Steele, 1962 Accounts of the first east west traverse of the Arctic Sea during the summer of 1960 made by the nuclear submarine the U S S Seadragon and reported by her commander **USS Seadragon - George P. Steele, 1962** **The Northwest Passage: Arctic Straits** Donat Pharand, 2024-09-02 **Workshop on the U.S. Antarctic Meteorological Data Delivery System** Claire S. Hanson, Charles R Stearns, 1988 Silent and Unseen Alfred Scott McLaren, 2015-05-15 Silent and Unseen is a memoir of a submariner s life on a U S attack submarine during the Cold War by Capt Alfred S McLaren an experienced submarine officer and nuclear attack submarine commander He describes in riveting detail the significant events that occurred early in the Cold War during his seven years 1958 65 on board three attack submarines the USS Greenfish SS 351 USS Seadragon SSN 584 and USS Skipjack SSN 585 He took part in the first submerged transit of the Northwest Passage a Baffin Bay expedition and as commander of USS Queenfish SSN 651 a North Pole expedition that completed the first survey of the entire Siberian Continental Shelf McLaren s stories and anecdotes offer a look at the development of attack boat tactics and under ice exploration techniques During the early high risk years of the Cold War submarines were continually at sea and each reconnaissance and intelligence collection mission was of potentially great value to the United States The missions often required zeroing in on the potential enemy to collect the intelligence desired generally within weapons range Unlike a war patrol the U S attack boat had to remain undetected and then withdraw as silently and unseen as it s original approach Greenfish was one of the most successful Pacific diesel submarines when McLaren served aboard her as a watch and weapons officer He then served as watch officer on the Seadragon when she became the first nuclear submarine to transit from the Atlantic to the Pacific via the Arctic Ocean En route she examined the underside of icebergs conducted the first underwater survey and passage through the Northwest Passage and surfaced at the North Pole McLaren concludes by recounting his experiences on board what was then the world s fastest and most advanced submarine USS Skipjack SSN 585 during the Cuban Missile Crisis two Cold War missions and the very intensive and exciting period of new tactical and weapons development which followed to counter a rapidly emerging Soviet nuclear submarine threat Submarines Under Ice Marion D. Williams, 1998 This book treats not only Wilkins s Nautilus expedition of 1931 but the diesel and battery powered submarine operations of the 1940s and 1950s as well as the era of nuclear powered boats It shows how rapid advances in science and technology helped overcome so many obstacles that today the Arctic Ocean is considered the submariner s private sea Author Marion Williams a member of the U S Navy s submarine service for many years tells the story from the viewpoint of the submariners themselves To do so he consulted countless official and unofficial documents and recently declassified reports interviewed participants and drew on his own professional knowledge He provides dramatic details of every operation and also describes the military and political ramifications of each cruise The narrative is certain to appeal to readers of all ages who enjoy tales of exploration and discovery Dozens of photographs many

Caron,Harry N. Scheiber,2014-07-17 The advent of the nuclear age in 1945 fundamentally altered the course of human events The oceans are not the focus of the nuclear age but the affairs of the oceans are deeply woven into the history of that age Knowledge of what the nuclear age has meant for the oceans however is highly fragmented and there exists a surprising gap in research on the impact of the nuclear age on the oceans and on ocean law and policy Ranging from dumped wastes to transportation to security this study frames the complex multidimensional set of relationships between the oceans and the nuclear age and illuminates patterns of impact and response in ocean law This timely expanded edition includes a new chapter by Lt Todd Hutchins USN on Nuclear Risks in Coastal Areas Legal and Regulatory Responses It provides a full discussion of the 2011 coastal Fukushima Nuclear Power Plant disaster together with analysis more generally of the challenges to the environment and to the legal order globally that are posed by coastal siting of nuclear power plants
