**The First Dinosaur** Ian Lendler, 2019-10-08 A Kirkus Reviews Best Middle Grade Book of 2019 An Orbis Picture Recommended Title An outstanding case study in how science is actually done funny nuanced and perceptive Kirkus Reviews starred review Join early scientists as they piece together one of humanity's greatest puzzles the fossilized bones of the first dinosaur Dinosaurs existed That's a fact we accept today But not so long ago the concept that these giant creatures could have roamed Earth millions of years before humans was unfathomable People thought what we know as dinosaur bones were the bones of giant humans Of large elephants Of angels even So how did we get from angel wings to the T Rex The First Dinosaur tells the story of the idea of dinosaurs and the chain of fossil discoveries and advances in science that led to that idea Be prepared to meet eccentric men and overlooked women who uncovered the pieces to a puzzle so much bigger than themselves a puzzle far stranger and more spectacular than they could have ever imagined

**Alternative Kinships** Jacob Emery, 2017-05-15 According to Marx the family is the primal scene of the division of labor and the germ of every exploitative practice In this insightful study Jacob Emery examines the Soviet Union's programmatic effort to institute a global siblinghood of the proletariat revealing how alternative kinships motivate different economic relations and make possible other artistic forms A time in which literary fiction was continuous with the social fictions that organize the social economy the early Soviet period magnifies the interaction between the literary imagination and the reproduction of labor onto a historical scale Narratives dating back to the ancient world feature scenes in which a child looks into a mirror and sees someone else reflected there typically a parent In such scenes two definitions of the aesthetic coincide art as a fantastic space that shows an alternate reality and art as a mirror that reflects the world as it is In early Soviet literature mirror scenes illuminate the intersection of imagination and economy yielding new relations destined to replace biological kinship relations based in food language or spirit These metaphorical kinships have explanatory force far beyond their context providing a vantage point onto for example the Gothic literature of the early United States and the science fiction discourses of the postwar period Alternative Kinships will appeal to scholars of Russian literature comparative literature and literary theory as well as those interested in reconciling formalist and materialist approaches to culture
