North American Women Artists of the Twentieth Century Jules Heller, Nancy G. Heller, 2013-12-19

First Published in 1997

North American Women Artists of the Twentieth Century A Biographical Dictionary was created to fill a gap of there being a comprehensive reference work like this available even though the bibliography in English on various aspects of the history of women artists has grown exponentially during the past ten years. As researchers the editors have been frustrated many times by being unable to locate basic information about many of the artists included in this volume especially those working outside the United States. This leads directly to another reason for producing this particular kind of reference book to try and create a better understanding between and among the artists and art audiences in these countries.

Native American Art in the Twentieth Century W. Jackson Rushing III, 2013-09-27

This illuminating and provocative book is the first anthology devoted to Twentieth Century Native American and First Nation art. Native American Art brings together anthropologists, art historians, curators, critics, and distinguished Native artists to discuss pottery, painting, sculpture, printmaking, photography, and performance art by some of the most celebrated Native American and Canadian First Nation artists of our time. The contributors use new theoretical and critical approaches to address key issues for Native American art including symbolism and spirituality, the role of patronage and museum practices, the politics of art criticism, and the aesthetic power of indigenous knowledge. The artist contributors who represent several Native nations including Cherokee, Lakota, Plains Cree, and those of the Plateau country emphasise the importance of traditional stories, mythologies, and ceremonies in the production of contemporary art. Within great poignancy they write about recent art in terms of home, homeland, and aboriginal sovereignty. Tracing the continued resistance of Native artists to dominant orthodoxies of the art market and art history, *Native American Art in the Twentieth Century* argues forcefully for Native art's place in modern art history.

From Talking Chiefs to a Native Corporate Elite Marybelle Mitchell, 1996

Marybelle Mitchell provides a complete history of Inuit-white relations starting with the first contact with European explorers in the sixteenth century and ending with ratification of the Nunavut proposal to create an Inuit homeland through division of the Northwest Territories.
