friendship bravery and caring for the environment Barbie's Magical Mermaid Encounter shows kids that they can make the world a better place by following their dreams and being nice to others. It shows how beautiful the ocean is and stresses how important it is to protect it for future generations. This is how the story starts: Barbie was a little girl who lived in Seashell Cove, a pretty beach town. She liked how time seemed to go by slowly there. Her hair was golden and sparkled like a river of sunshine. Her eyes were as blue as the ocean. She was the picture of beauty. Barbie was the breathtaking beauty of Seashell Cove, a place where simple joys of life lived together with the grandeur of nature. Barbie's true love and the thing that kept her alive came from the water. As long as she could remember, the beautiful waves had been with her all the time, and their steady beat had made her feel better. Barbie loved the sea more than toys and games, even though other kids would have been happy with those things. She was interested in the secrets that lay below the surface and found comfort in the sky that seemed to go on forever. Every morning, as the sun came up over the seaside town, Barbie would walk down to the beach. She would go on her daily search for seashells with a box that she had made herself. She saw these fragile gems as more than just seashells; she knew they had stories for her to find. Barbie was amazed by the shells' complicated patterns and wide range of colors. Each one told a story of a faraway trip. Barbie's trips to the beach didn't end with gathering shells. She was also very good at building dreams, and she used golden sand grains as building blocks. She painted on the sand and made amazing castles with towers that looked like they reached the sky with each stroke of her brush. As Barbie worked on her masterpieces, she could feel the beauty of the water in every grain of sand. This showed how creative she was. The people of Seashell Cove were amazed by Barbie's artistic skills, but it was also her unshakable love of the sea. Barbie would spend her afternoons sitting on a worn-out piece of driftwood and looking out at the waves that were moving in the sun. She watched as their foamy fingers touched the shore, making it swell and break. Barbie saw more than just beauty in the waves. She thought they showed how life goes up and down. She thought of them as a sign that things are always changing and that even when things are bad, there is beauty. The sound of the waves hitting the shore was like a natural symphony. It was a sea music that spoke to her deeply. As the days turned into weeks and weeks into months, Barbie's love for the ocean grew. She learned how to read the waves and guess how the sea would feel. She found secret coves and pools full of colorful fish darting in and out of coral gardens and seahorses dancing under seaweed that was waving. She went underwater to hide. There, she could swim with her friends and enjoy the beautiful colors and beauty of the ocean. But even with all of these wonderful things, Barbie still had one wish that she couldn't grant. The older people in Seashell Cove had taught her in whispers about the magical beings that lived in the ocean's deepest parts. What they said was that they had seen mermaids with beautiful tails that sparkled like moonlight on water. Barbie had always wished she could meet a real mermaid, but she never quite got the chance. She had no idea that her life was about to take a crazy turn and that she would meet a mermaid, which was her dream. In Seashell Cove, where the green waters meet the rough rocks, Barbie was about to have a miracle that would change her life.

**The Empty Seashell** Nils Bubandt,2015-05-06 The Empty Seashell explores

what it is like to live in a world where cannibal witches are undeniably real yet too ephemeral and contradictory to be an object of belief In a book based on more than three years of fieldwork between 1991 and 2011 Nils Bubandt argues that cannibal witches for people in the coastal and predominantly Christian community of Buli in the Indonesian province of North Maluku are both corporeally real and fundamentally unknowable Witches known as gua in the Buli language or as suanggi in regional Malay appear to be ordinary humans but sometimes especially at night they take other forms and attack people in order to kill them and eat their livers They are seemingly everywhere and nowhere at the same time The reality of gua therefore can never be pinned down The title of the book comes from the empty nautilus shells that regularly drift ashore around Buli village Convention has it that if you find a live nautilus you are a gua Like the empty shells witchcraft always seems to recede from experience Bubandt begins the book by recounting his own confusion and frustration in coming to terms with the contradictory and inaccessible nature of witchcraft realities in Buli A detailed ethnography of the encompassing inaccessibility of Buli witchcraft leads him to the conclusion that much of the anthropological literature which views witchcraft as a system of beliefs with genuine explanatory power is off the mark Witchcraft for the Buli people doesn't explain anything In fact it does the opposite it confuses obfuscates and frustrates Drawing upon Jacques Derrida's concept of aporia an interminable experience that remains continuously in doubt Bubandt suggests the need to take seriously people's experiential and epistemological doubts about witchcraft and outlines by extension a novel way of thinking about witchcraft and its relation to modernity

**Magic in Apuleius' ›Apologia‹** Leonardo Costantini, 2019-01-14 Despite the growing interest in Apuleius' Apologia or Pro se de magia a speech he delivered in AD 158-159 to defend himself against the charge of being a magus the only comprehensive study on this speech and magic to date is that by Adam Abt 1908 The aim of this volume is to shed new light on the extent to which Apuleius' speech reveals his own knowledge of magic and on the implications of the dangerous allegations brought against Apuleius By analysing the Apologia sequentially the author does not only reassess Abt's analysis but proposes a new reconstruction of the prosecution's case arguing that it is heavily distorted by Apuleius Since ancient magic is the main topic of this speech an extensive discussion of the topic is provided offering a new semantic taxonomy of magus and its cognates Finally this volume also explores Apuleius' forensic techniques and the Platonic ideology underpinning his speech It is proposed that a Platonising reasoning distinguishing between higher and lower concepts lies at the core of Apuleius' rhetorical strategy and that Apuleius aims to charm the judge the audience and ultimately his readers with the irresistible power of his arguments
