## **Sculpture In The Kingdom Of Quito:**

Sculpture in the Kingdom of Quito Gabrielle G. Palmer, 1987 In this book the author has limited herself to a narrow topic carved wooden statuary based on the human figure to allow herself a carefully defined focus for her twofold purpose to present the stylistic currents in sculpture in Quito from the Spanish conquest in 1534 to Ecuador's declaration of full independence in 1830 and to offer a new view of the terms Renaissance and Baroque as they relate to Spanish colonial art Gabrielle Palmer identifies the principle Spanish statues imported to Quito in the sixteenth and seventeenth centuries and then traces the rise of an indigenous style in the eighteenth and nineteenth centuries She maintains that Quitoian sculpture cannot be viewed solely as a derivation from European prototypes Its style and originality should be recognized as an authentic expression of creativity that both anticipated and provided the psychological foundation for the revolutionary attitude that brought Latin America dependence on Spain to an end in the nineteenth century Thus Baroque art in Quito is seen in a new and broader context Book jacket      *Sculpture and Its Reproductions* Anthony Hughes, Erich Ranfft, 1997 This book is the first of its kind to focus on issues concerning sculpture and reproduction and to explore the theoretical and practical consequences      **Finding Caspicara** Susan Verdi Webster, 2024 Caspicara was the most renowned sculptor of the eighteenth century Andean world Yet many works that are attributed to this Indigenous artist cannot be firmly documented as he is nearly absent in traditional archival records Susan Webster seeks to analyze not only the visual imagery and material culture of his many works but she also seeks to lay the foundation for understanding how scholars can revive the life and records of artists and other historical figures many of whom were Indigenous in this period with different methodologies By cultivating artistic theory popular religious devotion and specific styles of sculpture Webster's examination of the labor and workshop practices of this period contextualize the extensive commercial networks that existed within Quito and emanated beyond it Webster explores the reason why authors constructed an almost completely fictional life story and canon for this artist that continued for two centuries how this story fueled the agendas and goals of these authors in melding the colonial past with a newly independent country that could measure itself against western European culture and as a potent story for tourists She then considers the ways in which Caspicara's work was at the center of debates of sculpture versus painting in Quito These debates and their development in the city also add context to notions of authorship and how it was documented or not By exploring the professional world where he worked Webster's analysis of Indigenous sculptors and their family networks of labor and apprenticeship in the arts allow us to understand the changing workforce and materials for sculptures This analysis also reveals what day to day life may have been for Caspicara and how this routine informed the artistic choices available to him Archival materials indirectly offer glimpses into how patrons regarded Caspicara and his work and how the work of others later embellished or altered his original vision Throughout the chapters visibility materials and reception challenge the typical obsession of art historians museum curators and auction houses in their hunger to attribute authorship

in ways that increase the value both for prestige and monetary reasons and in ways that end up obscuring authorship and intent

**The Spiritual Rococo** GauvinAlexander Bailey,2017-07-05 A groundbreaking approach to Rococo religious d r and spirituality in Europe and South America The Spiritual Rococo addresses three basic conundrums that impede our understanding of eighteenth century aesthetics and culture Why did the Rococo ostensibly the least spiritual style in the pre Modern canon transform into one of the world s most important modes for adorning sacred spaces And why is Rococo still treated as a decadent nemesis of the Enlightenment when the two had fundamental characteristics in common This book seeks to answer these questions by treating Rococo as a global phenomenon for the first time and by exploring its moral and spiritual dimensions through the lens of populist French religious literature of the day a body of work the author calls the Spiritual Rococo and which has never been applied directly to the arts The book traces Rococo s development from France through Central Europe Portugal Brazil and South America by following a chain of interlocking case studies whether artistic literary or ideological and it also considers the parallel diffusion of the literature of the Spiritual Rococo in these same regions placing particular emphasis on unpublished primary sources such as inventories One of the ultimate goals of this study is to move beyond the clich f Rococo s frivolity and acknowledge its essential modernity Thoroughly interdisciplinary The Spiritual Rococo not only integrates different art historical fields in novel ways but also interacts with church and social history literary and post colonial studies and anthropology opening up new horizons in these fields

**Sanctuaries of Earth, Stone, and Light** Gloria Fraser Giffords, 2022-08-23 Over nearly three centuries Jesuit Franciscan and Dominican missionaries built a network of churches throughout the new world of New Spain Since the early twentieth century scholars have studied the colonial architecture of southern New Spain but they have largely ignored the architecture of the north However as this book clearly demonstrates the colonial

architecture of Northern New Spain an area that encompasses most of the southwestern United States and much of northern Mexico is strikingly beautiful and rich with meaning After more than two decades of research both in the field and in archives around the world Gloria Fraser Giffords has authored the definitive book on this architecture Giffords has a remarkable eye for detail and for images both grand and diminutive Because so many of the buildings she examines have been destroyed she sleuthed through historical records in several countries and she discovered that the architecture and material culture of northern New Spain reveal the influences of five continents As she examines objects as large as churches or as small as ornamental ceramic tile she illuminates the sometimes subtle sometimes striking influences of the religious social and artistic traditions of Europe from the beginning of the Christian era through the nineteenth century of the Muslim countries ringing the Mediterranean from the seventh through the fifteenth centuries and of Northern New Spain's indigenous peoples whose art influenced the designs of occupying Europeans Sanctuaries of Earth Stone and Light is a pathbreaking book featuring 200 stunning photographs and over 300 illustrations ranging from ceremonial garments to detailed floor plans of the churches
