SCULPTURE AND DRAWINGS. ,1953 **John Raimondi** Henry Adams,2016 John Raimondi b 1948 is a contemporary American artist whose more than 100 monumental works of outdoor sculpture have earned him international distinction and acclaim During his forty five year career he has experimented with a wide variety of styles ranging from the simplicity of strong angular lines and planes to the more graceful curvilinear renditions of the natural world and human figure to improvisational elements in his dignified series on American jazz greats and Indian chiefs A constant in every style and approach in Raimondi s sculpture is his classical sense of design and craftsmanship along with his keen appreciation for scale and a subject s social meaning His sculptural works are also distinctive in how they are made not cast in bronze but formed rolled welded and fabricated into shape from large sheets of bronze or Cor Ten steel The results are unforgettable pieces that are monumental yet elegant solid yet ethereal Behind most of Raimondi s sculptural pieces are his conceptual drawings which are works of art in their own right These drawings based on astute observations in the field and an immersion into scholarly readings become fundamental singular translations of the artist s feel for and understanding of a subject The drawings are then rendered into cardboard models that become templates for larger scale models for the eventual work of art Raimondi then makes new drawings of the completed sculpture in order to provide a sense of closure and complete the artistic process John Raimondi Drawing to Sculpture is a seminal new book that presents not only an unprecedented number of Raimondi s sculptures and drawings but also a sense of his ever evolving career and creative approach to making unforgettable art The book also complements a forty five year retrospective of Raimondi s work at the Boca Raton Museum of Art
