The first section explores the ways in which religion has primarily been understood in the Star Trek franchise in relationship to science technology scientism and secular humanism What do Star Trek and its creator Gene Roddenberry have to say about religion and what does this reveal about changing American perceptions about the role value and place of religion in everyday life Section Two examines the mythic power and appeal of Star Trek and highlights the mythic and symbolic parallels between the series story lines and themes taken from both western religious tradition and the scientific and technological components of contemporary North American Society In the final section contributors discuss the mythic and ritual aspects of Star Trek fandom How have Star Trek fans found meaning and value in the television programs and how do they express that meaning in their lives Contributors include Robert Asa Michael Jindra Larry Kreitzer Jeffrey S Lamp Peter Linford Ian Maher Anne Pearson Gregory Peterson and Jon Wagner
