Seagulls Samuel Brackbill, Elizabeth Brackbill, 2019-07-23 A small town in beachfront Delaware is plagued by a horrible nemesis. Locals there are turning up dead left and right and only the birds seem to know why.

Publisher description

Gulls of the World Klaus Malling Olsen, 2018-03-27 A comprehensive photographic guide to the world's gull species. With more than 50 gull species in the world, this family of seabirds poses some of the greatest field identification challenges of any bird group: age-related plumage changes, extensive variations within species, frequent hybridization, and complex distribution. *Gulls of the World* takes on these challenges and is the first book to provide a comprehensive look at these birds. Concise text emphasizes field identification with in-depth discussion of variations as well as coverage of habitat status and distribution. Abundant photographs highlight identification criteria and crucial factors in age and subspecific field separation. Informative species accounts are accompanied by detailed color range maps. *Gulls of the World* is the most authoritative photographic guide to this remarkable bird family. The first book to provide in-depth coverage of all the world's gull species. More than 600 stunning color photographs. Concise text looks at variations, habitat status, and distribution. Informative species accounts and color range maps.

Seagulls Soar April Pulley Sayre, 2020-04-14 Award-winning author April Pulley Sayre explores everyone's favorite impertinent birds: seagulls, examining their intelligence, behavior, and surprisingly widespread habitat in this STEAM nonfiction picture book. Did you know that seagulls sometimes live far from the sea, near a lake or farm or even in a desert? Or that they are omnivores eating everything from fish and clams to grasshoppers and mice and even to blueberries? Or that they dance? These birds are full of surprises. Join April Pulley Sayre as she poetically describes the curious behaviors and wide-ranging habitats of one of the most graceful birds to soar in the sky.

Allen Boone,John Allen Boone,1994-01-01 With warm humor and well seasoned experience J Allen Boone reenters the wonderful world of unspoken communication between humans and animals He was an explorer into the realm of the unexpected who felt that by underestimating the mental and spiritual qualities of by animals we miss out on the oneness and wholeness of life This book salutes the Divinity within all living creatures In his encounter with Just Joe his monkey companion Boone struggles to become the pupil with Just Joe a teacher whose wisdom is not measured in words but in his ability to vibrate with life s unity These thoughtful tales demonstrate how the author spoke silently with all forms of life and how he grew to understand their silent replies Boone never looked down on animals as lesser creatures rather he looked across at them as companions in the grand adventure of life Everything that lives has something of value to share with us whenever we are ready for the experience *Hesperia* Harry Lyman Koopman,1919
