The book provides rich evidence of the breadth and depth of new research being carried out in the dynamic field of Iberian studies at present As the title suggests a strong thread running through the collection is concerned with investigating the multiple spaces of tension between the centre and periphery that comprise the Iberian cultural system Topically the current situation in Catalonia naturally comes to the fore in a number of chapters and from a range of perspectives However in the revisiting of a range of cultural products and historical processes undertaken by the contributors it can be seen that transoceanic postcolonial relations are not neglected and concerns with history memory and fiction also weave their way through their work The 20th Century A-GI Frank N. Magill, 2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography Shame in Shakespeare Ewan Fernie, 2012-09-10 One of the most intense and painful of our human passions shame is typically seen in contemporary culture as a disability or a disease to be cured Shakespeare's ultimately positive portrayal of the emotion challenges this view Drawing on philosophers and theorists of shame Shame in Shakespeare analyses the shame and humiliation suffered by the tragic hero providing not only a new approach to Shakespeare but a committed and provocative argument for reclaiming shame The volume provides an account of previous traditions of shame and of the Renaissance context a thematic map of the rich manifestations of both masculine and feminine shame in Shakespeare detailed readings of Hamlet Othello and King Lear an analysis of the limitations of Roman shame in Antony and Cleopatra and Coriolanus a polemical discussion of the fortunes of shame in modern literature

after Shakespeare The book presents a Shakespearean vision of shame as the way to the world outside the self It establishes the continued vitality and relevance of Shakespeare and offers a fresh and exciting way of seeing his tragedies Buñuel, Dalí Gwynne Edwards, 2009-06-17 Lorca Bunuel and Dali were in their respective fields of poetry and theatre cinema and painting three of the most imaginative creative artists of the twentieth century their impact was felt far beyond the boundaries of their native Spain But if individually they have been examined by many their connected lives have rarely been considered It is these the ties that bind them that constitute the subject of this illuminating book They were born within six years of each other and as Gwynne Edwards reveals their childhood circumstances were very similar Each was affected by a narrow minded society and an intolerant religious background which equated sex with sin and led all three to experience sexual problems of different kinds Lorca the guilt and anguish associated with his homosexuality Bunuel feelings of sexual inhibition and Dali virtual impotence Having met during the 1920s at the Residencia de Estudiantes in Madrid they developed intense personal relationships and channelled their respective obsessions into the cultural forms then prevalent in Europe in particular Surrealism Rooted in emotional turmoil their work from Lorca's dramatic characters in search of sexual fulfilment to Bunuel's frustrated men and women and Dali's potent images of shame and guilt is highly autobiographical Their left wing outrage directed at bourgeois values and the Catholic Church was strongly felt and in the case of Lorca in particular was sharpened by the catastrophic Civil War of 1936 9 during the first months of which he was murdered by Franco's fascists The war hastened Bunuel's departure to France and Mexico and Dali's to New York Edwards describes how for the rest of his life Bunuel clung to his left wing ideals and made outstanding films while the increasingly eccentric and money obsessed Dali embraced Fascism and the Catholic Church and saw his art go into rapid decline Amazons in the Digital Era Arturo Sánchez Sanz, 2025-09-04 For more than 3 000 years the Amazons have been a recognised symbol that transcends mythology and has influenced history itself. The image of the powerful warrior woman who defied the established patriarchal order proved so compelling that it became permanently enshrined in the collective imagination first through oral tradition and later through texts and images The contributions in this volume explore how this image has endured through the lens of classical reception From Wonder Woman to the war in Ukraine and across diverse genres such as video games fashion warfare and documentary film the Amazonian archetype has evolved beyond anything once imagined Today however we are witnessing a true transformation No longer embodying the negative traits the Greeks once ascribed to them the Amazons have become a symbol of strength resilience and empowerment a model for women s rights in a global society and an icon of feminism and the LGBTQIA community Divided into three parts this book analyses how the image of the Amazon has at different times and in different contexts been marginalised put on a pedestal and globalised For the first time media case studies and lived histories are examined to compare and contrast modern frameworks with each other and with the original Amazonian iconography What emerges is a concept of the Amazon as a modern paradigm that speaks as strongly to

contemporary society as it did to the ancients but with a very different meaning Dalí, Surrealism and Cinema Elliott King, 2007-09-28 One of the most widely recognized and controversial artists of the 20th century Salvador Dal was also an avant garde filmmaker collaborating with such giants as Luis Bu uel Walt Disney and Alfred Hitchcock Influenced by the Marx Brothers Buster Keaton and Stanley Kubrick Dal used the cinema to bring the dream subjects of his paintings to life providing the groundwork for revolutionary forays into television video photography and holography From a moviegoing experience that would incorporate all five senses to the tale of a woman's hapless love affair with a wheelbarrow Dal's hallucinatory vision never fails to leave its indelible mark while his writings continue to be relevant to discourses surrounding film and surrealism Latin American Cinema Lisa Shaw, Stephanie Dennison, 2014-10-01 Renewed interest in Latin American film industries has opened a host of paths of scholarly exploration Productions from different countries reflect particular social attitudes political climates and self conceptions and must be considered separately and as a whole The search for national identity is a key component of Latin American films in a time of decreasing cultural diversity and pressures to westernize Globalization and falling government support have fueled cross border collaborations calling into question the idea of a movie's nationality and leaving some nations film industries on the brink of collapse Whether thriving or barely surviving struggling to remain distinct or embracing globalization on its own terms addressing the government or society Latin American cinema remains vibrant offering a wealth of material to scholars of all stripes These collected essays explore important elements of Latin American cinema and its associated national film industries The first section of essays examines the impact of modernization on both Latin American screen images and the industry itself offering modern and historical perspectives The second section focuses on filmmakers who deal with issues of gender and sexuality whether sexual transgression the role of female characters or societal attitudes towards sex and nudity The final section of essays discusses the relationship between national identity and Latin American film industries how movies are used to create a sense of self Uruguay's ongoing identity crisis and Brazil's use of Hollywood's stereotypical depiction of the country to depict itself Photographs and an annotated bibliography accompany each essay and an index supplements the text Hello Goodbye Hello Craig Brown, 2013-08-20 A collection of whimsical true encounters between famous and infamous individuals describes the unlikely meetings of Marilyn Monroe with Frank Lloyd Wright Michael Jackson with Nancy Reagan and Sigmund Freud with Gustav Mahler Political Theory and Film Ian Fraser, 2018-01-15 The actions images and stories within films can impact upon the political consciousness of viewers enabling their audience to imagine ways of resisting the status quo politically economically and culturally But what does political theory have to say about film Should we explore film theory through a political lens Why might individuals respond to the political within films This book connects the work of eight radical political theorists to eight world renowned films and shows how the political impact of film on the aesthetic self can lead to the possibility of political resistance Each chapter considers the work of a core thinker on film shows its relevance in terms of a specific case study film then highlights how these films probe political issues in a way that invites viewers to think critically about them both within the internal logic of the film and in how that might impact externally on the way they live their lives Examining this dialogue enables Ian Fraser to demonstrate the possibility of a political impact of films on our own consciousness and identity and that of others
