PHP Microservices
Carlos Perez Sanchez,Pablo Solar Vilarino,2017-03-29 Transit from monolithic architectures to highly available scalable and fault tolerant microservices About This Book Build your own applications based on event driven microservices and set them up on a production server Successfully transform any monolithic application into a microservice Monitor the health of your application prevent downtime and reduce costs Who This Book Is For PHP developers who want to build scalable highly available and secure applications will find this book useful No knowledge of microservices is assumed What You Will Learn Set up a development environment using the right strategies and tools Learn about application design and structure to start implementing your application Transform a monolithic application into microservices Explore the best way to start implementing your application using testing Understand how to monitor your microservices handle errors and debug the application Deploy your finished application into a production environment and learn how to solve common problems Know how to scale your application based on microservices once it is up and running In Detail The world is moving away from bulky unreliable and high maintenance PHP applications to small easy to maintain and highly available microservices and the pressing need is for PHP developers to understand the criticalities in building effective microservices that scale at large This book will be a reliable resource and one that will help you to develop your skills and teach you techniques for building reliable microservices in PHP The book begins with an introduction to the world of microservices and quickly shows you how to set up a development environment and build a basic platform using Docker and Vagrant You will then get into the different design aspects to be considered while building microservices in your favorite framework and you will explore topics such as testing securing and deploying microservices You will also understand how to migrate a monolithic application to the microservice architecture while keeping scalability and best practices in mind Furthermore you will get into a few important DevOps techniques that will help you progress on to more complex domains such as native cloud development as well as some interesting design patterns By the end of this book you will be able to develop applications based on microservices in an organized and efficient way You will also gain the knowledge to transform any monolithic applications into microservices Style and approach Filled with code that you can start typing straightaway this book will take you through building testing securing and deploying microservices in the most practical way possible The focus of the book is more inclined towards showing you how it s done rather than with what to do although you will get a good idea of those tools most widely used to build microservices

Paracelsian Moments Gerhild Scholz Williams,Charles D. Gunnoe Jr.,2003-03-01 Scientific ideas inspired by religious magical and alchemical themes competed alongside traditional Aristotelian science and the emerging mechanical philosophy in the early modern era At the center of this ferment was a quirky and creative German physician Paracelsus whose religious alchemical worldview served as an inspiration for countless scientific innovators This collection is about Paracelsus and the wide range of issues he explored and ones taken up by many who were directly or indirectly

affected by the same mental universe that sustained his thought and writings This volume includes strong contextual studies on Paracelsianism and the larger cultural history of early modern science including groundbreaking studies on Robert Boyle Fran ois Rabelais Giovanni Pico della Mirandola and Johannes Praetorius *Privacy in the Digital Age* Nancy S. Lind,Erik T. Rankin,2015-06-19 A collection of expert essays examines the privacy rights that have been lost in the post 9 11 era giving students and others the knowledge they need to take back their constitutional protections This timely two volume collection shares information every citizen should have tackling the erosion of privacy rights engendered by the ability of digital technology to intercept mine and store personal data most often without the knowledge of those being monitored Examining its subject through the lens of Fourth Amendment rights the work focuses on technological advances that now gather personal data on an unprecedented scale whether by monitoring social media tracking cell phones or using thermal imaging to watch people s movement It also examines the possible impact of the widespread gathering of such data by law enforcement and security agencies and by private corporations such as Google Organized by hot button topics confronting U S citizens in the post 9 11 era the work reviews the original intent of the Fourth Amendment and then traces the development and erosion of interpretations of that amendment in the 21st century Topical essays offer a comprehensive treatment and understanding of current Fourth Amendment issues including those that have been brought before the courts and those relative to the continuing governmental and societal emphasis on security and public safety since the Columbine shootings in 1999 and the events of September 11 2001 **eBay For Dummies** Marsha Collier,2009-06-29 The bestselling guide to successfully buying and selling on eBay fully revised and updated eBay is the world s 1 shopping and selling site where millions find bargains and make money with their own sales Marsha Collier is the 1 eBay expert and bestselling author with more than a million copies of her books in print And eBay For Dummies has been the bestselling book on eBay since the original edition in 1999 Thoroughly updated to cover all the changes in the eBay site eBay For Dummies 6th Edition gets you started with information about signing up and navigating the site It shows you how to find the best bargains bid to win and complete your purchase securely Then it guides you into become a successful eBay seller showing you how you can pick up extra money in a tight economy with eBay sales Covers how to find bargains on eBay bid successfully and pay for your purchases safely Helps new users become comfortable with the site and shop with confidence Shows you how to set up a seller account list items offer customer service ship merchandise and receive payment securely Prepares you for other issues that may arise Explores eBay s special features showing you how to work within the rules use the community and even set up a charity auction Includes insider tips on becoming a better buyer and seller eBay For Dummies 6th Edition prepares you to save money on your purchases and make money on your sales all from the comfort of your home **AARP Genealogy Online** April Leigh Helm,Matthew L.
