Royal Mourning Regency Culture:

Royal Mourning and Regency Culture S. Behrendt, 1997-09-17 This book examines the widespread response in British artistic media to the death in childbirth in 1817 of Princess Charlotte Augusta of Wales daughter of the Prince Regent and heiress to the throne showing how both in print materials like poetry and sermons and extra literary artifacts like visual art ceramics metalwork and textiles her life and death were invested with the qualities of myth even as her memorialists appropriated her experiences in the process of producing consumer commodities for an emerging mass audience

Sensibility and Female Poetic Tradition, 1780-1860 Claire Knowles, 2016-04-01 Arguing that the end of the eighteenth century witnessed the emergence of an important female poetic tradition Claire Knowles analyzes the poetry of several key women writing between 1780 and 1860 Knowles provides important context by demonstrating the influence of the Della Cruscan in exposing the constructed and performative nature of the trope of sensibility a revelation that was met with critical hostility by a literary culture that valorised sincerity This sets the stage for Charlotte Smith who pioneers an autobiographical approach to poetic production that places increased emphasis on the connection between the poet's physical body and her body of work Knowles shows the poets Susan Evance Letitia Elizabeth Landon and Elizabeth Barrett Browning advancing Smith's poetic strategy as they seek to elicit a powerful sympathetic response from readers by highlighting a connection between their actual suffering and the production of poetry From this environment a specific tradition in female poetry arises that is identifiable in the work of twentieth century writers like Sylvia Plath and continues to pertain today Alongside this new understanding of poetic tradition Knowles provides an innovative account of the central role of women writers to an emergent late eighteenth century mass literary culture and traces a crucial discursive shift that takes place in poetic production during this period She argues that the movement away from the passionate discourse of sensibility in the late eighteenth century to the more contained rhetoric of sentimentality in the early nineteenth had an enormous effect not only on female poets but also on British literary culture as a whole

Romanticism, Memory, and Mourning Mark Sandy, 2016-04-08 The subject of Romanticism Memory and Mourning could not be timelier with Žižek's recent proclamation that we are living in the end times and in an era which is preoccupied with the process and consequences of ageing We mourn both for our pasts and futures as we now recognise that history is a continuation and record of loss Mark Sandy explores the treatment of grief loss and death across a variety of Romantic poetic forms including the ballad sonnet epic elegy fragment romance and ode in the works of poets as diverse as Smith Hemans Blake Wordsworth Coleridge Byron Shelley Keats and Clare Romantic meditations on grief however varied in form and content are self-consciously aware of the complexity and strength of feelings surrounding the consolation or disconsolation that their structures of poetic memory afford those who survive the imaginary and actual dead Romantic mourning Sandy shows finds expression in disparate poetic forms and how it manifests itself both as the spirit of its age rooted in precise historical conditions and as a proleptic power

of lasting transhistorical significance Romantic meditations on grief and loss speak to our contemporary anxieties about the inevitable but unthinkable event of death itself

The Corpse as Text Thea Tomaini, 2017 Between 1700 and 1900 the subject of disinterment exhumation attracted the attention of antiquaries who constructed a comprehensive memory of the past by reading corpses as documents describing an idealised past Between 1700 and 1900 the sixteenth and seventeenth centuries were stereotyped idealised and held as a standard by which the present time could be measured Various figures in politics academia and the church pointed to historical persons such as Henry VIII Shakespeare Charles I and Oliver Cromwell as icons whose lives deaths and corpses illustrated the victories of English Protestantism the values of Monarchism or Republicanism and the superiority of the English culture and its language In particular the subject of disinterment exhumation attracted the attention of antiquaries They constructed a comprehensive memory of the past by reading corpses as documents describing an idealised past These texts accompanied and enhanced the

traditional texts of chronicle literature and epitaph This study explores the cooperation of ideology and aesthetic the paradox of allure and revulsion and the uncanny attraction to death In each case there is a desire for the dead to speak in a contemporary voice each historical personage becomes symbolic of larger aspects of the contemporary culture The discourse of the noble body in death is reconfigured to validate English nationalist ideals and to establish the past as a Golden Era of unimpeachable superiority It was not enough simply to study the lives and deaths of historical figures It was necessary to disinter the corpses engage physically with the dead and experience the discourse of validation THEA TOMAINI is Associate Professor of English Teaching at the University of Southern California

