Taxing Ourselves, fourth edition Joel Slemrod, Jon Bakija, 2008-02-08 The fourth edition of a popular guide to the key issues in tax reform discussing the current system and alternative proposals clearly and without a political agenda As Albert Einstein may or may not have said The hardest thing in the world to understand is the income tax Indeed to follow the debate over tax reform the interested citizen is forced to choose between misleading sound bites and academic treatises Taxing Ourselves bridges the gap between the two by discussing the key issues clearly and without a political agenda Should the federal income tax be replaced with a flat tax or sales tax Should it be left in place and reformed Can tax cuts stimulate the economy or will higher deficits undermine any economic benefit Authors and tax policy experts Joel Slemrod and Jon Bakija lay out in accessible language what is known and not known about how taxes affect the economy offer guidelines for evaluating tax systems and provide enough information to assess both the current income tax system and the leading proposals to reform or replace it including the flat tax and the consumption tax The fourth edition of this popular guide has been extensively revised to incorporate the latest information covering such recent developments as the Bush administration's tax cuts which expire in 2011 and the alternatives proposed by the President's Advisory Panel on Federal Tax Reform Slemrod and Bakija provide us with the knowledge and the tools including an invaluable voter's guide to the tax policy debate to make our own informed choices about how we should tax ourselves

The Roman Military Base at Dura-Europos, Syria Simon James, 2019-02-07 Dura Europos a Parthian ruled Greco Syrian city was captured by Rome c AD165 It then accommodated a Roman garrison until its destruction by Sasanian siege c AD256 Excavations of the site between the World Wars made sensational discoveries and with renewed exploration from 1986 to 2011 Dura remains the best explored city of the Roman East A critical revelation was a sprawling Roman military base occupying a quarter of the city's interior This included swathes of civilian housing converted to soldiers accommodation and several existing sanctuaries as well as baths an amphitheatre headquarters and more temples added by the garrison Base and garrison were clearly fundamental factors in the history of Roman Dura but what impact did they have on the civil population Original excavators gloomily portrayed Durenes evicted from their homes and holy places and subjected to extortion and impoverishment by brutal soldiers while recent commentators have envisaged military civilian concordia with shared prosperity and integration Detailed examination of the evidence presents a new picture Through the use of GPS satellite geophysical and archival evidence this volume shows that the Roman military base and resident community were

even bigger than previously understood with both military and civil communities appearing much more internally complex than has been allowed until now The result is a fascinating social dynamic which we can partly reconstruct giving us a nuanced picture of life in a city near the eastern frontier of the Roman world
