

How To **Ensure Your Safety** While **Scuba Diving**

Trying scuba diving for the first time can be both exciting and terrifying.

For most people, diving into the ocean is a dream come true.

To ensure your safety while scuba diving, here are a few things to bear in mind:

First-time divers should get their health checked out to make sure they're ready to go under water.

If you're physically fit, you're ready to dive!

Make Sure You're Fit To Dive

Signing a medical statement before diving is mandatory.

Listen To Your Divemaster

No matter how experienced you are, you must obey your instructor or guide when on the diving boat.

Listen well to your dive master's dive briefing to understand where you will go, how you will get there, and what to look for. Stay close to your guide.

Double Check Your Gears

Your scuba gear is important for your survival in the sea.

Before your dive, ensure all of your gear is in working condition and that you have all the necessary equipment and back-ups.

If a difficult scenario develops, strive to remain calm and focus on your breathing.
