Maloney, 2007 In Learning to Love the Bomb Sean M Maloney explores the controversial subject of Canada's acquisition of nuclear weapons during the Cold War Based on newly declassified Canadian and U S documents it examines policy strategy operational and technical matters and weaves these seemingly disparate elements into a compelling story that finally unlocks several Cold War mysteries For example while U S military forces during the 1962 Cuban Missile Crisis were focused on the Caribbean Sea and the southeastern United States Canadian forces assumed responsibility for defending the northern United States with aircraft armed with nuclear depth charges flying patrols and guarding against missile attack by Soviet submarines This defensive strategy was a closely guarded secret because it conflicted with Canada's image as a peacekeeper and therefore a more passive member of NATO than its ally to the south It is revealed here for the first time The place of nuclear weapons in

"Our Gallant Doctor" James Goodwin,2007-04-30 During the Battle of the Atlantic Dr George Hendry had just finished performing two major surgical operations on board the destroyer HMCS Ottawa when his ship was ambushed by 13 German U boats Canadian warships like Ottawa had inadequate radar sets that were incapable of detecting submarines approaching in the dark On September 13 1942 U 91 stole in and torpedoed Ottawa sinking her in 20 minutes utterly exhausted Dr Hendry was lost along with 113 of his shipmates George Hendry was a much loved man a great university athlete and a very good doctor Unfortunately he was also naive and too trusting One night in January 1941 he committed a very foolish indiscretion He would spend the rest of his tragically short life making amends for this mistake

Too Young to Die John Boileau,Dan Black,2016-10-03 John Boileau and Dan Black tell the stories of some of the 30 000 underage youths some as young as fourteen who joined the Canadian Armed Forces in the Second World War This is the companion volume to the authors popular 2013 book Old Enough to Fight about boy soldiers in the First World War Like their predecessors a generation before these boys managed to enlist despite their youth Most went on to face action overseas in what would become the deadliest military conflict in human history They enlisted for a myriad of personal reasons ranging from the appeal of earning regular pay after the unemployment and poverty of the Depression to the desire to avenge the death of a brother or father killed overseas Canada s boy soldiers sailors and airmen saw themselves contributing to the war effort in a visible meaningful way even when that meant taking on very adult risks and dangers of combat Meticulously researched and extensively illustrated with photographs personal documents and specially commissioned maps Too Young to Die provides a touching and fascinating perspective on the Canadian experience in the Second World War Among the individuals whose stories are told Ken Ewing at age sixteen taken prisoner at Hong Kong and then a teenager in a Japanese prisoner of war camp Ralph Frayne so determined to fight that he enlisted in the army navy and Merchant Navy all before the age of seventeen Robert Boulanger at age eighteen the youngest Canadian to die on the Dieppe beaches **Left, Right** Engler Yves Engler,2019-10-15 The left is supposed to be opposed to colonialism and at least skeptical of nationalism

However Left Right shows that for decades now this hasn't been the case in Canada Yves Engler marshals damning detail on the long surprising history of support from the New Democratic Party and labor unions for such policies and international interventions as the coup in Haiti the assassination of Patrice Lumumba the Bay of Pigs invasion the Korean War and much more The rhetoric of the mainstream left he shows has also tended to concede major points to the dominant war mongering ideology with prominent commentators such as Linda McQuaig and Stephen Lewis echoing the terminology of right wing politicians and thinkers More than simply diagnosing a problem however Left Right offers a path forward laying out ways to get us working for an ecologically sound peace promoting and non exploitative foreign policy Enigma Hugh

Sebag-Montefiore,2011-07-21 The complete story of how the German Enigma codes were broken Perfect for fans of THE IMITATION GAME the new film on Alan Turing's Enigma code starring Benedict Cumberbatch Breaking the German Enigma codes was not only about brilliant mathematicians and professors at Bletchley Park There is another aspect of the story which it is only now possible to tell It takes in the exploits of spies naval officers and ordinary British seamen who risked and in some cases lost their lives snatching the vital Enigma codebooks from under the noses of Nazi officials and from sinking German ships and submarines This book tells the whole Enigma story its original invention and use by German forces and how it was the Poles who first cracked and passed on to the British the key to the German airforce Enigma The more complicated German Navy Enigma appeared to them to be unbreakable *The Insubordinate and the Noncompliant*

Howard Coombs,2008-03-28 The Unwilling and the Reluctant Theoretical Perspectives on Disobedience in the Military and The Apathetic and the Defiant Case Studies of Canadian Mutiny and Disobedience 1812 1919 are the first two volumes in a series devoted to disobedience issues in the Canadian military Now with The Insubordinate and the Noncompliant the trilogy is complete Military leadership has both formal and informal dimensions The formal leadership of any organization must ensure that it minimizes the divergence between institutional aims and the actions of informal leaders When this separation occurs the result is sometimes mutiny These incidents of insubordination and noncompliance represent a form of dialogue between military personnel and their leadership The Insubordinate and the Noncompliant offers a perspective on the Canadian experience with military mutiny in the twentieth century in an effort to provide relevant lessons for today **Fight**

to the Finish Tim Cook,2015-09-29 Winner of the 2016 Ottawa Book Award The magisterial second volume of Tim Cook's definitive account of Canadians fighting in the Second World War Historian Tim Cook displays his trademark storytelling ability in the second volume of his masterful account of Canadians in World War II Cook combines an extraordinary grasp of military strategy with a deep empathy for the soldiers on the ground at sea and in the air Whether it's a minute by minute account of a gruelling artillery battle vicious infighting among generals the scene inside a medical unit or the small details of a soldier's daily life Cook creates a compelling narrative He recounts in mesmerizing detail how the Canadian forces figured in the Allied bombing of Germany the D Day landing at Juno beach the taking of Caen and the drive south Featuring dozens

of black and white photographs and moving excerpts from letters and diaries of servicemen *Fight to the Finish* is a memorable account of Canadians who fought abroad and of the home front that was changed forever **Canadian Defence Quarterly** ,1990 *King George V-Class Battleships* Daniel Knowles,2022-04-08 Following the First World War the major naval powers entered into an agreement restricting the construction of capital ships and limiting the numbers that signatories were allowed to maintain so numerous ships were scrapped or disposed of and the majority of planned vessels were either cancelled whilst being built or never laid down By the late 1920s the Royal Navy's battle force comprised of the two Nelson class ships the battlecruisers Hood Renown and Repulse and Revenge and Queen Elizabeth class ships all designed before the First World War In 1928 the Royal Navy began planning a new class of battleships which was put on hold with the signing of the Treaty of London In 1935 realising its battle fleet was becoming dated as other nations laid down new classes of battleships the Royal Navy recommenced planning capital ships within treaty limitations The result was the King George V class battleships Regarded by some as the worst new generation battleships in the Second World War the King George V class were Britain's most modern battleships during the conflict and saw action in some of the most famous engagements from the sinking of the Bismarck in 1941 to the surrender of Japan in 1945 This book charts the story of the King George V class from its conception and design through to the operational history of the ships in the class
