Dudley Knowles

Routledge Philosophy Guidebook To Rousseau And The Social Contract:

Routledge Philosophy Guidebook to Rousseau and The Social Contract Christopher Bertram, 2004 Rousseau's Social Contract is a benchmark in political philosophy that has inspired and influenced moral and political thought since publication and is widely studied for this reason *Rousseau and the Social Contract*, 2003 Rousseau's Social Contract is a benchmark in political philosophy and has influenced moral and political thought since its publication Rousseau and the Social Contract introduces and assesses Rousseau's life and the background of the Social Contract The ideas and arguments of the Social Contract Rousseau's continuing importance to politics and philosophy Rousseau and the Social Contract will be essential reading for all students of philosophy and politics and anyone coming to Rousseau for the first time **Rousseau and the Social Contract**, 2003 Rousseau's Social Contract is a benchmark in political philosophy and has influenced moral and political thought since its publication Rousseau and the Social Contract introduces and assesses Rousseau's life and the background of the Social Contract The ideas and arguments of the Social Contract Rousseau's continuing importance to politics and philosophy Rousseau and the Social Contract will be essential reading for all students of philosophy and politics and anyone coming to Rousseau for the first time **The Routledge Guidebook to Rousseau's the Social Contract** Christopher Bertram, 2018-08-08 *Routledge Philosophy Guidebook to Hegel and the Philosophy of Right* Dudley Knowles, 2002 Introduces and assesses Hegel one of the most important figures in the history of ideas and political thought and his Philosophy of Right widely recognised as one of the greatest works of political philosophy *An Analysis of Jean-Jacques Rousseau's The Social Contract* James Hill, 2017-07-05 Few people can claim to have had minds as fertile and creative as the French philosopher Jean Jacques Rousseau One of the most influential political theorists of the modern age he was also a composer and writer of opera a novelist and a memoirist whose Confessions ranks as one of the most striking works of autobiography ever written Like many creative thinkers Rousseau was someone whose restless mind could not help questioning accepted orthodoxies and looking at matters from novel and innovative angles His 1762 treatise The Social Contract does exactly that Examining the nature and sources of legitimate political power it crafted a closely reasoned and passionately persuasive argument for democracy at a time when the most widely accepted form of government was absolute monarchy legitimised by religious beliefs about the divine right of kings and queens to rule In France the book was banned by worried Catholic censors in Rousseau's native Geneva it was both banned and burned But history soon pushed Rousseau's ideas into the mainstream of political theory with the French and American revolutions paving the way for democratic government to gain ground across the Western world Though it was precisely what got Rousseau's book banned at the time the novel idea that all legitimate government rests on the will of the people is now recognised as the core principle of democratic freedom and represents for many people the highest of ideals *Rousseau: A Guide for the Perplexed* Matthew Simpson, 2010-06-15 Continuum's Guides for the Perplexed are clear concise and accessible introductions to thinkers writers

and subjects that students and readers can find especially challenging Concentrating specifically on what it is that makes the subject difficult to fathom these books explain and explore key themes and ideas guiding the reader towards a thorough understanding of demanding material Jean Jacques Rousseau was one of the most engaging yet enigmatic philosophers of the eighteenth century He wrote with a flair and directness unique among great thinkers yet beneath the surface of his works there is an extraordinarily complex theory of human nature and society His diverse body of writing often leaves students struggling to find a coherent philosophical outlook Rousseau A Guide for the Perplexed is a clear and thorough account of Rousseau s major works and ideas providing an ideal guide to the complicated thought of this key philosopher The book covers the whole range of Rousseau s life and work offering a detailed review of his landmark philosophical texts including The Social Contract and Emile together with examination of his influential contribution to the social sciences The book provides a cogent and reliable survey of the famous paradoxes in his philosophy and shows how they fit together into a coherent and important theory of culture and politics This book is the ideal companion to the study of this most influential and challenging philosopher Rousseau's Social Contract David Lay Williams,2014-01-13 Rousseau s Social Contract An Introduction offers a thorough and systematic tour of this notoriously paradoxical and challenging text **Mind is the Ride** Jet McDonald,2019-05-16 When Jet McDonald cycled four thousand miles to India and back he didn t want to write a straightforward account He wanted to go on an imaginative journey The age of the travelogue is over today we need to travel inwardly to see the world with fresh eyes Mind is the Ride is that journey a pedal powered antidote to the petrol driven philosophies of the past The book takes the reader on a physical and intellectual adventure from West to East using the components of the bike as a metaphor for philosophy which is woven into the cyclist s experience Each chapter is based around a single component and as Jet travels he adds new parts and new philosophies until the bike is built the ride to India is completed and the relationship between mind body and bicycle made apparent **Building Community at Work** Neil Boyd,2025 This book serves as a guide for scholars employees and leaders of organizations to conceive and build community in the workplace necessary for a healthy and productive work environment Weaving scientific theory models and concepts together with the story of a young executive learning how to foster community in her business Neil Boyd illustrates the practical considerations to consider in building community at work Building Community at Work translates the theoretical foundations and empirical findings from the science of management and community research into clear ways to harness community to improve the workplace Rousseau on Education, Freedom, and Judgment Denise Schaeffer,2014-01-02 In Rousseau on Education Freedom and Judgment Denise Schaeffer challenges the common view of Rousseau as primarily concerned with conditioning citizens passions in order to promote republican virtue and unreflective patriotism Schaeffer argues that to the contrary Rousseau s central concern is the problem of judgment and how to foster it on both the individual and political level in order to create the conditions for genuine self rule Offering a detailed commentary on Rousseau s major

