date psychological research with penetrating insight into the emotional realities of substance abuse. It provides a clear and practical model for understanding the shame-guilt-addiction cycle. *Shame, Guilt, and Alcoholism* provides constructive suggestions to therapists for treating substance-abusing clients and their affected family members. By treating destructive inappropriate or excessive shame and guilt, therapists can help their clients free themselves from the downward spiral of addiction and begin to build on their genuine strengths. It explores the positive functions of shame and guilt, describes the conscious and subconscious defense mechanisms against them, and highlights the crucial family behaviors that initiate and encourage shame and guilt. *Shame, Guilt, and Alcoholism* thoroughly explains the significant differences between shame and guilt, including clients' experiences of failure, primary responses and feelings, precipitating events, and involvement of self, origins, and central fears. *Shame, Guilt, and Alcoholism* adds immeasurably to our understanding of the total recovery process. It is an essential resource for therapists, social workers, psychologists, substance abuse counselors, and educators in the field.

*The Moral Psychology of Guilt* Bradford Cokelet, Corey J. Maley, 2019-10-10. In most Western societies, guilt is widely regarded as a vital moral emotion. In addition to playing a central role in moral development and progress, many take the capacity to feel guilt as a defining feature of morality itself; no truly moral person escapes the pang of guilt when she has done something wrong. But proponents of guilt's importance face important challenges, such as distinguishing healthy from pathological forms of guilt and accounting for the fact that not all cultures value guilt in the same way, if at all. In this volume, philosophers and psychologists come together to think more systematically about the nature and value of guilt. The book begins with chapters on the biological origins and psychological nature of guilt and moves on to discuss the culturally enriched conceptions of guilt and its value that we find in various eastern and western philosophic traditions. In addition, numerous chapters discuss healthy or morally valuable forms of guilt and their pathological or irrational shadows.

*The Theater of Trauma* Michael Cotsell, 2005. *The Theater of Trauma* is a groundbreaking rereading of the relations between psychology and drama in the age of Eugene O'Neill, Susan Glaspell, and their many brilliant contemporaries. American modernist Theater of Trauma drew its vision from the psychological investigation of trauma and its consequences among them: hysteria and dissociation made by French and American psychiatrists such as the great Pierre Janet, Alfred Binet, William James, Morton Prince, and W. E. B. Du Bois; the European and American dissociationist culture that developed around their work; and the resulting trauma of World War I. American dramatists' deep resistance to Freud's suppression of trauma challenges the equation of Freud and modernism that has become commonplace in modernist criticism.

Sirvent, Duncan B. Reyburn, 2020-01-01 What does failure mean for theology In the Bible we find some unsettling answers to this question We find lastness usurping firstness and foolishness undoing wisdom We discover too a weakness more potent than strength and a loss of life that is essential to finding life Jesus himself offers an array of paradoxes and puzzles through his life and teachings He even submits himself to humiliation and death to show the cosmos the true meaning of victory As David Bentley Hart observes most of us would find Christians truly cast in the New Testament mold fairly obnoxious civically reprobate ideologically unsound economically destructive politically irresponsible socially discreditable and really just a bit indecent By incorporating the work of scholars working with a range of frameworks within the Christian tradition Theologies of Failure aims to offer a unique and important contribution on understanding and embracing failure as a pivotal theological category As the various contributors highlight it is a category with a powerful capacity for illuminating our theological concerns and perspectives It is a category that frees us to see old ideas in a brand new light and helps to foster an awareness of ideas that certain modes of analysis may have obscured from our vision In short this book invites readers to consider how both theology and failure can help us ask new questions discover new possibilities and refuse the ways of the world      **The**
