many ways in which nature performs as a cultural category a moral marker and a set of essential conditions through which the human may pass as well as affect Addressing the complex conditions of the play worlds the chapters explore the assorted forms through which Shakespeare's nature makes sense of its narratives and supports upholds or contests its story telling Over the course of the collection the contributors examine plays including Macbeth Julius Caesar The Tempest The Taming of the Shrew Othello Love's Labour's Lost Hamlet Timon of Athens and many more They discuss them through the various lenses of philosophy historicism psychoanalysis gender studies cosmography geography sexuality linguistics environmentalism feminism and robotics to provide new and nuanced readings of the intersectional terms of both meaning and matter Approaching nature in all its multiplicity this collection sets out to examine the divergent and complex ways in which the human and non human worlds intersect and the development of a language of symbiosis that attempts to both control and create the terms of human authority It offers an entirely new approach to the subject of nature bringing together disparate methods that have previously been pursued independently to offer a shared investment in the intersections between the human and non human worlds and how these discourses shape and condition the emotional organic cultural and psychological landscapes of Shakespeare's play worlds [Celebrating Shakespeare](#) Clara Calvo, Coppélia Kahn, 2015-11-19

On the 400th anniversary of Shakespeare's death this collection opens up the social practices of commemoration to new research and analysis An international team of leading scholars explores a broad spectrum of celebrations showing how key events such as the Easter Rising in Ireland the Second Vatican Council of 1964 and the Great Exhibition of 1851 drew on Shakespeare to express political agendas In the USA commemoration in 1864 counted on him to symbolise unity transcending the Civil War while the First World War pulled the 1916 anniversary celebration into the war effort enlisting Shakespeare as patriotic poet The essays also consider how the dream of Shakespeare as a rural poet took shape in gardens how cartoons challenged the poet's elite status and how statues of him mutated into advertisements for gin and Disney cartoons Richly varied illustrations supplement these case studies of the diverse complex and contradictory aims of memorialising Shakespeare [A Concordance to Shakespeare's Poems](#) Helen Kate Rogers Furness, 1875 **A**
