Sidky, 2008-01-01 *Haunted by the Archaic Shaman* critically engages the general discourse on shamanism by using ethnographic data gathered among different ethnic groups in the Nepal Himalayas to address several key conceptual issues and problems in the scholarly field of shamanic studies *The Constitution and Contestation of Darhad Shamans' Power in Contemporary Mongolia* Judith Hangartner, 2011-04-07 This book offers an in depth insight into post socialist rural shamans in Mongolia thereby making a rare but important contribution to the ethnography of both Inner Asia and Southern Siberia It examines the social making of shamans in particular those of the Shishget depression of the northernmost borders of Mongolia By analysing practices discourses and performances in local and national arenas the author traces the social constitution of the shamans inspirational power examines the shamans performance of power during the seance discusses the economy of reputation of successful shamans and scrutinizes their legitimizing practices The study will be welcomed by students of social cultural anthropology and religious studies with a particular interest in shamanism or ritual studies *The Life of a Galilean Shaman* Pieter F Craffert, 2010-02-25 The aim of historical Jesus research is to identify the authentic material from which the historical figure as a social type underneath the overlay is constructed Pieter Craffert's anthropological historiography offers an alternative framework for dealing with Jesus of Nazareth as a social personage fully embedded in a first century Mediterranean worldview and the Gospels as cultural artefacts related to this figure This cross cultural model represents a religious pattern that refers to a family of features for describing those religious entrepreneurs who based on regular Altered State of Consciousness experiences perform a specific set of social functions in their communities *Shamanism, Discourse, Modernity* Thomas Karl Alberts, 2016-03-03 *Shamanism Discourse Modernity* considers indigenous peoples struggles for human rights anxieties about anthropocentric mastery of nature neoliberal statecraft and entrepreneurialism of the self The book focuses on four domains shamanism indigenism environmentalism and

neoliberalism in terms of interrelated historical processes and overlapping discourses In doing so it engages with shamanism's manifold meanings in a world increasingly sensitive to indigenous peoples practices of territoriality increasingly concerned about humans integral relationship with natural environments and increasingly encouraged and coerced to adjust self conduct to comport with and augment government conduct The Beauty of the Primitive Andrei A. Znamenski, 2007-07-16

For the past forty years shamanism has drawn increasing attention among the general public and academics There is an enormous literature on shamanism but no one has tried to understand why and how Western intellectual and popular culture became so fascinated with the topic Behind fictional and non fictional works on shamanism Andrei A Znamenski uncovers an exciting story that mirrors changing Western attitudes toward the primitive The Beauty of the Primitive explores how shamanism an obscure word introduced by the eighteenth century German explorers of Siberia entered Western humanities and social sciences and has now become a powerful idiom used by nature and pagan communities to situate their spiritual quests and anti modernity sentiments The major characters of The Beauty of the Primitive are past and present Western scholars writers explorers and spiritual seekers with a variety of views on shamanism Moving from Enlightenment and Romantic writers and Russian exile ethnographers to the anthropology of Franz Boas to Mircea Eliade and Carlos Castaneda Znamenski details how the shamanism idiom was gradually transplanted from Siberia to the Native American scene and beyond He also looks into the circumstances that prompted scholars and writers at first to marginalize shamanism as a mental disorder and then to recast it as high spiritual wisdom in the 1960s and the 1970s Linking the growing interest in shamanism to the rise of anti modernism in Western culture and intellectual life Znamenski examines the role that anthropology psychology environmentalism and Native Americana have played in the emergence of neo shamanism He discusses the sources that inspire Western neo shamans and seeks to explain why lately many of these spiritual seekers have increasingly moved away from non Western tradition to European folklore A work of intellectual discovery The Beauty of the Primitive shows how scholars writers and spiritual seekers shape their writings and experiences to suit contemporary cultural ideological and spiritual needs With its interdisciplinary approach and engaging style it promises to be the definitive account of this neglected strand of intellectual history *Redefining Shamanisms* David Gordon Wilson, 2013-01-31

Spiritualism and mediumship are often regarded as the product of lingering superstition in the Victorian era and as having limited relevance in modern Anglo American society Scholarship to date which has considered Spiritualism as a distinct religious tradition has focussed on analysing the phenomenon in terms of spirit possession only This volume analyses the development of shamanism communication with the spiritual world as a concept within North American English speaking scholarship with particular focus on Mircea Eliade's influential cross cultural presentation of shamanism By re examining the work of Sergei Shirokogoroff one of Eliade's principal sources the traditional Evenki shamanic apprenticeship is compared and identified with the new Spiritualist apprenticeship The author demonstrates that Spiritualism is best understood as a

traditional shamanism as distinct from contemporary appropriations or neo shamanisms He argues that shamanism is the outcome of an apprenticeship in the management of psychic experiences and which follows the same pattern as that of the apprentice medium In doing so the author offers fresh insights into the mechanisms that are key to sustaining mediumship as a social institution **Shamanism in the Contemporary Novel** Özlem Ögüt Yazicioglu,2022-03-14 Shamanism in the

Gnosticism and the History of Religions David G. Robertson,2021-08-12 Building on critical work in biblical studies which shows how a historically bounded heretical tradition called Gnosticism was invented this work focuses on the following stage in which it was essentialised into a sui generis universal category of religion At the same time it shows how Gnosticism became a religious self identifier with a number of sizable contemporary groups identifying as Gnostics today drawing on the

same discourses This book provides a history of this problematic category and its relationship with scholarly and popular discourse on religion in the twentieth century It uses a critical historical method to show how and why Gnosis Gnostic and Gnosticism were taken up by specific groups and individuals practitioners and scholars at different times It shows how ideas about Gnosticism developed in late nineteenth and twentieth century scholarship drawing from continental phenomenology Jungian psychology and post Holocaust theology to be constructed as a perennial religious current based on special knowledge of the divine in a corrupt world David G Robertson challenges how scholars interact with the category Gnosticism and contributes to our understanding of the complex relationship between primary sources academics and practitioners in category formation
