Towards an Adventist Version of Communio Ecclesiology Tihomir Lazić, 2019-11-13 This book explores how Seventh day Adventists like other Christians can benefit from generating their own version of communio ecclesiology It starts by offering a critical analysis of the status quo of the existing Adventist portrayal of church as remnant and suggests potential ways of moving this tradition forward To articulate a more rounded and comprehensive vision of the church's rich and multifaceted relational nature this book draws on the mainstream Christian koinonia based framework Consequently it provides possible solutions to some of the most divisive ecclesial issues that Christian communities face today regarding church structure ministry mission communal interpretation and reform As it sets on a new footing the conversation between Adventism and other mainstream Christian traditions the methodology of this book serves as a pathway for any Christian community to use when revisiting and enhancing its own current theologies of the church

Adventist Interchurch Relations Stefan Höschele, 2022-09-05 This study presents the first comprehensive analysis of Seventhday Adventist interchurch relations a 20 million member body whose ecumenical stance has so far been underresearched For the sake of interpreting denominational involvement and reservations in Adventism as well as beyond the study develops a new academic approach to ecumenism based on Relational Models Theory a comprehensive social science paradigm of interpreting human relationships The resulting typology of ecumenical interactions and the historical case study of Adventism suggest that such a relational interpretation of ecumenical interaction sheds light on many of the unresolved issues in ecumenics such as divergent concepts of unity difficulties in recognition processes and the permanence of denominationalism
