## **Shamanic Psychopomp:**

**Death Walkers** David Kowalewski PhD, 2015-08-19 It may be one of the most complex questions ever asked What really happens to the soul after death Some discarnate souls may cross over others may stay in the earthy realm to help or protect family members and other earthbound souls may need to work through psychospiritual dilemmas before being escorted to the Other Side with help from a shaman psychopomp Dr David Kowalewski relies on personal experiences and his studies with shamans of many continents to illuminate the mysterious worlds of life death and afterlife and share an inside look at the ancient craft of psychopomping While presenting over ninety cases of psychopomp work Dr Kowalewski offers statistics that explain why souls become earthbound relay how often unfamiliar spirits show up during journeys and provide reasons why shamanic protocols practices and adventures with the dead in daily life can help the task along Included are other fascinating examples of psychopomp practices of indigenous peoples from around the world Death Walkers shares compelling stories and evidence for why there are ghosts around us and the important role shamans play in guiding these earthbound souls to their final resting places Drawing on first hand accounts and cross cultural research David Kowalewski offers us an engaging Western perspective on the art and methods of the psychopomp Bill Plotkin PhD author of *Soulcraft* This is an important book for the times we live in for as people die more consciously the more conscious the earth becomes Sandra Ingerman MA author of *Soul Retrieval*

**Shamanic Psychopomp** F. J. Fritz, 2003-07-01 Throughout time the shaman has carried the responsibility of escorting the souls of kindred members to the realms of beyond Today this service is still greatly needed Although the knowledge of how to accomplish this task has faded as the close knit tribal community has given way to modern civilization shamanic practitioners are discovering the call to guide souls or to act as a psychopomp inadvertently through their ecstatic journeys Legendary works such as *Pert em hur* *Bardo Th dol* and *Ars Moriendi* provided a map of the afterlife But what is the destiny of those who have not been exposed to these manuals of post mortem navigation Without this directional knowledge many souls become stuck in the liminal space between realms Thus the need of a guide to assist in completing the crossing Presented in an effort to provide the seasoned practitioner familiar with the basic concepts of shamanism with a guide I provide first hand accounts to assist the reader with examples of how to accomplish the sacred task of psychopomp Additionally I explore why some spirits are unable to complete the crossing and how the shamanic practitioner deals with the trauma entailed in performing the role of psychopomp

**The Nature of Shamanism and the Shamanic Story** Michael Berman, 2009-03-26 The book makes out a case for the introduction of a new genre of tale the shamanic story which has either been based on or inspired by a shamanic journey or contains a number of the elements that are typical of such a journey The stories featured are the Book of Jonah from the Old Testament two traditional stories from the Republic of Georgia *The Earth will take its Own* and *Davit* a contemporary German tale *Bundles* and the Korean story of *Shimchong the Blindman s Daughter* By making use of textual material from a number of different cultures and times the

intention is to highlight the pervasive influence shamanism has had and to show how the new genre being proposed is a universal one The research questions addressed include 1 defining what shamanism is deciding whether it should be classified as a religion a methodology or a way of life 2 considering whether a case can be made out for the introduction of a new genre of tale and if so what its characteristics are It is hoped the book will be of interest not only to those involved in the study of shamanism but also to those whose interest is in the study of literary texts Since the old bearers of shamanic traditions quite often were and even today are illiterate the study of their folklore epic songs laments narratives undoubtedly provides a rich source for research

**An Introduction to Shamanism** Thomas A. DuBois, 2009-05-14 This Introduction surveys the beliefs rituals and techniques found in shamanic traditions around the world *Divination and the Shamanic Story* Michael Berman, 2009-03-26 Stories have traditionally been classified as epics myths sagas legends folk tales fairy tales parables or fables However the definitions of the terms have a tendency to overlap making it difficult to classify and categorize material For this reason a case can be made for the introduction of a new genre termed the shamanic story a story that has either been based on or inspired by a shamanic journey a numinous experience in non ordinary reality or one that contains a number of the elements typical of such a journey Other characteristics include the way in which the stories all tend to contain embedded texts often the account of the shamanic journey itself how the number of actors is clearly limited as one would expect in subjective accounts of what can be regarded as inner journeys and how the stories tend to be used for healing purposes Within this new genre it is proposed that there exists a sub genre shamanic stories that deal specifically with divination and examples are presented and analysed to support this hypothesis By means of textual analysis it can be shown they all share certain attributes in common the identification of which forms the conclusion of the work

balanced states of each circuit offering many psychological profiles as examples He reveals how activating a circuit that has been neglected can help bring another into balance Connecting this model of conscious evolution to shamanism the oldest consciousness science known to man the author explains how to balance and upgrade your own circuits through shamanic techniques He reveals how to reconnect with source energy by deprogramming trauma from your childhood that can affect your circuits With access to this unlimited energy you can activate your innate creative power to manifest your desires and shape reality Uniting shamanism and the law of attraction with advanced concepts of modern psychology quantum physics and the Akashic field theory of Ervin Laszlo Laurent Huguelit offers a practical map of human consciousness and the development of the soul as well as a vision for the cybernetic future of shamanism Natural Born Shamans - A Spiritual Toolkit for Life Imelda Almqvist, 2016-08-26 Natural Born Shamans A Spiritual Toolkit for Life covers all aspects of performing spiritual or shamanic work with children and young people It is aimed at anyone who has an interest in young people and their spiritual journey and covers all age groups from in utero until age 18 The book explains what shamanic parenting is and describes ways of doing spirit led work even with both unborn babies and spirit children after miscarriage abortion or early death It also provides 30 tried and tested session plans for people looking for inspiration and where to start

**The Deer Goddess of Ancient Siberia** Esther Jacobson, 2018-08-14 Central to this study is the image of the deer within the iconography of the Early Nomads of South Siberia By examining the symbolic structures revealed in the art and archaeology of the Early Nomads the author challenges existing theories regarding Early Nomadic cosmology The reconstruction of meanings embedded in the deer image carries the investigation back to rock carvings paintings and monolithic stelae of South Siberia and northern Central Asia from the Neolithic period down through the early Iron Age The succession of images dominating that artistic tradition is considered against the background of cultures including the Baykal Neolithic Afanasevo Okunev Andronovo and Karasuk evolving from a hunting fishing dependency to a dependency on livestock The archaic mythic traditions of specific Siberian groups are also found to lend critical detail to the changing symbolic systems of South Siberia