The Neglected Shelley Alan M. Weinberg, Timothy Webb, 2016-03-16 New editions and facsimiles of Percy Bysshe Shelley's works are changing the landscape of Shelley studies by making complete compositions and fragments that have received only limited critical attention readily available to scholars Building on the work begun in Weinberg and Webb's 2009 volume *The Unfamiliar Shelley* *The Neglected Shelley* sheds light on the breadth and depth of Shelley's oeuvre including the poet's earliest work written when he was not yet twenty and was experimenting with gothic romances and other striking forms of literary expression such as two collections of provocative verse There are discussions of Shelley's collaboration with Mary Shelley in the composition of *Frankenstein* and his skill as a translator of Greek poetry and drama reflecting his urgent concern with Greek culture His contributions to prose are the focus of essays on his letters the subversive notes to *Queen Mab* and his complex engagement with Jewish culture Shelley's considerable corpus of fragments is well represented in contributions on the later narrative fiction *Athanasius* *Prince Athanasius* and the significant group of unfinished poems including *Mazenghi* *Fiordispina* *Ginevra* and *The Boat on the Serchio* that treat Italian topics Finally there are explorations of subtle though neglected or underestimated works such as *Rosalind and Helen* *The Sensitive Plant* and the verse drama *Hellas* *The Neglected Shelley* shows that even the poet's apparently slighter works are important in their own right and are richly instructive as expressions of Shelley's developing art of composition and the diverse interests he pursued throughout his career

Historical Dictionary of the British Monarchy Kenneth J. Panton, 2011-02-24 The monarch is the United Kingdom's head of state exercising powers that are circumscribed by common law convention and statute law. Nowadays many of the sovereign's functions are ceremonial but in the past the balance between ceremony and decision making was very different. The foundations of the modern monarchy were laid more than a millennium ago in Anglo Saxon and Celtic Britain so its modern form is a stage in an evolution that has been shaped by attitudes towards divorce the changing role of women the democratization of society dynastic intermarriage financial demands religious convictions struggles for economic and political power and territorial aggrandizement. Covering some of the most famous figures in world history including William the Conqueror Henry VIII and Queens Victoria Elizabeth I and Elizabeth II the *Historical Dictionary of the British Monarchy* provides a chronology starting with the year 495 and continuing to the present day an introductory essay an extensive bibliography and over 600 cross referenced dictionary entries on significant persons places events institutions and other aspects of British culture society economy and politics. The Wake of Wellington Peter W. Sinnema, 2006-04-21 Soldier hero and politician the Duke of Wellington is one of the best known figures of nineteenth century England. From his victory at Waterloo over Napoleon in 1815 he rose to become prime minister of his country. But Peter Sinnema finds equal fascination in Victorian England's response to the duke's death. *The Wake of Wellington* considers Wellington's spectacular funeral pageant in the fall of 1852 an unprecedented event that attracted one and a half million spectators to London as a threshold event against which the life of the soldier hero and High Tory statesman could be re

viewed and represented Canvassing a profuse and dramatically proliferating Wellingtoniana Sinnema examines the various assumptions behind and implications of the Times's celebrated claim that the Irish born Wellington was the very type and model of an Englishman The dead duke as Sinnema demonstrates was repeatedly caught up in interpretive practices that stressed the quasi symbolic relations between hero and nation The Wake of Wellington provides a unique view of how in death Wellington and his career were promoted as the consummation of a national destiny intimately bound up with Englishness itself and with what it meant to be English at midcentury

Singing in a Foreign Land Karen A. Weisman, 2018-07-19 In *Singing in a Foreign Land* Karen A Weisman examines the uneasy literary inheritance of British cultural and poetic norms by early nineteenth century Anglo Jewish authors Focusing on a range of subgenres from elegies to pastorals to psalm translations Weisman shows how the writers she studies engaged with the symbolic resources of English poetry such as the land of England itself from which they had been historically alienated Weisman looks at the self conscious explorations of lyric form by Emma Lyon the elegies for members of the British royal family penned by Hyman Hurwitz the ironic reflections on hybrid identities written by sisters Celia and Marion Moss and the poems of Grace Aguilar that explicitly join lyric effusion to Jewish historical concerns These poets were well versed in both Jewish texts and mainstream literary history and Weisman argues that they model an extreme example of Romantic self reflexivity they implicitly lament their own inability fully to appropriate inherited Romantic ideals about nature and transcendence even while acknowledging that those ideals are already deeply ironized by such figures as Coleridge Shelley and Wordsworth And because they do not possess a secure history binding them to the landscape of British hearth and home they recognize the need to create in their lyric poetry a stable narrative of identity within England and within the King's English even as they gesture toward the impossibility and sometimes even the undesirability of doing so *Singing in a Foreign Land* reveals how these Anglo Jewish poets caught between their desire to enter the English lyric tradition and their inability as Jews to share in the full religious and cultural Romantic heritage asserted a subtle cultural authority in their poems that recognized an alienation from their own expressive resources
