assessment

Qualitative Organizational Research Volume 1 Kimberly D.

Elsbach, 2005-06-01 Over the past five years the Davis Conference on Qualitative Research has welcomed research projects by the very best qualitative organizational researchers in the world This conference has helped authors develop and hone theoretical ideas in an environment friendly to qualitative methods and more importantly has begun to build a community of qualitative researchers that work on organizational and management issues The authors winning the Best Presentation Awards at the Davis Conference over the past five years have contributed chapters to this volume The ideas in these chapters were born before the conference but were nurtured through dialogue at the conference and subsequently matured through later interactions among the community of qualitative scholars associated with the conference As such this volume represents the fruits of our collective labor as a qualitative research community This collective and iterative process is a hallmark of qualitative methods and often leads to a counter intuitive ah hah experience for the researcher This volume showcases some of the very best of those ah hah experiences from the organizational qualitative research community
