## **Sea Harrier Over The Falklands:**

**Sea Harrier Over the Falklands** Commander 'Sharkey' Ward, DSC, AFC, RN, 1993-08-05 Sharkey Ward commanded 801 Naval Air Squadron HMS Invincible during the Falkland War of April to June 1982 and was senior Sea Harrier adviser to the command on the tactics direction and progress of the air war. He flew over 60 war missions, achieved three air to air kills and took part in or witnessed a total of ten kills. He was also the leading night pilot and was decorated with the Distinguished Service Cross for gallantry. But what after all could 20 Sea Harriers operating from a flight deck bucketing about in the South Atlantic do against more than 200 Argentine military aircraft flown by pilots who as the raids against the British shipping proved displayed enormous skill and almost suicidal gallantry. The world knows the answer now. What is puzzling therefore is this book's truthful depiction of the attitudes of some senior non flying naval officers and of the RAF towards the men and indeed the machine that made possible the victory in the Falklands. This first hand account charts in detail the naval pilots journey to the South Atlantic and how they took on and triumphantly conquered the challenges they faced. It is a dramatic story leavened with accounts of the air to air fighting and of life in a squadron at sea and on a war footing. But it is also a tale of inter Service rivalry, bureaucratic interference and the less than generous attitudes of a number of senior commanders who should certainly have known better. Indeed some of them might even have lost the war through a lack of understanding of air warfare. The author attempts to put the record straight. **Sea Harrier Over the Falklands** Nigel David Ward, 2003

**Sea Harrier Over the Falklands** Sharkey Ward, 2000 Sharkey Ward commanded 801 Naval Air Squadron HMS Invincible was senior Sea Harrier adviser to the Command, flew over sixty missions and was awarded DSC. Yet had he followed all his instructions to the letter Britain might well have lost the Falklands War. His dramatic first hand story of the air war in the South Atlantic is also an extraordinary outspoken account of inter Service rivalries, bureaucratic interference and dangerous ignorance of the realities of air combat among many senior commanders. As Sharkey Ward reveals the 801 pilots were fighting not just the enemy, exhaustion and the hostile weather but also the prejudice and ignorance of their own side. *Falklands War Heroes* Michael Ashcroft, 2021-11-09 The Falklands War which may prove to be the last colonial war that Britain ever fights took place in 1982. Fought 8 000 miles from home soil it cost the lives of 255 British military personnel with many more wounded, some seriously. The war also witnessed many acts of outstanding courage by the UK Armed Forces after a strong Task Force was sent to regain the islands from the Argentine invaders. Soldiers, sailors and airmen risked and in some cases gave their lives for the freedom of 1 820 islanders. Lord Ashcroft who has been fascinated by bravery since he was a young boy has amassed several medal collections over the past four decades including the world's largest collection of Victoria Crosses. Britain and the Commonwealth's most prestigious gallantry award Falklands War Heroes tells the stories behind his collection of valour and service medals awarded for the Falklands War. The collection almost certainly the largest of its kind in the world spans all the major events of the war. This book which contains nearly

forty individual write ups has been written to mark the fortieth anniversary of the war It is Lord Ashcroft s attempt to champion the outstanding bravery of our Armed Forces during an undeclared war that was fought and won over ten weeks in the most challenging conditions

**South Atlantic 1982** Angus Konstam,2025-01-16 A detailed account of the war winning role that a handful of Harrier squadrons played in the Falklands War On 5 April 1982 the British aircraft carriers Hermes and Invincible sailed for the South Atlantic at the heart of the task force that would retake the Falkland Islands known to Argentina as the Islas Malvinas Air power was essential to the operation and some analysts considered the contest unwinnable The British had just 42 fighter jets available 28 Sea Harriers and 14 RAF Harrier GR 3s and were outnumbered three to one by the Argentinian Air Force Naval expert Angus Konstam offers a focused history of naval aviation in the Falklands War The superbly manoeuvrable Harriers provided air cover during the ferociously contested landings and later a Harrier Forward Operating Base on the islands was also made available He explains how the British forces achieved their impressive Falklands air to air record shooting down 21 Argentinian jets for no losses while suffering more to anti aircraft fire He also looks into the Harriers ground attack campaign and explains the roles played by weapons technology radar electronic warfare aerial reconnaissance and support helicopters Illustrated throughout with spectacular new artwork 3D diagrams and maps this book explains how the brutal test of the Falklands War showed the way forward for naval aviation and fleet air defence for decades to come

The British Carrier Strike Fleet after 1945 David Hobbs,2015-10-30 A comprehensive study of the bittersweet post WWII history of British naval aviation will become a standard reference for its subject Firetrench In 1945 the most powerful fleet in the Royal Navy s history was centered on nine aircraft carriers This book charts the post war fortunes of this potent strike force its decline in the face of diminishing resources its final fall at the hands of uncomprehending politicians and its recent resurrection in the form of the Queen Elizabeth class carriers the largest ships ever built for the Royal Navy After 1945 experts prophesied that nuclear weapons would make conventional forces obsolete but British carrier borne aircraft were almost continuously employed in numerous conflicts as far apart as Korea Egypt the Persian Gulf the South Atlantic East Africa and the Far East often giving successive British Governments options when no others were available In the process the Royal Navy invented many of the techniques and devices crucial to modern carrier operations angled decks steam catapults and deck landing aids while also pioneering novel forms of warfare like helicopter borne assault and tactics for countering such modern plagues as insurgency and terrorism This book combines narratives of these poorly understood operations with a clear analysis of the strategic and political background benefiting from the author s personal experience of both carrier flying and the workings of Whitehall It is an important but largely untold story of renewed significance as Britain once again embraces carrier aviation Makes a timely and welcome appearance will make compelling reading for those with serious concern for our naval affairs St Andrews in Focus

**The Royal Navy and Falklands War** David Brown, 1987-07-13 Soldiers and journalists alike wasted no time in telling the story of the campaign to recapture the Falkland Islands after the Argentinian invasion in April 1982 Almost without exception however they are concerned largely on the role of the Army for it was the part they played which particularly fired the public imagination and it may be said that the role of the Royal and Merchant Navies the abiding images of which are for many the pictures of the exploding frigate *Antelope* and the burning *Atlantic Conveyor* has hitherto been overshadowed by the yomping of the Marines and the exploits of certain gentlemen of the press Yet none of them would have been there at all had the Royal Navy not provided the necessary transport not to mention air cover and bombardment support In the book David Brown head of what was formally the Naval Historical Branch at the Ministry of Defence tells in full for the first time the extraordinary story of how the fleet was assembled of how merchant ships from luxury liners such as the *Canberra* to cargo carriers of every description were Taken Up From Trade and in a staggeringly short time converted to their new role He describes the stupendous problems presented by the assembling and stowing of the thousands of tons of stores and equipment needed by the Expeditionary Forces and the way in which these problems were dealt with
