*The Royal Navy and the Mediterranean* G. A. Titterton, 2002     [The Royal Navy and the Mediterranean](#) ,1952     [The Royal Navy and the Mediterranean Convoys](#) Malcolm Llewellyn-Jones, 2013-09-05 This book contains the Naval Staff History originally issued by the Admiralty in 1957 as a confidential book for use within the Royal Navy It has since been declassified and is published here for the first time along with an extended preface This volume describes the dangerous convoy operations in the Mediterranean which were necessary to relieve the garrison and people of Malta covering the period from the beginning of 1941 until the end of 1942 These convoys had to be fought through against determined attack by German and Italian surface submarine and particularly air forces Although casualties were proportionately higher than in Atlantic convoys Malta was successfully re supplied and remained a considerable impediment to enemy s attempts to supply their armies in North Africa These operations reveal the dedication courage and professionalism of the sailors of both naval and merchant services as well as the airmen who supported them A new preface sets the scene for the Staff History The Royal Navy and the Mediterranean Convoys will be of great interest for students interested in the Mediterranean Convoys Second World War and naval and military history     *The British Defence of Egypt, 1935-40* Steve Morewood, 2004-11-25 A comprehensive and challenging analysis of the British defence of Egypt primarily against fascist Italy in the critical lead up period to the Second World War Culminating in the decisive defeat of the Italian military threat at Sidi Barrani in December 1940 this is a fascinating new contribution to the field The security of Egypt a constant of British imperial strategy is a curiously neglected dimension of the still burning appeasement debate Steven Morewood adds to the originality of his interpretation by suggesting the old view should be reinstated that Mussolini should and could have been stopped in his empire building at the Abyssinian hurdle Thereafter as Nazi Germany tore the Versailles peace settlement to shreds the drift to war accelerated as British resolve and credibility were brought into question The fascist dictators in Rome and Berlin held no respect for weakness and Mussolini became the conduit through which Hitler could apply pressure to a sensitive British interest through reinforcing Libya at critical moments     [The British Defence of Egypt, 1935-1940](#) Steven Morewood, 2005 A comprehensive and challenging analysis of the British defence of Egypt primarily against fascist Italy in the critical lead up period to the Second World War Culminating in the decisive defeat of the Italian military threat at Sidi Barrani in December 1940 this is a fascinating new contribution to the field The security of Egypt a constant of British imperial strategy is a curiously neglected dimension of the still burning appeasement debate Steven Morewood adds to the originality of his interpretation by suggesting the old view should be reinstated that Mussolini should and could have been stopped in his empire building at the Abyssinian hurdle Thereafter as Nazi Germany tore the Versailles peace settlement to shreds the drift to war accelerated as British resolve and credibility were brought into question The fascist dictators in Rome and Berlin held no respect for weakness and Mussolini became the conduit through which Hitler could apply pressure to a sensitive British

interest through reinforcing Libya at critical moments      Royal Navy Strategy in the Far East 1919-1939 Andrew Field,2004-05-20 Between the ending of the Great War and the start of the Second World War in 1939 the Royal Navy remained the largest in the world But with the League of Nations seeming to offer a solution to all future conflicts a country weary of war and without an obvious enemy there seemed no need for a large battlefleet The strategic focus shifted eastwards to Japan with its growing battlefleet as the new threat to the British Empire and to the Royal Navy s supremacy From 1924 a strategic plan War Memorandum Eastern was written and refined The plan called for the Royal Navy still the largest in the world even after the Washington Naval Treaties to move eastwards to a defended base at Singapore cut off Japan and force her battlefleet into a decisive fleet battle As a strategy War Memorandum Eastern had many flaws Its real importance lay in the fact that it provided a justification for the Royal Navy to maintain its leading position in the world and to be in the forefront of the development of new tactical thinking Through planning for a war with Japan the Royal Navy was able to test its readiness for a future war Many of the lessons learnt during this period were ultimately put to good use against a different foe in 1939      **The Royal Navy and Maritime Power in the Twentieth Century** Ian Speller,2004-08-02 This book adopts an innovative new approach to examine the role of maritime power and the utility of navies It uses a number of case studies based upon key Royal Navy operations in the twentieth century to draw out enduring principles about maritime power and to examine the strengths and limitations of maritime forces as instruments of national policy Individual chapters focus on campaigns and operations from both World Wars and a series of post 1945 crises and conflicts from the Palestine Patrol in the 1940s to Royal Navy operations in support of British policy in the 1990s Each case study demonstrates critical features of maritime power including operations during the transition to war fleet operations in narrow seas logistics submarine operations the impact of air power on maritime operations blockade maritime power projection amphibious warfare jurisdictional disputes and the law of the sea and peace support operations The contributors to this book all have considerable experience lecturing on these issues at the United Kingdom Joint Services Command and Staff College where maritime campaign analysis is used to teach the principles of maritime power to officers of the Royal Navy The book combines an authoritative examination of critical Royal Navy operations during the twentieth century with a sophisticated analysis of the nature of maritime power As such it is of both historical interest and contemporary relevance and will prove equally valuable to academic historians military professionals and the general reader      *The Royal Navy and the Palestine Patrol* Ninian Stewart,2013-11-05 This is an entirely new Naval Staff History covering the period immediately after the Second World War and the Royal Navy operations to prevent illegal Jewish immigration into Palestine at the time under British Mandate from the United Nations The Palestine Patrol as it became known illustrates clearly the problems facing navies conducting operations other than war in particular those involving maritime embargo measures      *The Royal Navy and the Arctic Convoys* Malcolm Llewellyn-Jones,2013-05-13 Published here for the first time this volume presents a

