The New Internationalists Sue Clayton, 2020-12-29 An account of the mobilization of thousands of volunteers who rescued supported and welcomed refugees during the recent European refugee crisis In *The New Internationalists* Sue Clayton tells the story of the largest civic mobilization since the Second World War when volunteers many young and untrained took on unimaginable responsibilities and saved thousands of lives During the European refugee crisis of 2015 2020 they witnessed first hand the catastrophic failure of established NGOs and the indifference and frequently the open hostility of the EU and national governments Many faced state hostility themselves Their accounts show how activist volunteers have shaped today s European humanitarian agenda and provide a powerful critique of failures of current policy

Visual Securitization Alice Massari, 2021-05-18 This open access book offers an innovative account of how relief organizations visual depiction of Syrian displacement contributes to reproduce and reinforce a securitized account of refugees Through visual analysis the book demonstrates how the securitization process takes place in three different ways First of all even if marginally it occurs through the reproduction of mainstream media and political accounts that have depicted refugees in terms of threats Secondly and more consistently through a representation of Syrian displaced people that despite the undeniable innovative aesthetic patterns focusing on dignity and empowerment continue to reinforce a visual narrative around refugees in terms of victimhood and passivity The reproduction of a securitized account takes also place through the dialectic between what is made visible in the pictures and what is not At the same time the book identifies visual glimmers and minor displacements in the humanitarian discourse that have the potentiality to produce alternative discourses on refugees and displacement beyond the mainstream securitized ones By showing how relief organizations visual representation contributes to the securitization of the refugee issue this book provides a great resource to students and academics in migration visuality humanitarianism and securitization as well as social scientists and policy makers
