## **Sdl 2001 Meeting Uml 10th International Sdl Forum Copenhagen Denmark June 27-29 2001 Proceedings:**

**SDL 2001: Meeting UML** Rick Reed, Jeanne Reed, 2003-06-29 This volume contains the papers presented at the Tenth SDL Forum Copenhagen. SDL is the Specification and Description Language first standardized by the world telecommunications body the International Telecommunications Union (ITU) more than 20 years ago in 1976. While the original language and domain of application has evolved significantly, the foundations of SDL as a graphical state transition and process communication language for real time systems have remained. Today SDL has also grown to be one notation in the set of unified modelling languages recommended by the ITU ASN.1, MSC, SDL, ODL and TTCN that can be used in methodology taking engineering of systems from requirements capture through to testing and operation. The SDL Forum is held every two years and has become the most important event in the calendar for anyone involved in SDL and related languages and technology. The SDL Forum Society that runs the Forum is a non profit organization whose aim it is to promote and develop these languages.