superb range of insights into this crucial effort of the Second World War This Naval Staff History describes the vital role of the Arctic Convoys 1941-1945 and was first issued by the Historical Section of the Admiralty as a confidential study for use within the Royal Navy in 1954 It grew out of the earlier Battle Summary No 22 compiled by Commander J Owen of the Admiralty's Historical Section and issued in 1943 to cover the convoys run to North Russia in the last half of 1942 and early 1943 That wartime Battle Summary was subsequently revised and expanded by Commander L J Pitcairn Jones to include all the main convoys run from August 1941 until the end of the war using all the historical records which were at hand after the war A new preface provides additional context for the convoys highlighting support provided to Russian forces in their struggle against Germany for the original Staff History was narrowly focused on the naval aspects of the Arctic Convoys to Russia This is an excellent resource for all students with a particular interest in the Arctic Convoys the Second World War and in maritime and military history

The Littorio Class Ermingo Bagnasco, Augusto de Toro, 2011-07-18 An important work for anyone interested in warship design the naval side of World War II in the Mediterranean or modern Italian history New York Military Affairs Symposium For its final battleship design Italy ignored all treaty restrictions on tonnage and produced one of Europe's largest and most powerful capital ships comparable with Germany's Bismarck class similarly built in defiance of international agreements The three ships of the Littorio class were typical of Italian design being fast and elegant but also boasting a revolutionary protective scheme which was tested to the limits as all three were to be heavily damaged in the hard fought naval war in the Mediterranean Roma had the unfortunate distinction of being the first capital ship sunk by guided missile These important ships have never been covered in depth in English language publications but the need is now satisfied in this comprehensive and convincing study by two of Italy's leading naval historians The book combines a detailed analysis of the design with an operational history evaluating how the ships stood up to combat It is illustrated with an amazing collection of photographs many fine line plans and colored artwork of camouflage schemes adding up to as complete a monograph on a single class ever published Among warship enthusiasts battleships enjoy a unique status As the great success of Seaforth's recent book on French battleships proves that interest transcends national boundaries and this superbly executed study is certain to become another classic in the field A very impressive piece of work

History of War An essential book for all naval history enthusiasts Firetrench

Queen and country Emma Vickers, 2015-11-01 The first study of its kind in the UK Queen and country examines the complex intersection between same sex desire and the British Armed Forces during the Second World War It illuminates how men and women lived loved and survived in an institution which at least publicly was unequivocally hostile towards same sex activity within its ranks Queen and country also tells a story of selective remembrance and the politics of memory exploring specifically why same sex desire continues to be absent from the historical record of the war In examining this absence and the more intimate minutiae of cohesion homosociability and desire this study pushes far beyond traditional military history in order to cast new light on one

of the most widely discussed conflicts of the twentieth century

analysis of the unexplored with each chapter offering material which challenges conventional wisdom Clews reassesses several important issues of the Phoney War period including Churchill s involvement in the anti U boat campaign his responsibility for the failures of the Norwegian Campaign his attitude to Britain s aerial bombing campaign and the notion of his unfettered bulldog spirit his relationship with Neville Chamberlain and his succession to the premiership A man of considerable strengths and many shortcomings the Churchill that emerges in Clews portrayal is dynamic and complicated Churchill s Phoney War adds a well balanced and much needed history of the Phoney War while scrupulously examining Churchill s successes and failures

