**Round About the Earth** Joyce E. Chaplin, 2013-11-19 Originally published in hardcover in 2012      **Round about the upper Thames** Alfred Williams, 1922      **Round about Bradford** William Cudworth (of Bradford, Eng.), 1876      *Blackbird Shouts Ring 'Round About* ,      *Round About the North Pole* W. J. Gordon, 2016-09-30 Among the many books about the Polar regions there is none quite like this dealing with the gradual progress of exploration towards the north along the different areas of advance within the Arctic Circle The subject is always interesting for few regions have been the scene of more persistent effort and exciting adventure and unexpected gains from the unknown particularly in the earlier days when the endeavour to find the northern passages to the east and west led to the beginning of our foreign trade It is often asked What is the use of further Arctic discovery No one knows Nor did any one know the use of most discoveries before they were made When Eric landed in Greenland he was not in search of cryolite for aluminium When Cabral sailed to Porto Seguro he knew nothing of the incandescent gas mantle When Oersted looped the live wire round the magnetic needle he was not bent on founding electrical engineering And when Linn us noticed the sleep of plants he had no intention of providing a substitute for a clock in high latitudes where though vithe sunshine is continuous during the summer the plants within the Circle sleep as in the night time their sleeping leaves telling the traveller that midnight is at hand Men have made up their minds to reach the Pole and thither they will go What they will find when they get there may not promise to be much but what they have found round about it has been enough to influence considerably the history of the world W J G      **Me n Mine Mathematics** Kusum Wadhwa and Anju Loomba, A text book on Maths      *A Complete Class-book of Naval Architecture, Practical, Laying Off, Theoretical* W. **'The Real Scriptures' of God** James Platter,2012-08 Inside the covers of this book you will find the Real Scriptures of the Christian churches Many church leaders know that other Christian churches hold to these books but they are only willing to state what they have been brain washed to believe that is about the other inferior books It isn't in the canon of scripture formed of course by the early Catholic Church at various stages and Councils from the fourth century A D therefore no one has the right to change what is in the canon of scripture and the Catholic Church changed it in their councils not in agreement of other Christians but to hide their offence at the words of God They would not even imagine that different churches have different scriptures and assume that the correct canon of scripture must be the one first declared by the Catholic Church and its priests but other priests must be considered demented or apostate but they are not affected by the changes they made to the canon of Scripture over many centuries They will not consider the canons of Orthodox Churches or others because they vary in different regions of the world So is European Christianity based in the Vatican City right about all its holy scriptures while everyone else's church scriptures are false scriptures Ethiopia it seems got most books of scripture right even with their translation into an ancient language      **The cottage Bible and family expositor; the authorized tr., with reflections, and notes, by T.
