reactions of different Western allies to the announcement of the SDI in 1983 and especially the 1985 invitation to participate  
While existing studies have explored the origins of the American programme and the role it may have played in ending the  
Cold War this volume breaks new ground by considering the impact of the SDI on transatlantic relations in the 1980s Based  
on newly available archival sources this volume re evaluates the responses of eight NATO member state governments as well  
as the Soviet leadership to the SDI In addition to looking at top down governmental reactions the volume also explores the  
bottom up response to the SDI of civil society and peace activists on both sides of the Atlantic The volume examines how the  
American initiative derisively named Star Wars by its detractors provoked a crisis in relations with its allies during the final

decade of the Cold War and how those tensions within NATO were ultimately resolved This book will be of much interest to students of Cold War history strategic studies foreign policy and international history     **Space** ,1990     The Line-item Veto United States.
