Politics of British Culture 1760-1840 Holger Hoock,2003-11-13 This is the story of the forging of a national cultural institution in late eighteenth and early nineteenth century Britain The Royal Academy of Arts was the dominant art school and exhibition society in London and a model for art societies across the British Isles and North America This is the first study of its early years re evaluating the Academy s significance in national cultural life and its profile in an international context Holger Hoock reassesses royal and state patronage of the arts and explores the concepts and practices of cultural patriotism and the politicization of art during the American and French Revolutions By demonstrating how the Academy shaped the notions of an English and British school of art and influenced the emergence of the British cultural state he illuminates the politics of national culture and the character of British public life in an age of war revolution and reform

**Royal Heritage** John Harold Plumb,1985      **The Orders of Knighthood and the Formation of the British Honours System, 1660-1760** Antti Matikkala,2008 Sheds considerable new light on the nature development and functions of the orders in a key phase of their history and goes a long way to explaining how such archaic institutions could flourish in a culture that is commonly thought anti traditional and especially hostile to the middle ages Professor JONATHAN BOULTON University of Notre Dame This is the first comprehensive study to set the British orders of knighthood properly into the context of the honours system by analysing their political social and cultural functions from the Restoration of the monarchy to the end of George II s reign It examines the revival of the Order of the Garter and the proposals to establish the Orders of the Royal Oak and the Esquires of the Martyred King at the Restoration the foundation 1687 and the revival 1703 4 of the Order of the Thistle as well as the foundation of the Order of the Bath 1725 It establishes just how central a part the orders played in the British high political life and its comprehensive and multidimensional approach carefully contrasts the idealistic discourse of virtue and honour to the real workings of the honours system it also makes the case for the Chivalric Enlightenment The orders over the water the Garter and the Thistle conferred by the Jacobite claimants are discussed for the first time in the context of the established British honours system Overall the comparison between the socially very restricted British and the increasingly meritocratic Continental orders highlights the isolation of the British honours system from the European tendencies      **The Idea of Progress in Eighteenth-century Britain** David Spadafora,James Spada,1990-01-01 The idea of progress stood at the very center of the intellectual world of eighteenth century Britain closely linked to every major facet of the British Enlightenment as well as to the economic revolutions of the period Drawing on hundreds of eighteenth century books and pamphlets David Spadafora here provides the most extensive discussion ever written of this

prevailing sense of historical optimism      *On Living in an Old Country* Patrick Wright, 2009-02-26 The hulk of Henry VIII's flagship is raised from the seabed in an operation that captures the mind of the nation The leader of the Labour party wears an informal coat at the Cenotaph and provokes a national scandal An elderly lady whose ancient house is scheduled for demolition dismantles it piece by piece and moves it across the country *On Living in an Old Country* probes such apparently fleeting and disconnected events in order to reveal how history lives on not just in the specialist knowledge of historians archaeologists and curators but as a tangible presence permeating everyday life and shaping our sense of identity It investigates the rise of heritage as expressed in literature advertising and political rhetoric as well as in popular television dramas conservation campaigns and urban development schemes It explores the relations between the idea of an imperilled national identity and the transformation of British society introduced by Margaret Thatcher This is the book that put heritage on the map opening one of the defining cultural and political debates of our time and showing why conservation is a subject of such broad significance in contemporary Britain This new edition includes an extensive new preface and interview material reflecting on the ongoing debate about the heritage industry which the book helped to kick start      *Biographical Memoirs of Fellows* British Academy, 2004 Volume 124 of the Proceedings of the British Academy contains 19 obituaries of recently deceased Fellows of the British Academy      **Handel and the English Chapel Royal** Donald Burrows, 2005 Handel's English church music spans the complete period of his active career in London his first anthem and the Utrecht Te Deum were composed soon after his arrival in London and his last works nearly 40 years later The repertory which includes the Coronation Anthem Zadok the Priest forms one of the most impressive and engaging areas of Baroque church music Most of it was stimulated by Handel's creative contact with the English Chapel Royal a group of professional singers in a different tradition from the opera stars with whom he worked in the theatre This is the first full length study of Handel's English Church music As well as dealing with the many aspects of the compositions themselves it traces the background to the diverse items in the repertory which relates directly to Handel's constant but changing relationship with the Hanoverian British royal family and was affected by political and dynastic events It also examines the circumstances of Handel's performances the building which unlike his theatres still survives in London today      King George II and Queen Caroline John Van der Kiste, 2013-07-01 This biography of the last king to lead British troupes into baffle and his able wife provides intriguing insight into 18th century war and politics Often derided as the buffoon who hated all boats and bainters George II was fortunate to be served by Prime Ministers Sir Robert Walpole and William Pitt and was wise enough to leave the business of government to them His wife generally regarded as the ablest of British queens between Elizabeth I and Queen Victoria used her influence in politics and patronage so that she and Walpole effectively ruled the kingdom between them Her death in 1737 was seen as a national calamity Illustrated throughout this new biography provides a much needed reevaluation of these monarchs and the times in which they ruled      George III's Children John van der Kiste, 2004-01-19 On 12 August

