[A Thesis.] Meyer Schapiro, 1931 The Romanesque Sculpture of Moissac [a Dissertation], by Meyer Schapiro ... Meyer Schapiro, **The Romanesque Sculpture of Moissac** Meyer Schapiro, 1931 *Romanesque Sculpture* Millard Fillmore Hearn, 1985 **The Sculpture of Moissac** Meyer Schapiro, 1985 **The Nave Sculpture of Vézelay** Kirk Ambrose, 2006 This scholarly work fundamentally changes the way we think about the monastic church of Vézelay and its sculptures Kirk Ambrose provides a new account of the celebrated sculptural ensemble at this important French Romanesque monastic church Whereas scholarly attention in the past has focused almost exclusively on the Pentecostal portal Ambrose devotes most of his analysis to the nave capitals He considers how these works intersect with various aspects of monastic culture from poetry to a sign language used during observed periods of silence From this study it emerges how many of the sculptures resonated with communal practices and with interpretive modes in use at the site Deeming the attempt to uncover an underlying or unifying program to be an anachronistic project Ambrose explores historically specific ways this ensemble cohered for medieval viewers Covering a range of themes including hagiography ornament and violence he develops alternative approaches for the examination of serial imagery As a result this book has broad implications for the study of eleventh and twelfth century art in the West **BOOK JACKET** Romanesque Sculpture of the Pilgrimage Roads Arthur Kingsley Porter, 1923 *Motherhood and Meaning in Medieval Sculpture* Marian Bleeke, 2017 An examination of women as mothers in medieval French sculpture What can medieval sculptural representations of women tell us about medieval women's experiences of motherhood Presumably the work of male sculptors working for clerical patrons these sculptures are unlikely to have been shaped by women's maternal experiences during their production Once produced however their beholders would have included women who were mothers and potential mothers thus opening a space between the sculptures intended meanings and other meanings liable to be produced by these women as they brought their own interests and concerns to these works of art Building on theories of reception and response this book focuses on interactions between women as beholders and a range of sculptures made in France in the twelfth through sixteenth centuries aiming to provide insight into women's experiences of motherhood particular sculptures considered include the Annunciation and Visitation from Reims cathedral the femme aux serpents from Moissac the transi of Jeanne de Bourbon Vendôme the Eve from Autun and a number of French Gothic Virgin and Child sculptures Marian Bleeke is Associate Professor of Art History and Chair of the Department of Art and Design at Cleveland State University **The Pietà in French Late Gothic Sculpture** William H. Forsyth, 1995 The image of the Virgin Mary holding the dead body of Christ in her lap caught the popular imagination in Europe in the 15th and 16th centuries Forsyth Curator Emeritus of Medieval Art at The Metropolitan Museum surveys 167 Pietà sculptures examining the image's rise spread and significance and focusing on the intriguingly

diverse depictions of the Virgin's emotional state as well as other distinctive regional variations. In addition, written sources of the Pieta image and its references in mystical writings are discussed. A catalogue provides summary information about some 1 250 Pietas. Romanesque Sculpture An Ecstatic Art Susan Marcus, 2014-05-21. Architectural sculpture virtually abandoned for five hundred years following the demise of the Roman Empire was revived on the portals of Romanesque churches in eleventh and twelfth century France and Spain. Long overdue is a reappraisal of those images whose aesthetic of rendering the invisible visible establish them as valuable witnesses to the culture of Europe in the Middle Ages. Countless losses, mutilation through wilful destruction, centuries of accumulated grime and a dearth of studies in English have impeded the deserved realization and appreciation of these magnificent works of art. Through illustration and illuminative interpretation, *Romanesque Sculpture An Ecstatic Art* fills the void by tracing the beginnings, maturation and efflorescence of monumental sculptured facades in the short-lived Romanesque era. Depictions on them are mirrors of the age: sophisticated theological messages, monastic life, the cult of relics, pilgrimages, crusades and politics. The survey considers too the sculptors, mostly anonymous, who in adapting models from several media, both antique and current, created a unique visual vocabulary. The beauty of the sculptures comes to the fore. The stones live. **An Account of Medieval Figure-sculpture in England** Edward Schröder Prior, Arthur Gardner, 1912. **The Grove Encyclopedia of Medieval Art and Architecture** Colum Hourihane, 2012. This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century. Drawing upon the expansive scholarship in the celebrated *Grove Dictionary of Art* and adding hundreds of new entries, it offers students, researchers and the general public a reliable up-to-date and convenient resource covering this field of major importance in the development of Western history and international art and architecture. **Romanesque Architectural Sculpture** Meyer Schapiro, 2006-11-15. Meyer Schapiro, 1904-96, renowned for his critical essays on 19th and 20th century painting, also played a decisive role as a young scholar in defining the style of art and architecture known as Romanesque. This is a transcribed and edited version of his Charles Eliot Norton Lectures. **Bulletin - Museums of Art and Archaeology, University of Michigan** University of Michigan. Museum of Art, 1983. Pygmalion's Power Thomas E. A. Dale, 2020-01-29. Pushed to the height of its illusionistic powers during the first centuries of the Roman Empire, sculpture was largely abandoned with the ascendancy of Christianity as the apparent animation of the material image and practices associated with sculpture were considered both superstitious and idolatrous. In *Pygmalion's Power*, Thomas E. A. Dale argues that the reintroduction of architectural sculpture after a hiatus of some seven hundred years arose with the particular goal of engaging the senses in a Christian religious experience. Since the term Romanesque was coined in the nineteenth century, the reintroduction of stone sculpture around the mid eleventh century has been explained as a revivalist phenomenon, one predicated on the desire to claim the authority of ancient Rome. In this study

Dale proposes an alternative theory Covering a broad range of sculpture types including autonomous cult statuary in wood and metal funerary sculpture architectural sculpture and portraiture Dale shows how the revitalized art form was part of a broader shift in emphasis toward spiritual embodiment and affective piety during the late eleventh and twelfth centuries Adding fresh insight to scholarship on the Romanesque Pygmalion s Power borrows from trends in cultural anthropology to demonstrate the power and potential of these sculptures to produce emotional effects that made them an important sensory part of the religious culture of the era **The Romanesque Architecture and Sculpture of Saint Caprais in Agen**
