The Search for the "Manchurian Candidate" John D. Marks, 1979-01-01      *The Search for the "Manchurian Candidate"* John Marks, 1978 Here is the extraordinary story of how the Central Intelligence Agency waged a careful and systematic assault on the human psyche John Marks reveals what was perhaps the most sinister activity ever engaged in by an organ of the United States government He describes how the government conducted a series of secret programs to find ways to control human behavior More than a spy story John Marks has both documented a major portion of the concealed history of our time and spelled out the tragic costs of secrecy and lack of accountability to the democratic system      The Search for the "Manchurian Candidate" John Marks, 1979      *The Wizards Of Langley* Jeffrey T. Richelson, 2008-11-10 In this the first full length study of the Directorate of Science and Technology Jeffrey T. Richelson walks us down the corridors of CIA headquarters in Langley Virginia and through the four decades of science scientists and managers that produced the CIA we have today He tells a story of amazing technological innovation in service of intelligence gathering of bitter bureaucratic infighting and sometimes as in the case of its mind control adventure of stunning moral failure Based on original interviews and extensive archival research *The Wizards of Langley* turns a piercing lamp on many of the agency's activities many never before made public      **The Forgotten Terrorist** Mel Ayton, 2019-05 Robert F Kennedy's assassination in 1968 seems like it should be an open and shut case Many people crowded in the small room at Los Angeles's famed Ambassador Hotel that fateful night saw Sirhan Sirhan pull the trigger Sirhan was also convicted of the crime and still languishes in jail with a life sentence However conspiracy theorists have jumped on inconsistencies in the eyewitness testimony and alleged anomalies in the forensic evidence to suggest that Sirhan was only one shooter in a larger conspiracy a patsy for the real killers or even a hypnotized assassin who did not know what he was doing a popular plot in Cold War era fiction such as *The Manchurian Candidate* Mel Ayton profiles Sirhan and presents a wealth of evidence about his fanatical Palestinian nationalism and his hatred for RFK that motivated the killing Ayton unearths neglected eyewitness accounts and overlooked forensic evidence and examines Sirhan's extensive personal notebooks He revisits the trial proceedings and convincingly shows Sirhan was in fact the lone assassin whose politically motivated act was a forerunner of present day terrorism *The Forgotten Terrorist* is the definitive book on the assassination that rocked the nation during the turbulent summer of 1968 This second edition features a new afterword containing interviews and new evidence as well as a new examination of the RFK assassination acoustics evidence by technical analyst Michael O Dell      **The Perversion Of Knowledge** Dr. Vadim J. Birstein, 2009-09-09 During the Soviet years Russian science was touted as one of the greatest successes of the regime Russian science was considered to be equal if not superior to that of the wealthy western nations *The Perversion of Knowledge* a history of Soviet science that focuses on its control by the KGB and the Communist Party reveals the dark side of this glittering achievement Based on the author's firsthand experience as a Soviet scientist and drawing on extensive Russian language sources not

easily available to the Western reader the book includes shocking new information on biomedical experimentation on humans as well as an examination of the pernicious effects of Trofim Lysenko's pseudo biology Also included are many poignant case histories of those who collaborated and those who managed to resist focusing on the moral choices and consequences The text is accompanied by the author's own translations of key archival materials making this work an essential resource for all those with a serious interest in Russian history