work on education Emile and a wide ranging analysis of the relationship between Emile and several of Rousseau's other works Schaeffer explores Rousseau's understanding of what good judgment is how it is learned and why it is central to the achievement and preservation of human freedom The model of Rousseauian citizenship that emerges from Schaeffer's analysis is more dynamic and self-critical than is often recognized This book demonstrates the importance of Rousseau's contribution to our understanding of the faculty of judgment and more broadly invites a critical reevaluation of Rousseau's understanding of education citizenship and both individual and collective freedom

Healing Invisible Wounds Richard F. Mollica, 2009 In these personal reflections on his thirty years of clinical work with victims of genocide torture and abuse in the United States Cambodia Bosnia and other parts of the world Richard Mollica describes the surprising capacity of traumatized people to heal themselves *Healing Invisible Wounds* reveals how trauma survivors through the telling of their stories teach all of us how to deal with the tragic events of everyday life Mollica's important discovery that humiliation an instrument of violence that also leads to anger and despair can be transformed through his therapeutic project into solace and redemption is a remarkable new contribution to survivors and clinicians This book reveals how in every society we have to move away from viewing trauma survivors as broken people and outcasts to seeing them as courageous people actively contributing to larger social goals When violence occurs there is damage not only to individuals but to entire societies and to the world Through the journey of self-healing that survivors make they enable the rest of us not only as individuals but as entire communities to recover from injury in a violent world

Western Philosophy John G. Cottingham, 2021-07-02 The new edition of this celebrated anthology surveys the Western philosophical tradition from its origins in ancient Greece to the work of today's leading philosophers *Western Philosophy An Anthology* provides an authoritative guided tour through the great tradition of Western philosophical thought The seminal writings of the great philosophers along with more recent readings of contemporary interest are explored in 144 substantial and carefully chosen extracts each preceded by a lucid introduction guiding readers through the history of a diverse range of key arguments and explaining how important theories fit into the unfolding story of Western philosophical inquiry Broad in scope the anthology covers all the main branches of philosophy theory of knowledge and metaphysics logic and language philosophy of mind the self and freedom religion and science moral philosophy political theory aesthetics and the meaning of life all in self-contained parts which can be worked on by students and instructors independently The third edition of the Anthology contains newly incorporated classic texts from thinkers such as Aquinas Machiavelli Descartes William James and Wittgenstein Each of the 144 individual extracts is now followed by sample questions focusing on the key philosophical problems raised by the excerpt and accompanied by detailed further reading suggestions that include up to date links to online resources Also new to this edition is an introductory essay written by John Cottingham which offers advice to students on how to read and write about a philosophical text Part of the Blackwell Philosophy Anthologies series *Western Philosophy An Anthology Third Edition*

remains an indispensable collection of classic source materials and expert insights for both beginning and advanced university students in a wide range of philosophy courses **On the Social Contract** Jean-Jacques Rousseau,1988-11-15 Contents include a note on the translation introduction by Peter Gay and a bibliography **Constitutions and the Classics** Denis Galligan,2014-12-11 The period from the fifteenth century to the late eighteenth century was one of critical importance to British constitutionalism Although the seeds were sown in earlier eras it was at this point that the constitution was transformed to a system of representative parliamentary government Changes at the practical level of the constitution were accompanied by a wealth of ideas on constitutions written from different and often competing perspectives Hobbes and Locke Harrington Hume and Bentham Coke the Levellers and Blackstone were all engaged in the constitutional affairs of the day and their writings influenced the direction and outcome of constitutional thought and development They treated themes of a universal and timeless character and as such have established themselves of lasting interest and importance in the history of constitutional thought Examining their works we can follow the shaping of contemporary ideas of constitutions and the design of constitutional texts At the same time major constitutional change and upheaval were taking place in America and France This was an era of intense discussion examination and constitution making The new nation of the United States looked to authors such as Locke Hume Harrington and Sydney for guidance in their search for a new republicanism adding to the development of constitutional thought and practice This collection includes chapters examining the influences of Madison Hamilton Jefferson and Adams In France the influence of Rousseau was apparent in the revolutionary constitution and Sieyes was an active participant in its discussion and design Montesquieu and de Maistre reflected on the nature of constitutions and constitutional government and these French writers drew on engaged with and challenged the British and American writers The essays in this volume reveal a previously unexplored dynamic relationship between the authors of the three nations explaining the intimate connection between ruler and ruled *Media Capitalism* Thomas Klikauer,2022-01-01 This book argues that media and capitalism no longer exist as separated entities and posits three reasons why one can no longer exist without the other Firstly mass media have become indispensable to capitalism due to the media s ability to sell the commodities of mass consumerism Media capitalism also creates pro capital attitudes among a target population and establishes an ideological hegemony Thirdly media capitalism provides mass deception to hide the pathologies of capitalism which include mass poverty rising inequalities and the acceleration of global warming To illuminate this the book s historical chapter traces the emergence of media capitalism Its subsequent chapters show how media capitalism has infiltrated the public sphere society schools universities the world of work and finally democracy The book concludes by outlining how societies can transition from media capitalism to a post media capitalist society On Tyranny and the Global Legal Order Aoife O'Donoghue,2021-10-07 Since classical antiquity debates about tyranny tyrannicide and preventing tyranny s re emergence have permeated governance discourse Yet within the literature on the global legal order tyranny is missing This

