Russian Peasant Women:

Russian Peasant Women Beatrice Farnsworth, Lynne Viola, 1992 Bringing together recent scholarship on Russian peasant women's history from the nineteenth and twentieth centuries this book covers such topics as family life in the countryside woman's work her sexuality her marital and family positions her experience of the Bolshevik Revolution and her role in collectivization of agriculture from its onset in the Stalin years through the Gorbachev era Placing the peasant woman within the context of the peasant household and integrating rather than separating out the female experience in Russian rural society these essays contribute to a greater understanding of the development of Russian peasant society as a whole A pioneering work of social history this collection is essential for all interested in Russian and women's history **Russian**

Peasant Women Who Refused to Marry John Bushnell, 2017-10-09 John Bushnell's analysis of previously unstudied church records and provincial archives reveals surprising marriage patterns in Russian peasant villages in the 18th and 19th centuries For some villages the rate of unmarried women reached as high as 70 percent The religious group most closely identified with female peasant marriage aversion was the Old Believer Spasovite covenant and Bushnell argues that some of these women might have had more agency in the decision to marry than more common peasant tradition ordinarily allowed Bushnell explores the cataclysmic social and economic impacts these decisions had on the villages sometimes dragging entire households into poverty and ultimate dissolution In this act of defiance this group of socially politically and economically subordinated peasants went beyond traditional acts of resistance and reaction **Russian Peasant Women who Refused**

Russian Peasant Bride Theft John Bushnell, 2021-03-15 This book explores the history of Russian peasant bride theft abduction capture from the adoption of Christianity in Kievan Rus in the late tenth century to the very early twentieth century It argues that bride theft in eighteenth and nineteenth century Russia was practised in large part by but not exclusively by Old Believers the schismatics who rejected the Church reforms of the mid seventeenth century and shunned contact with the Orthodox Church and that the point of bride theft where the bride was often a willing party often married secretly at night by an Orthodox priest acting illegally was to absolve the bride and her parents of the responsibility for engaging in a formal Orthodox ritual which Old Believers regarded as sinful The book also considers how bride theft originated much earlier in Russia and was a continuing tradition in some places and how all this fitted into the Russian peasant economy Throughout the book provides rich details of particular bride theft cases of Russian peasant life and of Russian folklore in particular bridal laments

Russian Peasant Women's Resistance Against the State During the Antireligious Campaigns of 1928-1932 Callie Anne Millier, 2016 This study seeks to explore the role of peasant women in resistance to the antireligious campaigns during collectivization and analyze how the interplay of the state and resisters formed a new culture of religion in the countryside I argue that while the state succeeded in controlling most of the public sphere peasant women engaging in subversive activities and exploiting the state's ideology succeeded in preserving a strong peasant adherence to religion prior to World War II It was peasant women's determination and adaptation that thwarted the party's goal of nation-wide atheism

Women and Russian Culture Rosalind Marsh, 1998-11-01 The image of women in Russian culture has undergone profound changes from the origins of modern Russian literature in the eighteenth century until the Revolution of 1917 when women were a source of fascination for Russian writers to the socialist realism period during which public discussion of the representation of women in literature rapidly declined and the woman question was declared to have been resolved to a reappraisal of the position of women since the 1980s This collection of essays by leading western and Russian specialists contains new insights and updates previous research into the role of women in Russian culture in the last two centuries and contributes to two exciting and growing research areas the feminist critique of work by Russian male authors and the study of Russian women writers Moreover whereas most previous studies have concentrated on the aesthetic qualities of works by women writers this collection includes both close textual analysis and the discussion of biographical historical and political questions relating both to the representation of women and women's culture The aim is not to present a unified manifesto but rather to bring together a spectrum of approaches and positions within their common focus on the relationship between women and culture in Russia Contributors R Marsh A Barker J Andrew D Greene I Kazakova C Schuler S Graham K Hodgson N Kolchevska N Cornwell J Curtis M Katz M Ledkovsky P I Barta A Darmodekhina D Gillespie N Zhuravkina B Lanin S Carsten A Tait
