Seafaring Under Sail Basil Greenhill, Denis Stonham, 1981

Tracing Your Seafaring Ancestors Simon Wills, 2016-02-29

Photographs of your seafaring ancestors may tell you more about their lives than you realize and Simon Wills's helpful and practical guide shows you how to identify and interpret the evidence caught on camera. Since maritime roles have been so vital to Britain's prosperity and military might they are among the commonest professions depicted in photographs of our ancestors and his handbook is the ideal introduction to them. Maybe your ancestor was a seaman in the Royal Navy, a ship's captain, a steward on an ocean liner or an officer in the naval reserves. This book shows you how to spot photographic clues to an individual's career. Whether your ancestor served in the merchant navy or the Royal Navy or in another seagoing role such as a fisherman, a lifeboatman or even a ship's passenger, Simon Wills's book will be your guide.

People, Place and Power on the Nineteenth-Century Waterfront Graeme J. Milne, 2016-08-24. This book explores the tenuous existence of seafarers divided between their time on the ocean and their residence in sailortown economies geared to exploit them. Particular attention is given both to the contribution of seafarers as a global workforce into the nineteenth century and to their help in creating vibrant multicultural enclaves in port cities worldwide. In addition, research explores the scandalized opinions of outside observers challenging ideas about public behavior and relationships. Sailortown myths persisted far into the twentieth century to the detriment of older waterfront districts and their residents and readers will find this book is invaluable in casting new light on forgotten communities whose lives bridged urban maritime and global histories.

Making Men in the Age of Sail Graeme J. Milne, 2024-06-15. Myths and stereotypes surrounding seafarers in the Age of Sail persist to this day. Sailors were celebrated for their courage, strength and skill yet condemned for militancy, vice and fecklessness. As sail gave way to steam, sailing ship mariners became nostalgic symbols of maritime prowess and heritage, representing a timeless heroic masculinity in an era when the modernizing industrial world was challenging assumptions about gender, class, work and society. Drawing on British seafaring memoirs from the late nineteenth century, *Making Men in the Age of Sail* argues that maritime writing moulded the reading public's image of the merchant seaman. Authors chronicled their lives as they grew from boy sailors to trained seafarers, telling colourful tales of the men they worked with. Most never doubted that the sailing ship had made them better men. Their testimony reinforced and preserved conservative perspectives on seafaring manhood as Britain's economic and technological priorities continued to evolve in the new steamship age. Offering a gender analysis of the image of the seafarer, *Making Men in the Age of Sail* brings the history of British sailors into wider debates about modernity and masculinity.

Working Out Gender Margaret Walsh, 2017-03-02. *Working Out Gender* brings together leading scholars and young researchers to examine the various ways in which gender is currently being used in labour history. Having been a dynamic and contentious category of historical analysis since the mid 1980s, gender continues to incite much debate. This volume seeks a more informed view about labour history both by advancing the position of women and

making their lives central to learning and by examining men as gendered persons and discussing the social construction of masculinity A broad perspective of labour history is scrutinised on both sides of the Atlantic though the emphasis is given to European experiences Themes examined include work and workplace activities the working classes masculinity and politics and the timespan ranges from the eighteenth century to recent times *Masters Under God* Richard Woodman,2009

Masters Under God presents the third of five books in Richard Woodman's groundbreaking history of the British Merchant Navy covering the period from 1817 to 1884 from the end of the Napoleonic War to the first steam ships bound for Australia then in the throes of a great immigration boom It encompasses gold rush fuelled emigration as well as the Opium Wars and the breaking down of trade barriers with Imperial China including the opening of the Suez Canal the laying of submarine telegraph cables and the birth of cruise companies like Cunard and P O The 1860s was the era of the beautiful tea clippers but it was also a period which began with the social status of the merchant marine at low ebb blighted by inebriation and ineptitude prior to Samuel Plimsoll's safety reforms Alongside the continuing development of the sailing ship and the downfall of the East India Company's monopoly on eastern trade the first steamers started plying along the coasts of Europe and America before venturing across the Atlantic and eventually the world This dazzling book continues the story of the mercantile marine where the previous volume finished and will leave you anticipating the next with baited breath a terrific book tackling a vast subject with a perceptive eye Lots of surprising facts and a salutary reminder that the Merchant Navy often played a far more critical role in Britain's history than the Royal Navy Dr David Cordingly Hearings Before the Committee on Naval Affairs of the House of Representatives on Sundry Legislation Affect The Naval Establishment ,1922

Sealift ,1975 **Those Emblems of Hell?** Paul C. van Royen,2017-10-18 This volume collects a series of reports from maritime historians across Europe aiming to provide a coherent historical trajectory of the lives of European sailors and their dealings with the maritime labour market the reports were presented at The Hague's 1994 conference European Sailors 1570 1870 The core areas discussed in the first half of the volume include the national maritime labour market the international maritime labour market working conditions for sailors and career patterns The second half features reports detailing the sailing history of a selection European countries the Netherlands England Scotland Britain as a whole Iceland Norway Finland Denmark Germany Belgium France and Spain Each report responds to a set of questions distributed by the commissioning editors so that the data from each country can be compared and contrasted Questions considered include the number of sailors represented in the navy mercantile marine or whaling industries the socio economic background of sailors wage details recruitment policies strikes mutinies and career mobility amongst sailors The volume provides an overview of the history of sailors to enable a strengthening of data in the field of maritime history as it continues to develop and extend