1762 Queen Charlotte gave birth to her first child Twenty one years later to the week the 15th and youngest was born All but two children survived to maturity The eldest of King George III s children who became Prince Regent and King George IV is less remembered for his patronage of the arts than for his extravagance and maltreatment of his wife Caroline As Commander in Chief to the British army the administrative qualities of Frederick Duke of York are largely forgotten while King William IV usually dismissed as a figure of fun brought a new affability to the monarchy which helped him through the storms engendered during the passage of the Great Reform Bill in 1832 The princesses for many years victims of their parents possessiveness married late in life if at all and are passed off as non entities This objective portrayal of the royal family draws upon contemporary sources to lay to rest the gossip and exaggeration

**The Paintings in the Royal Collection** Christopher Lloyd,1999 Gathered over the centuries by successive British monarchs the Royal Collection contains some 7000 paintings This book describes the formation of the collection by three successive connoisseur sovereigns Charles I George IV and Queen Victoria Adopting a thematic and wide ranging approach it presents the paintings from five different angles the effect of the Reformation on English painting and the importance of the Grand Tour animal and landscape painting state visits diplomacy and warfare informal pictures of monarchs and their families and state portraits and large scale ceremonial paintings including the coronation of Queen Victoria

**Sir Peter Lely (1618-1680): Dutch Classicist, English Portraitist, and Collector** Brandon Henderson,2008-07-24 The Dutch born English Baroque portrait painter Sir Peter Lely 1618 1680 is chiefly known for his drowsy sensual beauties and bewigged courtiers associated with the Restoration court of Charles II He is often seen as merely successor or imitator of Sir Anthony Van Dyck 1599 1641 with a common resemblance in all his sitters and an inability to capture a true likeness as well as an absence of any personal characterization or psychological interest Alternately this dissertation aims to reveal Lely s genius of superb draughtsmanship fine color and lively composition as well as to examine and reinstate the artist s impact and deep impress on British painting Lely s early style owes much to his Dutch origin and training with the pioneers of Dutch classicism and the distinctive qualities of his early work and the change in his traditions and techniques are examined The development of Lely s portrait style is examined from his arrival in England in the early 1640s through his years as leading aristocratic and society portraitist and Principal Painter to the King in the 1660s to his mature work in the 1670s when his work is characterized by a restricted palette and cool restraint And finally Lely as collector is examined He assembled one of the largest and most impressive private collections of art in seventeenth century Europe and his acquisitions and their influences benefits and effects are considered Upon Lely s death his highly important collection was dispersed by auction in a series of four well publicized sales in 1681 1682 1688 and 1694 respectively These sales brought many important works to the London art market and were some of the most important sales to date in England as well as the most spectacular of the modern auction world Although Lely initially emulated the style and techniques of Van Dyck he juxtaposed his profound Dutch

qualities of rich color dramatic illumination and romantic landscapes and ultimately imbued a sensuality languor and luxurious negligence into the traditions and continuity of Van Dyck s grand Baroque style of English portraiture Subsequently together later with Sir Godfrey Kneller 1646 1723 Sir Peter Lely completely dominated British portraiture from the death of Van Dyck in 1641 until William Hogarth 1697 1764 challenged his style in the first half of the eighteenth century Due to large file size some images within this ebook do not appear in high resolution      Making History Now and Then D.