book creates a taxonomy of tyranny and poses the question could the global legal order be tyrannical This taxonomy examines the benefits attached to tyrannical governance for the tyrant considers how illegitimacy and fear establish tyranny asks how rule by law silence and beneficence aid in governing a tyranny It outlines the modalities of tyranny scale imperialism gender and bureaucracy Where it is determined that a tyranny exists the book examines the extent of the right and duty to effect tyrannicide As the global legal order gathers ever more power to itself it becomes imperative to ask whether tyranny lurks at the global scale Rousseau's Theory of Freedom Matthew Simpson,2006-03-08 Jean Jacques Rousseau has a claim to be ranked above even Karl Marx as the political philosopher who has most influenced everyday life His much read philosophy of education alone would qualify him for a high place but his political theory is even more important decisions affecting millions of people were made based on the reading of certain lines of the Social Contract Yet while politicians and scholars have studied this book for 250 years almost no agreement exists on how to interpret its central concept freedom Rousseau s theory of freedom has led him to be called everything from the greatest prophet of individual liberty to the designer of the first totalitarian state This book offers a new unifying interpretation of the theory of freedom in the Social Contract Simpson gives a careful analysis of Rousseau s theory of the social pact and then examines the kinds of freedom that it brings about showing how Rousseau s individualist and collectivist aspects fit into a larger and logically coherent theory of human liberty Simpson s book not only helps us to understand one of the pre eminent political minds of the 18th century but also brings us into closer conversation with those he influenced who have done so much to shape our world And in light of the interest in contemporary contractualist philosophers like Rawls Scanlon and Gauthier readers will find it worthwhile to return to the thinker who offers one of the most radical profound and insightful theories of the social contract ever devised **IBSS: Political Science: 2004 Vol.52** The British Library of Political and Economic

Science,2004-12 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority Rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world s most expert librarians and academics Breadth Today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included International Coverage The IBSS reviews scholarship published in over thirty languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French

A New Modern Philosophy Eugene Marshall,Susanne Sreedhar,2019-03-07 The seventeenth and eighteenth centuries are arguably the most important period in philosophy s history given that they set a new and broad foundation for subsequent philosophical thought Over the last decade however discontent among instructors has grown with coursebooks

unwavering focus on the era's seven most well known philosophers all of them white and male and on their exclusively metaphysical and epistemological concerns While few dispute the centrality of these figures and the questions they raised the modern era also included essential contributions from women like Margaret Cavendish Elisabeth of Bohemia Mary Wollstonecraft and milie Du Ch telet as well as important non white thinkers such as Anton Wilhelm Amo Julien Raimond and Ottobah Cugoano At the same time there has been increasing recognition that moral and political philosophy philosophy of the natural world and philosophy of race also vibrant areas of the seventeenth and eighteenth centuries need to be better integrated with the standard coverage of metaphysics and epistemology A New Modern Philosophy The Inclusive Anthology of Primary Sources addresses in one volume these valid criticisms Weaving together multiple voices and all of the era's vibrant areas of debate this volume sets a new agenda for studying modern philosophy It includes a wide range of readings from 34 thinkers integrating essential works from all of the canonical writers along with the previously neglected philosophers Arranged chronologically editors Eugene Marshall and Susanne Sreedhar provide an introduction for each author that sets the thinker in his or her time period as well as in the longer debates to which the thinker contributed Study questions and suggestions for further reading conclude each chapter At the end of the volume in addition to a comprehensive subject index the book includes 13 Syllabus Modules which will help instructors use the book to easily set up different topically structured courses such as The Citizen and the State Mind and Matter Education Theories of Perception or Metaphysics of Causation And an eresource offers a wide range of supplemental online resources including essay assignments exams quizzes student handouts reading questions and scholarly articles on teaching the history of philosophy

This is likewise one of the factors by obtaining the soft documents of this **Routledge Philosophy Guidebook To Rousseau And The Social Contract** by online.