**The Mediterranean Fleet, 1930-1939** Paul G. Halpern,2016-12-01 The Mediterranean Fleet entered the 1930s looking back to the lessons of Jutland and the First World War but also seeking to incorporate new technologies notably air power Unfortunately in the depression years of the early 1930s there was a lack of funds to remedy deficiencies The problem became critical during the Abyssinian crisis of 1935 The crisis wound down by mid 1936 but the respite did not last long In June 1936 the Spanish Civil War broke out and the Mediterranean Fleet was soon involved in evacuations of British and other endangered foreigners from Spanish ports as well as the protection of British flagged merchant ships in the war zone In addition to the Spanish Civil War there was an increase of tension with Germany in 1938 that culminated with the Czechoslovak crisis in September The situation of the Mediterranean Fleet and its possible actions had the Munich agreement not been reached are described The Spanish Civil War ended in 1939 with the victory of the Nationalists and the Mediterranean Fleet was again involved in evacuations By now the prospect of war with Germany and possibly Italy was quite clear and serious preparations for war continued The plans for war in the Mediterranean are reproduced in detail

*British Battleship vs Italian Battleship* Mark Stille,2020-01-23 During World War II s battle for control of the Mediterranean both the British and Italian navies planned to bring their battle fleets into play At the centre of both of these fleets was a core of battleships which both sides expected to play a decisive role in the conflict On 9 July 1940 the two navies met in the central Mediterranean as

two Italian battleships faced off against three of their British counterparts Christened the Battle of Calabria the action allowed the ships to play to their strengths engaging in a long range gunnery duel the very thing they had been designed for Though both sides shot well the only hit was scored by Warspite on the Italian battleship Giulio Cesare The Italians were forced to withdraw and the action ended up being indecisive but it was the largest fleet action fought in the Mediterranean during the war As well as this battle there were other occasions during the war when both British and Italian battleships were present and influential but during which they never engaged each other directly the Battle of Spartivento on 27 November 1940 and the Battle of Cape Matapan on 28 29 March 1941 Packed with full colour artwork carefully selected archive photographs and expert analysis this title explores in detail the role played by British and Italian battleships in these encounters and their influence in the Mediterranean theatre of World War II *Struggle for the Middle Sea* Vincent O'Hara,2009-06-01 The Mediterranean is the maritime crossroads where Europe Asia and Africa meet More major naval actions were fought there than in the Atlantic or Pacific yet remarkably little has been written about the subject This is fresh study of the Mediterranean s naval war analyzes the actions and performances of the five major navies British Italian French German and American during the entire five year campaign and examines the national imperatives that drove each nation s maritime strategy *Struggle for the Middle Sea* provides a history of the entire campaign from all perspectives and covers Germany s largely unknown and remarkably successful struggle to employ sea power in the Mediterranean after the Italian armistice Defense Foreign Affairs Strategic Policy August 2009 has called it a new and stunningly important view of World War II and a fabulously readable and important book *In Passage Perilous* Vincent P. O'Hara,2012-11-05 An invaluable account of one of the most overlooked sea battles of World War II By mid 1942 the Allies were losing the Mediterranean war Malta was isolated and its civilian population faced starvation In June 1942 the British Royal Navy made a stupendous effort to break the Axis stranglehold The British dispatched armed convoys from Gibraltar and Egypt toward Malta In a complex battle lasting more than a week Italian and German forces defeated Operation Vigorous the larger eastern effort and ravaged the western convoy Operation Harpoon in a series of air submarine and surface attacks culminating in the Battle of Pantelleria Just two of seventeen merchant ships that set out for Malta reached their destination *In Passage Perilous* presents a detailed description of the operations and assesses the actual impact Malta had on the fight to deny supplies to Rommel s army in North Africa The book s discussion of the battle s operational aspects highlights the complex relationships between air and naval power and the influence of geography on littoral operations An important and highly recommended addition to the literature on World War II in the Mediterranean IPP Naval Maritime History *German Capital Ships and Raiders in World War II: From Graf Spee to Bismarck, 1931-1941* Eric Grove,2002 This is a compendium volume of three Battle Summaries or Naval Staff Histories The documents in this book cover the actions during the period 1939 1941 that resulted in the sinking of the German warships Bismarck and Graf Spee
